

SCOTT'S EMULSION

stops loss of flesh in babies and children and in adults in summer as well as winter. Some people have gained a pound a day while taking it.

Take it in a little cold water or milk. Get a small bottle now. All Druggists.

COUNTY COUNCIL.

Upper Woodstock, June 15th.

County Council met at 10 a. m. The following councillors were present:

Aberdeen—D. H. Lumont, E. S. Gillmor. Brighton—C. J. Connolly, Allen Bradley. Northampton—Henry Phillips. Kent—John Keenan, John Kinney. Richmond—Jonn M. Hay, Alec Bell. Wakefield—Frank R. Shaw, Albert Bell. Wilmet—J. F. Williams, B. Burns King. Wicklow—W. J. Owens, Clarence Estey. Peel—Wm Tompkins, Edwin Mellville. Simonds—Wm. R. deout, O'tbur Shaw. Woodstock (parish)—F. B. Bull, John Flemming.

Woodstock (town)—H. T. Stevens, Wm. Balmain, J. R. Brown.

The only absentee was Coun. Alex Brown of Northampton who is on business out of the county.

Coun. Shaw, warden, was in the chair.

After the reading and adoption of the minutes, Mr. Vince, auditor, said he had received no reports since the last meeting of the council and therefore he had no report to make. He said this was unfair to the sec-treas and unfair to the council and he thought something decisive should be done by the council. He could only suggest that the councillors should go to the collectors and make them report. The collectors who had not made returns were in the parishes of Kent and Brighton. One collector in Brighton had not reported for three years.

Coun. Gilmore—Is that possible?

Mr. Vince—Not only possible but it is a fact.

Coun. Bradley said he had spoken again and again to Mr. Currie who had not made returns. He had been at him over 25 times, and every time the collector promised he would but he had not. He had told him that it made him ashamed to go before the council.

Coun. Balmain on behalf of the Finance committee said that he believed the sec-treas had better take the necessary steps to secure the funds as required.

The sec-treas explained that he had had a conference with the chairman as to the advertising for tenders for the Court House Debentures. The advertisement will be at once and the debentures issued. He would suggest that the matter of advertising for sale of debenture be left over till after dinner. In the meantime he would confer with the Finance Committee.

Coun. Mellville suggested that it would be a wiser plan instead of paying \$1000 each year for the first thirteen years and \$2000 from that out, and he would favor such, to pay no principal until say 13 years, so that the goal debt might be paid first.

Warden—It would be necessary to have a motion to reconsider.

Coun. Mellville said he was not wedded to his idea if the council was satisfied with the present arrangement.

Coun. Phillips on behalf of the Building Committee said that the contract price for Court House outside of plumbing and heating was \$21,930. This included \$200 repairs for the Record office. Richard Allingham was appointed Inspector at the wages of \$3.00 a day.

Mr. Elgett was taking charge of the work of building for the contractor, Mr. Corbett.

Mr. Mellville said that besides this work of inspecting by Mr. Allingham, Mr. Brodie the architect was engaged to come once a week at \$20 a trip for general inspection.

In regard to the heating, after conferring with the architect, the committee had decided to take out the old furnace in the Record Office and put in a new one, and this, with the new furnace in the Court house would afford a good heating apparatus. The Court House proper would be heated by hot air and the Record Office and lavatory

with hot water. The Court House is to be finished by the 1st of January next.

Coun. Tompkins did not think much of the idea of a special inspection by the architect.

Coun. Mellville said that Mr. Brodie was particularly anxious to have this inspection, as he thought it would prevent neglect in the work. He would come at such times as he thought best, and without notice to contractor or workmen.

Report duly received.

Coun. Williams reported as follows on behalf of this committee appointed to wait on the government in the matter of the St. John Valley Road:

"We, the delegates appointed to wait on the Local Government in the matter of the St. John Valley Railway, beg leave to report that we attended to that duty and met at Fredericton with a number of delegates from St. John and all the counties interested in the Road and appointed delegates to speak before the government, viz:—Mr. Foster, St. John; Mayor Chesnut, Fredericton; S. L. Peters, Queens County; B. F. Smith, Florenceville. The delegates asked the government to guarantee the bonds to the amount of \$25,000 a mile. The Premier replied and promised the delegates that the government would grant the request if delegates would be sent to Ottawa, who would asked the Dom. Govt to take over the line when completed on the 40% and 60% basis; that is, if they would pay the local government 40% to pay interest on the bonds and retain 60% for running expenses, etc. There were also a number of gentlemen appointed to form a company and to ask the government for a charter which meant more expense. We were asked for \$100 towards that fund, which amount we promised and for which we ask a refund from the county. There has not been as much progress as we expected towards building the road but we believe it must be built as the country is earnest over it.

