**Catarrh**

To prove unquestionably, and beyond any doubt, that Catarrh of the nose and throat can be cured, I am furnishing patients through druggists, small free trial boxes of Dr. Shoop's Catarrh Cure. I do this because I am so certain, that Dr. Shoop's Catarrh Cure will bring actual substantial help. Nothing certainly, is so convincing as a physical test of any article of real, genuine merit. But that article must possess true merit, else the test will condemn, rather than advance it. Dr. Shoop's Catarrh Cure is a snow white, healing anti-septic balm, put up in beautiful nickel capped glass jars at 50c. Such soothing agents as Oil Eucalyptus, Thymol, Menthol, etc., are incorporated into a velvety cream like Petroleum, imported by Dr. Shoop from Europe. If Catarrh of the nose and throat has extended to the stomach, then by all means also use internally, Dr. Shoop's Restorative. Stomach distress, a lack of general strength, bloating, belching, biliousness, bad taste, etc., surely call for Dr. Shoop's Restorative.

**The Crown.**  
He kept his eye upon the goal,  
Contentment ruled his heart and soul;  
He faced hard luck,  
With nerve and pluck  
And paid the world's exacting toll—  
His winning smile  
Made life worth while  
Each day he did his level best;  
He trudged along  
And sang a song  
Of cheer while riding on the crest;  
Though years of toil brought no return,  
Each knock but made Hope's bright light burn  
The brighter, and his dauntless air  
Struck from his life the word "Despair":  
He bore his load  
Along the road  
And, though he staggered 'neath its weight,  
He smiled to know  
He had a show  
To win, and did not hesitate,  
And when the world kicked hard and pressed,  
He grimly smiled, threw out his chest  
And joyed to know he stood the test,  
He lugged his burden  
And the burden  
Of success at last came by.  
And it crowned him  
When it found him  
With a crown that ne'er would die.  
—C. P. McDonald.

Some years ago, when Speaker Cannon was a plain member of the United States congress, he took one of his constituents to dine with him at rather a good hotel in Washington. It was in the fall and Mr. Cannon ate very heartily of that American edible, Indian corn; in fact, almost his entire dinner consisted of corn. The Westerner looked at him and said:  
"Say, Mr. Cannon, what does it cost you to board here?"  
"About five dollars a day," said Mr. Cannon.  
"I'll be darned," drawled his constituent, "if I don't think it would be cheaper for you to board at a livery stable!"

**Nature is Keeping Tab on You.**  
Young people rarely take good care of themselves. They are the ones who can eat anything, who can stay out late and feel fine the next day. They think they are so robust that they do not need to take care of themselves. And this is the reason so many folks grow old when they should be still in their prime; the reason, also, that many die young. Nature is keeping books on us and if youth wastes health and strength the overdraft is soon apparent.

Tickling, tight Coughs, can be surely and quickly loosened with a prescription Druggists are dispensing everywhere as Dr. Shoop's Cough Remedy. And it is so very different than common cough medicines. No Opium, no Chloroform, absolutely nothing harsh or unsafe. The tender leaves of a harmless, lung healing mountainous shrub, gives the curative properties to Dr. Shoop's Cough Remedy. Those leaves have the power to calm the most distressing Cough and to soothe and heal the most sensitive bronchial membrane. Mothers should, for safety's sake alone, always demand Dr. Shoop's. It can with perfect freedom be given to even the youngest babes. Test it yourself and see! Sold by All Dealers.

**Why He Wanted a Preacher.**  
Chicago Record Herald.  
Is there a preacher on this train?" asked a large, dark visaged man as he passed from one sleeper to another.  
At last, after he had loudly repeated his query for the fifth or sixth time, a grave looking gentleman laid aside a book and rose up from a seat near one end of the car.  
"I have the privilege of being a minister of the gospel, sir," he said. "Can I be of any service to you?"  
"Yes," said the large passenger. "A fellow back in the dining car has bet me \$5.00 that it wasn't Lot's wife who got Joseph into trouble, and I thought you might have a Bible with you, so I could prove that he was wrong and get the money."

**Wheat Crop of United States.**

The Bureau of Statistics at Washington has sent out a report which shows that the export trade in breadstuffs has materially fallen off in 1909 as compared with 1908. During the first nine months of last year the amount of wheat exported was 67,178,935 bushels, while during the corresponding part of this year it was only 27,768,901 bushels; the amounts of flour for the two years were, respectively, 9,428,347 and 6,288,283 barrels. These statistics call for some explanation, and accordingly one is furnished by the Bureau.

The theory put forward is the shortage in the supply of wheat available for export is due to the increase that has taken place in home consumption of breadstuffs. In so far as there has been such an increase it must be due to an increase in population, of which there can be no doubt. But this is not a complete account of the situation, for the increase has taken place mainly in cities or towns, and not to any great extent in agricultural districts. In other words the urban population, which consumes and does not produce breadstuffs, has been rapidly increasing, while the rural population, which does farm, has remained comparatively stationary.

Canadians have a special interest in this report, which simply confirms the prediction made by President Hill of the Great Northern Railway a few months ago. There is no longer any great extent of wheat-producing land to be procured by the intending farmer in the United States without paying a high price for it, and most of the virgin land now obtainable is useless without irrigation. At no distant day the exportation of wheat and flour from the United States will cease, and this state of equilibrium will be succeeded by one in which breadstuffs will be imported instead of exported.

Meanwhile, as settlement progresses in the Canadian West, and as transportation facilities are promptly and extensively furnished, the amount of wheat exported from Canada will rapidly increase, all the more so because a large proportion of the immigrants settling in the West are experienced Western farmers from the United States. The moral for the Canadian farmer is to make ready by improving his methods to take full advantage of the favorable trend of conditions.—Toronto Globe.

**THE EYES**  
The eyes are the windows through which the soul looks out upon the world. There is no need of having them darkened or defective. Don't tamper with unknown inexperienced opticians. Vision is too precious, have them scientifically fitted with glasses. DONT DELAY.  
For instance:—Mrs Freeman wife of the Rev. Mr. B. L. Freeman, for 7 years pastor of the Centreville Baptist church was troubled by defective sight. Five specialists treated her, one in New York, one in Boston, one in Halifax, one in St. John, one in Woodstock N. B. She could not wear their glasses and her eyes grew worse. Two years ago just before moving to B. C., with her husband she came to me, I treated her by my new discovery and supplied her with glasses. She now writes me as follows, the glasses are a perfect fit. You evidently have the right theory. My eyes are better than for years. Many thanks.  
MRS. B. L. FREEMAN.  
If your eyes trouble you at all, come in and let me examine them FREE.

I would also like to call your attention to a new line of Jewelry just in, finer and more beautiful than I have ever carried before, my souvenir goods especially will interest and attract you.  
Prices of course are right, that is why my trade grows.  
Thanking my former patrons and soliciting a trial from new ones.  
I am respectfully yours.
