NEWS FROM THE COUNTY.

Jacksonville.

Rev. Thos. Marshall, superintendent of missions in the N. B. and P. E. I. Methodist Conference, gave a splendid address in the Methodist church here on Monday evening last. A special meeting of the Quarterly Board was addressed by Mr. Marshall in the afternoon when division of circuits was discussed and plans laid for more effective work in this district.

Ernest Harper returned from Truro last week where he attended with great profit a two week's course of lectures in agriculture. It is noteworthy that Mr. Harper was the only young farmer from Carleton County at the school, and is a great credit to his enterprise as one of the coming agriculturists of the future.

Misses Stella Grass and Hazel Lockhart of Hartford are attending school here and are making their home with Mrs. James Good.

Rev. D. Fiske has had a lengthened attack of la grippe.

Our R. T. of T. needs to awake and put on strength. It is pleasing to note some animated quivers. Now is a good time to resume new life, and for the members to address themselves to duty with new energy and resolution when the thoughts of many are busy over the interview between the N. B. Temperance Federation and the Government and the result, so far, of said interview. Some will be asking "should the fate of a Prohibitory law enacted in the 50's be taken as a precedent sixty years or more later?" A good deal of progress has been made within the last sixty years. Some will be asking why, if a Prohibitory law works so well in P. E. I., would it not work well in N. B.? Some will be asking if our Govt. would not do wisely to pass a law similar to the one that is working so well in Ontario. A live R. T. of T. Council is a splendid arena for alertness of mind, earnestness of thought and vigorous of speech.

Attracting the Masses.

Sir Thomas Lipton, who has attracted so large attention through his part in the International yacht races, owes his fortune to his own ability and pluck. Young Lipton went up to London with a borrowed capital of about \$500. He rented a small shop, spent one-half of this sum in purchasing a stock of tea—getting it cheap for cash—and the other half he put in a separate box to be used entirely and exclusively for advertising. This was before the days of great advertising and Lipton's friends shook their heads at his scheme. But the scheme worked to perfection. Marking his goods at the very lowest figures, he got ready for his advertising. He bought two of the fattest hogs that could be found anywhere in London, had them carefully scraped and cleaned, tied pink ribbons round their necks, and sent them waddling through the crowded streets, each led by a man dressed in pink, and having between them another man carrying a banner upon which was inscribed the words, "We are going to Lipton's Pink Tea! Come along yourself!" The shop was crowded within an hour. The low prices caught the people's fancy, too, and business became so brisk that instead of serving behind the counter, as he had originally intended, Lipton was compelled to employ a dozen clerks to do that work while he attended exclusively to attracting the people.

Many churches are running empty that might be crowded with people if the pastor and membership would use their heads in discovering methods of making the church attractive to the people. Many people have yet to learn the lesson that it is just as important to get the people to come to church as it is to preach them the truth after they are there.

TONIC TREATMENT FOR INDIGESTION.

The Only Sensible Way to Cure
Stomach Troubles and Give
New Health.

When the stomach is feeble the food lies in it undigested, decays and throws off poisonous gases that distend the walls of the stomach, and causes serious interference with other organs, especially with the action of the heart and lungs. These poisonous gases have other ill effects. They are absorbed by the blood and so weaken and corrupt it as to cause aches in remote parts of the body and the formation of unhealthy tissue everywhere. General bodily weakness and loss of weight is the result. The nerves and the brain are disturbed; and discomforts such as dizziness, hot flashes, sleeplessness, irritability and despondency originate from this source. Experience shows that these troubles vanish just as soon as the stomach is made strong enough to digest the food. In other words it needs a tonic that will rouse it to do the work of changing the food into nourishment. The tonic ought to be one that will agree with the most delicate stomach, and this is exactly what Dr. Williams' Pink Pills do. Here is a bit of strong proof:

Miss Lizzie McDonald, Harbor-au-Bouche, N. S., says: "Dr. Williams' Pink Pills have done for me what no other medicine did or apparently could do. For almost three years I suffered untold agony from indigestion. I would have the most distressing pains in the stomach after eating. I could not sleep at night and I would rise in the morning feeling tired and worn out. I lost in weight and was almost reduced to a shadow. I was under doctor's treatment almost constantly, but with no benefit. One day I read the testimonial of a lady who had been cured of dyspepsia by Dr. Williams' Pink Pills and decided to try them. The first two or three boxes I took did not show any apparent relief and I began to fear the medicine would not help me, as I had bought a half dozen boxes I decided that I would use them up anyway. To my great joy, before they were all used I began to improve and I got three boxes more. By the time I finished these I was again in the best of health, and had gained 12 pounds in weight. I have not since had a twinge of this terrible trouble, and am more grateful than words can say for what Dr. Williams' Pink Pills have done for me."

You can get Dr. Williams' Pink Pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.
