Heart Strength

Heart Strength, or Heart Weakness, means Nerve
Strength, or Nerve Weakness—nothing more. Pos-
sibly, not one weak heart in a hundred is, in it-
self, actually diseased. It is almost always a
hidden tiny little nerve that really is all at fault.
This obscure nerve—the Cardiac, or Heart Nerve
—simply needs, and must have, more power, more
stability, more controlling, more governing
strength. Without that the Heart must continue
to fall, and the stomach and kidneys also have
these same controlling nerves.
This clearly explains why, as a medicine, Dr.
Shoop's Restorative has in the past done so much
for weak and ailing hearts. Dr. Shoop first sought
the cause of all this painful, palpitating, suffocating
heart distress. Dr. Shoop's Restorative—this
popular prescription—is alone directed to these
weak and wasting nerve centers. It builds;
it strengthens; it offers real, genuine heart help.
If you would have strong hearts, strong dig-
estion, strengthen these nerves—re-establish
them as needed, with

Encouragement of Sport.
(York Post.)

A Lancashire commercial traveller made a
trip to Scotland and in Aberdeen was asked
by a prospective buyer to subscribe to the
prize fund for the local golf tournament.
He parted with five shillings, and as he was
interested in golf he remarked that he would
like to be kept informed of the progress of
the tournament so that he could look out for
the result.

"Oh," said the customer, as he picked up
the five shilling and placed it securely in his
pocket, "ye needna dae that. The tourna-
ment was held last Saturday."

This was rather a staggerer for the latest
contributor to the prize fund, but he retained
curiosity enough to inquire who had proved
the happy winner. The guileless solicitor
for subscriptions was quite undaunted, how-
ever. "The winner?" he said, cooly, "O,
just mesel'."

Resultant Frigidity.
(Argonaut.)

A canny Scot is seldom without a good
word for his native land and will discourse
with fervor on the good qualities of Sandy,
with a comparative contempt for Pat and
John Bull. Such a citizen was recently ex-
patriating to an Irish-Canadian friend on the
industry, intelligence and integrity of "God's
own people, the Scotch." The latter spoke
up for the land of Erin, but the Scot waved
a majestic hand impatiently.

"What have the Irish ever done?" he asked
crushing.

"And whom havent the Scotch done?"
was the retort.
The mercury fell.

If your Stomach, Heart or Kidneys are
weak, try at least, a few doses only of Dr.
Shoop's Restorative. In five or ten days
only, the result will surprise you. A few
cents will cover the cost. And here is why
help comes so quickly. Dr. Shoop doesn't
drug the Stomach, nor stimulate the Heart
or Kidneys. Dr. Shoop's Restorative goes
directly to the weak and failing nerves. Each
organ has its own controlling nerve. When
these nerves fail, the depending organs must
of necessity falter. The plain, yet vital
truth, clearly tells why Dr. Shoop's Restora-
tive is so universally successful. Its success
is leading druggists everywhere to give it an
universal preference. A test will surely tell.

A Good Legacy.

The best legacy a man can leave to his
children, is the ability to take care of them-
selves. Fit them for active, responsible
business, and they have at once an income;
but this income is as much greater in value
to them, than the same income left in money,
as activity and useful employment are better
than idleness, and lounging and dissipation.
Give a young man good moral habits and a
good practical education (which need not
necessarily be acquired at school,) and he
can secure a salary of perhaps, a few hun-
dred dollars at first, and in successive years
up to a thousand dollars. He is then worth
a thousand dollars a year—the interest at
on over sixteen thousand dollars, his real
value counted in money. But a poor young
man who can make a thousand dollars a year,
is worth far more than a young spendthrift
who has sixteen thousand dollars, because he
is more useful in many ways, and is making
himself happy instead of miserable.

Rather a Fan.

Dr. Madison C. Peters was discussing the
question, "Will the coming man marry?" He
instantly a certain type of bachelor.

"This man," he said, "is a hypocrite. He
uses his religion as a cloak."
"And what will he do in the next world,
eh?" said the reporter.

"Oh," said Dr. Peters, "he won't need
any cloak there."

BARNEY'S WOOING.

Och, go away Barney,
No more av yer blarney;
It's only nonsense ye'd put in me head;
Yer love is outrageous,
Maybe it's cantigious
"Have no faith in man," my good mither
said.
Now go away Barney,
Yer flattery's just blarney,
Sure, what do ye mane, ye'd be crossin' the
sea,
And lavin' yer Nora to be pinin' in sorrow,
Is that the extint av yer love,
Barney McPhee?
Och, Barney, quit Barney,
Ye great big ould blarney;
Ye'll be brakin' the heart av a poor Irish lass
Wid yer love and yer smilin'
Och sure yer boguillin',
To be rid av ya, Barney, faith I'll say yes.

Dyeing Real Flowers.

(From The Philadelphia Record.)

"Every once in a while some florist gets
busy and puts some odd colored blossoms in
his window as an extra attraction to the dis-
play," said a clubman. "I just noticed one
down the street. It consisted of a bunch of
impossibly green carnations. At first glance
a good many people thought they were made
of paper, but they got interested when they
found out they were 'natural.' Now, any-
body who wants to have any of these freak
flowers can get them by buying some kind of
aniline ink, any color desired. Carnations
are the easiest to color, white ones, of course.
Put their stems in a glass filled with the ink.
Their stems are soft, and in a short while the
large veins in the petals are filled with the
ink. Don't let them absorb too much color;
they are prettier with just so much. Then
remove them and put them in a vase of salt
water. Lilies-of-the-valley lend themselves
to this scheme also—in fact, any white soft-
stemmed flower may be used."

Two Preventives Against Moths.