Signed by J. F. WILLIAMS, E. S. GILLMOR.

Coun. Gilmore spoke on the subject. This railway must be built. There must be sleepers on the turf or wigs on the green, before long. There was no politics in this movement. While not as much progress had been made, as was hoped would be, it was generally believed that the work would be carried out. The road must be built, for the people demand.

Coun. J. R. Brown moved that the reports be accepted and the request be granted. Coun. Rideout seconded the motion.

Coun. Mellville wanted to know when this \$100.00 would be wanted.

Coun. Williams said a charter was already granted. It was for the expenses of that charter that this \$100.00 was wanted. Report received and recommendations ordered carried out.

Coun. Owens moved that the delegates on the Valley Railway have their expenses paid to Fredericton. Coun. Kinney seconded the motion. Carried.

Coun. Connolly speaking of a motion of which he had given notice to the effect that by-law no 28 be amended by striking out the word "two" and writing "three" instead, said this would mean that the councillors should be paid \$3.00 instead of \$2.00 a day. He would move now the resolution to that effect. He could not be charged with making the motion for a selfish purpose, as he had come to the time of life when he had about made up his mind to retire. He thought with the expenses of coming to council the members were really out of pocket and he did not believe that the representatives of the parish should be asked to do work for the county at a financial loss to themselves. He had already declined nomination to the council next fall as his hearing is as much affected.

Coun. Kinney seconded the motion.

Coun. Gilmore thought perhaps it would be as well to pay for the time coming from the time they left home, \$2.00 a day from the time they left home.

Coun. Bradley—I am opposed to this motion, because I think the people are paying us all that we earn. Even if there was no pay to the councillors, it would be found that there would be no lack of aspirants for the office.

Coun. Connolly—My time to-day is worth more than \$2.00. As to Mr. Bradley's argument, it is not always the man who wants the office, who is the best qualified. Any man should be paid enough to cover his expenses. In January here we sit two days; it means being away four days. He did not believe ten taxpayers in Brighton would oppose this motion.

Coun. Bull thought this matter should be left to next council. He moved a resolution that this matter be laid over till January. Coun. Phillips seconded the motion. Amendment carried.

Coun. Williams moved that the council go into the accounts after dinner with the warden in the chair. Carried.

Council adjourned until 1.30.

AFTER RECESS:—

The Council met into committees on the account, the warden in the chair; Jas. W. Wolverton (constable) \$29.40. Coun. Mellville moved bill paid less team hire. Seconded.

This reduced the bill by \$8 leaving the bill of \$21.40.

Coun. J. R. Brown said constables said they had agreed that the allowance is so small in the case of fees that they would not serve papers unless this team hire was paid.

Do you eat enough of this

The great benefit in health and strength that always is enjoyed by regular eaters of good oatmeal is known the world over. Every year there are more and more eaters of Quaker Oats, which is recognized in this country and in Europe as the one perfect oatmeal.

All the experiments of the government food experts and the athletic trainers of one of our great universities prove that cereal eaters are the strongest and healthiest, and Quaker Oats stands at the head of the list of cereal foods. It is not only the best food, but it's the cheapest food on earth. Eat it daily for breakfast. It's one of the best foods in the world; produced in Canada by Canadians.

For city trade Quaker Oats is packed in the regular size packages, but for those who are not conveniently near the store for daily shopping the large size family package is just the thing. The large package contains a piece of handsome china for the table.

He did not think an example should be made in this case.

Coun. Mellville claimed that this council business was overdone in this county. Constables were always hurrying over this county on criminal business. He would pay extras on important council business, but would not do it for this petty business which was going on. The county would be blessed if there was less of this work done. The people are kicking against this kind of thing.

Coun. Tompkins supported the view of Coun. Mellville. Motion carried.

Mr. Hartley pointed out that in case of a trip of 15 miles, the constable, by law, was allowed \$1.50 and he paid \$2.00 for his horse hire, so it cost him .50 for his trip.

To Mr. Gilmore—If there were four or five cases in one place, constables could charge mileage in each case, but if all the papers were in connection with one case they charge the 10 cts a mile.

