If we may believe some newspaper's reports we can but conclude that some Canadian politicians are imitating the Sultan's example to some extent at least.

A Train Change.

In response to requests from travelling men and others doing business along the C. P. R. Gibson Branch, General Supt. Downie has arranged to improve the train service. Under the new arrangement the train out of Fredericton on Mondays over this road will run express, as will the return train on Saturdays. This will enable commercial men living at Fredericton to return to their homes on Saturdays and to get back on the road again on Mondays. The change is one the travellers will greatly appreciate.—St. John Globe.

This change is good as far as it goes, but we think the large number of people whose business takes them over this branch are entitled to a daily express service.
