Children and Fools Speak the Truth

A clergyman in Chillicothe, Ohio, was summoned in haste by a woman who had been taken suddenly ill. The reverend gentleman went in some wonder, for he knew that she was not of his parish, and was, moreover, said to be devoted to her own minister, the Reverend Mr. W—.

While he was waiting in the parlor, before being shown to the sick room, he fell to talking with the little girl of the house.

"It is very gratifying to know that your mother thought of me in her illness," said he. "Is Dr. W— out of town?"

"Oh, no," answered the child, in a matter-of-fact tone, "Dr. W— isn't away. Only we thought it might be something contagious, and we didn't want to take any risks."—Fenimore Martin.

"How I Built My Theatre."

Maxine Elliott tells for the first time in the WOMAN'S HOME COMPANION for April why she built "Maxine Elliot's Theatre," and how she did it, and a most interesting story it is.

"There is an old saying," writes Miss Elliott, "that if you want anything done right, do it yourself. This applies as much to theatricals as anywhere else—in building a dwelling house or arranging a dinner. It was not only because I long have been, and always hope to be, my own manager, desiring my independence no less for the privilege of picking my plays and companies than for keeping the money I make myself instead of giving up a large share of it to a second person, that I decided to build my own theatre in New York; it was also because that seemed the only way of getting just the kind of theatre I wanted."

SPRING BLOOD
IS BAD BLOOD

How Best to Get New Health and Strength in Spring.

The winter months are trying to the health of even the most robust. Confinement in-doors in over-heated and nearly always badly ventilated rooms—in the home, the office, the shop and the school—taxes the vitality of even the strongest. The blood becomes thin and watery or clogged with impurities. Sometimes you get up in the morning just as tired as when you went to bed. Some people have headaches; others are low spirited; some have pimples and skin eruptions. These are all spring symptoms that the blood is out of order. You can't cure these troubles with purgative medicines, which merely gallop the system leaving you still weaker. What you need to give you health and strength in the spring is a tonic medicine, and the one always reliable tonic and blood builder is Dr. Williams' Pink Pills. These Pills not only banish spring ills but guard you against the more serious ailments that follow, such as anaemia, nervous debility, rheumatism, indigestion, and kidney trouble. Dr. Williams' Pink Pills made new rich blood strengthens every nerve, every organ and every part of the body. Try this medicine this spring and you will have strength and energy to resist the torrid heat of the coming summer. Mr. J. R. Johnson, Loch Broom, N. B., says:—"Some two years ago I began to feel that my constitution was weakening. I could not stand any exposure or knocking about. I finally sought the aid of a doctor who said my system was very much run down, and that the trouble might end in nervous prostration. As this medicine did not help me I decided, on the advice of a friend, to give Dr. Williams' Pink Pills a trial. I had used less than a half dozen boxes when my health was fully restored, and I think no other medicine can equal these Pills when one is run down and out of health."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.
