## THE DISPATCH.

### DAILY MISHAPS MAKE ZAM-BUK A DAILY NEED.

A CCIDENTS will happen in the best regulated homes; and having a box of Zam-Buk handy is a precaution that has saved thousands of families much worry and expense. There is never any knowing what a small injury may lead up to if neglected. The stoppage of the bleeding, or the pain from a cut, burn, or scald, lulls many people into a false sense of security. Dust getting into a wound may set up festering, inflammation,

and blood-poisoning. In a similar way, a tiny cut may be the starting point of itching and irritating eczema; and the spot your child scratches on his head, the unsuspected beginning of ringworm or some thor hair-destroying scalp

Zam-Buk, while such a perfect healer, is also the inveterate enemy of skin-disease. A burn, scald, cut, or bruise promptly and regularly dressed with this rare and rich balm cannot "turn the wrong way"; and any tendency of the skin to become it hy, inflamed, or "mattery," is speedily checked. This is because Zam-Buk not only gr ws new, healthy skin, but, being so refined, is absorbed by the pores, and its healing ess aces make perfectly healthy all the underlying tissues. Always keep a box of Zam-Buk handy, for daily mishaps make Zam-Buk a daily need.

#### BAD SCALD CURED.

Mrs. W. Corkey, 35, Richmond Square, Montreal, says: — "My little grandson was severely scalded on his right leg from the knee to the ankle. This injury was very serious, and demanded great attention. We used nothing but Zam-Buk, and it was wonderful how cooling and soothing it proved. It was some weeks before the leg was finally healed, but there was not a scar left to show where he had been scalded. As the home 'first-aid,' I think Zam-Bu<sup>1</sup> is without equal." without equal.

CHILD BURNED BY STOVE LID. Mrs. H. Girdlestone. of 106. Rawdon Street. Brantford, Ont., says:—"I find Zam-Buk a splendid healer of children's injuries. My little boy burned his foot very badly on the red-hot lid of the stove. The skin was completely burned off, and he had a sho:king foot the wound turning to a manufacture. foot, the wound turning to a running or festering and discharging. I appli d Zam-Buk, and it effectively checked "I discharging and festering, drew out the inflammation, and finally healed the wound nicely.

#### How to Make Cement.

Something which the suburbanite frequently needs in small quantities, but which he rarely had on hand, is a good, quick setting cement for uniting small fragments of iron, setting wooden handles into tools and a hundred and one other smail jobs. A very good cement which will answer almost any requirement may be made by dissolving common orange shellac in enough alcohol to form a paste. This may be kept on hand in a tightly corked bottle with a wide mouth, tightly corked, or the alcohol will evaporate. When It is desired to use the cement place as much as it is desired to use in any small tin vessel and set the paste ou fire. The alcohol will soon burn out, and the cen of should then be quickly used before it has time to cool. This coment is very strong and is waterproof.