Take one fourth of an ounce each of ground
cloves and caraway seed, one ounce of dried
common salt, one half pound of lavender
flowers free from the stalk and one half
ounce of dried thyme and mint. Mix well
together, and put in cambric or silk bags.
These scent bags, if placed among clothes,
will preserve them from moths and give a
pleasant odor.

If you are troubled with moths in the
house, try putting blotting paper well satu-
rated with turpentine in the drawers,
among the furs and bedclothes, or wherever
there is any danger of the moths working
their depredations; it can even be put along
the edges of carpets. Turpentine is the best
preventive of moths I have discovered.—

Woman's Home Companion for May

The burden of our changing social order
falls upon our daughters, claims the WOMAN'S
HOME COMPANION for May, and this
magazine shows by striking examples and
figures how topsyturvy is our way of training
girls.

In this same issue is a charming article by
Margaret Sangster, showing that the millio-
naire mother who is by no means as black as
she is painted. Mary Hraton Vorse, in her
own inimitable style proves that if we are
fat it is our own fault.

In more serious mood is a trip through
the Metropolitan Museum of Art with Sir
Caspar Purdon Clarke as guide. This valu-
able article is illustrated by reproductions
of famous paintings. Other articles of in-
terest are "The Art of Economy," by Mrs.
John Van Vorst, and "The Commuters of
New York," by Albert Bigelow Paine. "An
Imperial Wraith," by Clara Morris, contains
charming reminiscences of the Empress Eug-
enie. "Lucy Green," a friendless seven-
teen-year-old girl, tells how she went to
Boston penniless, in search of a job, and how
she got one.

"Afraid" is a story in Zona Gale's exqui-
site style, "Hearts and Highway" has Cyrus
Townsend Brady's usual swing and dash,
and "The Four Adventureesses" is another
story by Hulbert Footner, whose freshness
and humor have established his reputation.
This issue of the WOMAN'S HOME COMPANION
is distinguished by two features—a poem
entitled "The Grandmother," by James Op-
penheim, and a full-page drawing by Harrison
Fisher, showing Margaret and Gerard,
from "The Cloister and the Hearth."

**CANADA'S POOR CON-
SUMPTIVES.**

A Story more Touching than anything
from the Pen of the gifted
Ian MacLaren.

In the current issue of the DOOR OF
HOPE, published by the National Sanitarium
Association, 347 King Street
West, Toronto, a page is given over to
letters received from the many persons
from all parts of the Dominion seeking
admission to the Muskoka Free
Hospital for Consumptives.

Seldom have we read anything more
pathetic. Here, for example, is a letter
from a physician in Cremore, Ont.,
asking for the admission of a patient
by the name of Morrison. He says:—
"I would like to urge strongly upon
you the great claims of this patient.
He has no home—mother dead—father
working as a farm laborer. The boy has
been living with an unmarried uncle—
no housekeeper—work, cooking, etc.,
being done by the uncle. The boy has
absolutely no place to go where he
might be given any reasonable care,
and he can get none where he is."

Another case is from Thorold.
Johnston Weldon writes:—
"I am a young married man, twenty-
three years of age. For several years
I have been sick, but always able to
keep my feet. Now I have come to
the time when I cannot work, and
cannot get medicine without means.
My lungs are affected, and I am writing
now to see if you can get me into the
Muskoka Free Hospital for Consump-
tives. My young wife is here, and
her parents have kindly opened their
doors to her if I go away."

Just one more of the many we might
quote. This is from a physician in
Campbellford, Ont. He writes:—
"I have a patient suffering from
pulmonary tuberculosis, who has been
laid off work for about three months
now—was in bed part of that time, but
lately both his pulse and temperature
have kept down and his weight going
up. He is the only support of the
family—mother, crippled father, and
younger brother, but his neighbors are
trying to raise a small amount of
money to help him."

We have sometimes thought that if
Ian MacLaren, who has given to us the
character of Dr. McClure, were alive
to-day that in letters such as these he
would find material for a book more
touching and pathetic in many parts
than his Bonnie Briar Bush.

It is on behalf of cases like these, of
which there are scores reaching the
Secretary of the Sanatorium every
week, that the Muskoka Free Hospital
for Consumptives makes its appeal
to-day for funds.

This institution has not at any time,
since its doors were first opened in
April, 1902, refused a single patient
because of the applicant being unable
to pay.

Contributions may be sent to Mr. W.
J. Gage, 84 Spadina Ave., Chairman of
the Executive Committee, or to J. S.

"Seeing is Believing."

Mrs. G. C. Mills of Robinson (Me.) had been to
several opticians for defective sight. They could
get no vision from the right eye and condemned
it as permanently useless. She now, however, sees
perfectly, having had her eyes developed and fitted
with glasses by a rather startling new discov-
ery by C. E. Vail, Optician of Centreville, N. B.
Mrs. Chas. Gee of Summerfield, N. B., had not
seen out of her right eye for 21 years. Five years
ago she was obliged to go to a Montreal Hospital
where for three weeks she was treated by the ce-
lebrated eye specialist—Dr. Buller. He told her
she would never have any use of that defective
eye. Mr. Vail, however, by means of his marvel-
lous discovery, fitted her with glasses that de-
veloped that eye to perfect sight.

Mr. Vail has been in optical work and research
for the past ten years. Two years ago he grad-
uated from the Canadian Optical Institute, at
Montreal, receiving therefrom a first class Dip-
loma. Of late he has been in deep research along
new lines and has discovered means by which
many ordinarily hopeless cases can be successfully
restored to perfect vision.
He is pleased to examine your eyes free of all
charge.

He also duplicates all kinds of lenses.
