There was a large congregation of people at the Baptist Church last Sunday afternoon to listen to the discourse of Rev. Mr. Churchill. The Scripture lesson ("The Story of the Good Samaritan") was very appropriate, the singing all that could be desired and the sermon was so impressive that much of it will be remembered by many who heard it, for years to come. The roads were in such a state that those living at a distance could not reasonably be expected to be present but a good turn out of the home lodge was present and under direction of Capt. A. A. Margison made a splendid appearance in their march to the church and return to the Opera House.

### "Seeing is Believing."

Mrs. G. C. Mills of Robinson (Me.) had been to several opticians for defective sight. They could get no vision from the right eye and condemned it as permanently useless. She now, however, sees perfectly, having had her eyes developed and fitted with glasses by a rather startling new discovery by C. E. Vail, Optician of Centreville, N. B.

Mrs. Chas. Gee of Summerfield, N. B., had not seen out of her right eye for 21 years. Five years ago she was obliged to go to a Montreal Hospital where for three weeks she was treated by the celebrated eye specialist—Dr. Buller. He told her she would never have any use of that defective eye. Mr. Vail, however, by means of his marvelous discovery, fitted her with glasses that developed that eye to perfect sight.

Mr. Vail has been in optical work and research for the past ten years. Two years ago he graduated from the Canadian Optical Institute, at Montreal, receiving therefrom a first-class Diploma. Of late he has been in deep research along new lines and has discovered means by which many ordinarily hopeless cases can be successfully restored to perfect vision.

He is pleased to examine your eyes free of all charge.

He also duplicates all kinds of lenses.