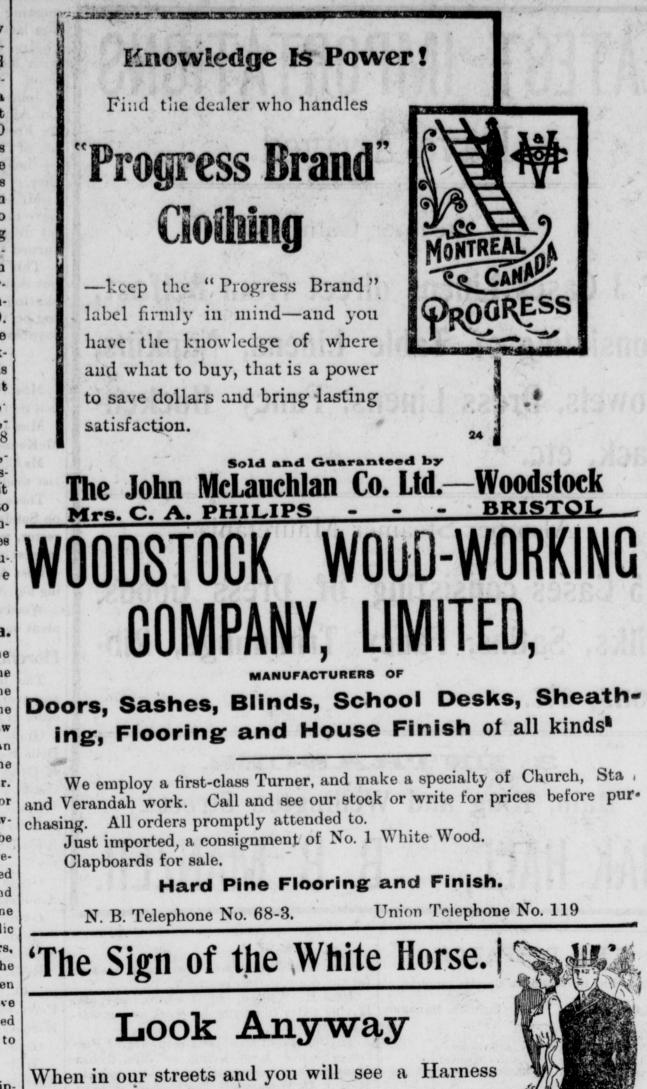

#### A Rich Church.

Trinity Church (Episcopalian) in New York City, is probably the richest individual church in the world. It holds landed estate in the city that is valued for purposes of taxation at over thirteen and a half million dollars. Its total income last year was \$780,000, of which \$750,000 came from real estate holdings, pew rents accounting for only \$18,000. A large part of the income from the real estate has to be spent on the estate itself and in taxes. These items combined amount to \$344,180, the taxes and insurance being over \$130,000, repairs costing over \$100,-000, and the steam and electric plants in office buildings costing \$52,000 to operate. The single item for business administration and legal expenses is \$49,339. Thus the net income available for the maintenance of the ten churches and sixteen schools maintained by Trinity is greatly reduced, the sum actually spent last year upon them being about \$341,. 000. The parish schools absorbed \$63,-755, and the cost of maintaining the 28 clergymen an the regular staff is \$101,-674. A corps of parish visitors and assistants were paid \$9,684. Music cost \$55,000. Trinity's outstanding loans to churches outside its own parish now amount to about \$371,000, and, as it charges no interest, in effect it contributes annually to their support a sum equal to the interest it does not collect.

### Must Not Kiss in Public in Russia.

Russia is ruled by rigorous laws. The irony and humor of some of them come home to the foreign onlooker, while of course the Russians feel only the whip hand. The latest victim of an anti-kissing in public law is a famous and all too impetuous Russian actress, Mile. Tregoff, who actually had the temetry to kiss her mother in a tramcar. One would have thought even a magistrate or judge, or whoever administers cases of lawbreaking of that kind in Russia, would be melted by the beautiful picture of the reunion of a mother and daughter celebrated by a chaste salute, but Rossians understand no jokes, says the Lady's Pictorial; the fine of ten rubles (28s. 6d.) for a kiss in public conveyances, such as railways and tram-cars, was vigorously enforced. A kiss in the street is penal zid to the extent of seven rubles (193. 103.), and a declaration of love sent by postcard, if anybody is brazen faced enough to do such a thing, is punished to the extent of five rubles (14s. 2d.).

#### A Prompt Response. (New York Sun.)

During a recent meeting of hotel men in this city, when there was discussed certain proposed means of protecting hotels against "beats," a western boniface told of the sad case of one proprietor in St. Louis who had been "done."

Many months afterwards, learning the whereabouts of the gentleman who had decamped without the formality of paying, the owner sent him the following note:

"Dear Sir,-I would esteem it a favor if you would at once send me amount of your bill."

Imagine the disgust of the hotel man, when, in a few days, he received an answer in these terms:

"Dear Sir,-Certainly. The amount of my bill is \$17.50."

## To Strengthen the Nerves

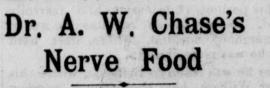

Nerve force like electricity is hard to explain. One thing is certain. Nerve force can only be created from rich, red blood.

Make the bood right and you cure diseases of the nerves such as headache, indigestion, sleeplessness, irritability, weakness of the bodily organs, prostration and partial paralysis.

This is the only way actual cure can possibly be brought about and because Dr. A W. Chase's Nerve Food is a great blood builder it accomplishes wonderful results in the cure of diseases of the nerves.

Mrs. Robert Darrah, Chipman, Queen's Co., N. B., writes .- "My daughter suffered from nervousness and general debility, brought on by grippe. When the doctors failed to help her Dr. Chase's Nerve Food built her up wonderfully and cured her."