J. P. Milne—reporting special session of council (April 1st) ordered paid. \$10.00 Press Printing Co. Ordered paid. 51.50 John R. Tompkins (gauler). Ordered paid. 73.05 W. W. Hay (coroner) 15.80

Coun. Mellville moved that the bill be paid less the \$4.00 team hire. (seconded).

Coun. Kinney—We want to pay a man for his work. He thought this would reduce the bill, too much.

Continued on 6th page.

In sickness, if a certain hidden nerve goes wrong, then the organ that this nerve controls will also surely fail. It may be a Stomach nerve, or it may have given strength and support to the Heart or Kidneys. It was Dr. Shoop that first pointed to this vital truth. Dr. Shoop's Restorative was not made to dose the Stomach nor to temporarily stimulate the Heart or Kidneys. That old-fashioned method is all wrong. Dr. Shoop's Restorative goes directly to these failing inside nerves. The remarkable success of this prescription demonstrates the wisdom of treating the actual cause of these failing organs. And it is indeed easy to prove. A simple five or ten days test will surely tell. Try it once, and see! Sold by All Dealers.

Kitchener's Query.

Lord Kitchener is not preparing to pay his farewell round of visits to the larger cantonments throughout India prior to his return to this country. First of all he will take a tour throughout China and Japan, and then it is understood that he will be given a post on the defence committee similar in scope to that now occupied by Admiral of the Fleet Sir Arthur Wilson. While he has been in India, Lord Kitchener has made tours of the military stations there, and has had at times some amusing experiences. One of the best of these occurred some two or three years ago at a certain hill station—not of the first importance—where an officer held the command who had a high opinion of his own military abilities. For the entertainment of Lord Kitchener, he caused his troops to go through a series of amazing evolutions, during the course of which everyone contrived to get thoroughly mixed up, and no one seemed to know precisely what was happening. At the conclusion of the manoeuvres the commanding officer turned to Lord Kitchener with a complacent smile and said: "There, sir, I flatter myself that that was extremely well done." "Oh, excellently," returned Kitchener grimly, "but what on earth were you trying to do, may I ask?"—M. A. P.

A Terrible Moment.

Willie (coming into the house breathlessly) —"Papa, hurry up! There's a man with a wagon outside to see you about putting in the coal."

Slimson—"Tell him I'm busy just now. Willie. I'll go out and see him in a few minutes."

Willie—"But you mustn't keep him waiting, papa. You don't know who he is. He is the father of the pitcher of our base-ball team."—Woman's Home Companion for June.

To Keep Light Dresses Clean.

Magnesia may be obtained either in powder or in square cakes, and it is very effective in cleaning laces and delicate fabrics. Sift or rub it on the parts to be cleaned, and lay them away in a box or drawer where they will be undisturbed for a day or so, and then shake them out. It is a very good plan to apply the magnesia in this way when putting away party dresses that have become slightly soiled. The magnesia is also effective, when applied in the same way, for removing grease-spots.—Woman's Home Companion for June.

CLOSING OUT SALE

Having decided to retire from business, our immense stock consisting of

Ready-Made Clothing, Dry Goods, Groceries, Boots and Shoes, Paints and Oils, Hardware, Etc.

will be sold in the next few weeks. Prices will be greatly reduced in all departments and the public will get the benefit. A few Ladies Fur Coats and Fur Neckwear will be sold at half price to clear. As this is a genuine sale at cost or less it will be as cash only. Produce taken at cash prices. Come early and get your choice of the bargains.

WHITE & TWEEDIE, Centreville.

Sale commenced on Saturday, the 15th.

WATCH NEWS.

What's the use of a watch that doesn't keep good time! One of these may be the reason:—

1st. It may be no good.
2nd. It may need cleaning or repairing.
3rd. It may be magnetized, which is the case more often than is known.

If it is the first—I can sell you a new one from a most choice assortment at various prices and everyone GUARANTEED PERFECTLY SATISFACTORY or money back.

If it is the second—I am an expert in the line of cleaning and repairing. There is an experience of 30 years behind and when a watch leaves my hands it is in perfect order. If it is the third—I have lately installed at considerable expense a DEMAGNETIZER with which I can remedy that wrong condition absolutely. No need to carry a watch that is unreliable.

C. E. VAIL,

Jeweler & Graduate Optician, Centreville, N. B.
