INDIGESTION IS SLOW STARVATION.

Food is to the human body what fuel is to a furnace. Without the aid of food the body starves and dies, just as a furnace fire dies, grows cold, when not supplied with fuel. Indigested food decays. So long as it lies in the stomach it is fermenting—giving off noxious gases and acid fluids that poison the blood and flow with it all through the system.

You cannot be healthy in such a condition. You must surely lack the snap, the energy of mind and muscle, of brain and body, which are necessary to the enjoyment of life's good things—its work and play. There is no enjoyment for the man or woman whose stomach is out of order.

When your food fails to supply nourishment through rich red blood, you are being starved in muscle and nerve—starved as truly as the man who has nothing to eat—only yours is slow starvation.

Mother Seigel's Syrup, the great remedy for indigestion, has had 40 years of unvarying success all over the world. By aiding the organs of digestion to perform their work naturally, it has given health and comfort to millions. We have thousands of letters attesting such cures. Here is one from—

Mrs. James A. Placey, of Ulverton P. O., Drummond Co., P. Q., who writing August 27th, 1908, says:—For over ten years I have been troubled with nervous headaches, without obtaining any relief from prescriptions. I was advised to try "Mother Seigel's Syrup," and the trouble ceased after taking a course of your valuable preparation.
