SPEAKING of the Basket Ball game recently played in St. Andrews, in which the Savages went down to defeat, the Beacon has the following to say: "The Savages of Woodstock are a nice lot of boys. They mean well, but they do not know all that there is to know about basket ball. Their chief weakness is their combination, the passing of the ball. In their match with the Shamrocks on Monday night, they would have been dangerous rivals had they been able to pass the ball to each other a little better, but their throws were wild and ineffective. They played manfully and with spirit up to the last moment of the game, although they knew were facing defeat. The local team put up a good game and there was some splendid individual work."

**Prescriptions!**

We have been preparing medicine according to doctors' prescriptions for 15 years. In that time our business has doubled in volume, several times over, and yet we have never received a single complaint from any doctor in regard to our manner of compounding Prescriptions. We have always stuck to one policy, namely: To use only the best quality of Drugs that we could get, and always do the work as skilfully as we know how. THAT MAKES GOOD MEDICINE.

DID you ever have the pleasure of staying at the Carlisle Hotel, Woodstock, N. B.? There is not a more homelike, or more up-to-date, better run hotel for many, many miles in any direction. Landlord Tabor seems born for his business, while every member of the hotel force from Merrill Jones, the obliging and thoroughly excellent clerk, down to the youngest bell boy seems imbued with the true hotel spirit of accommodation and service.—Ft. Fairfield Review.

**New Public Highway.**

Petitions are being circulated in the Town of Woodstock and in the Parishes of Northampton and Southampton asking the Local Government to open up a public highway in the parish of Northampton, extending from near the river bridge opposite Woodstock out what is known as "Wright's Creek" or the "People's Road" in a south-easterly direction through Kilmarnock and extending on to Campbell Settlement.

For a great many years many of the inhabitants of the Town of Woodstock and the two said parishes have been desirous of having this road opened up. Considerable public money has been expended on the upper end of it on what is commonly called the "People's Road."

This road, if opened up, would bring Campbell Settlement and the upper portions of the parish of Southampton within an easy one turn road of Woodstock, whereas now the distance is about twenty-four miles.

Considerable railway and other wild lands are along the route of the proposed road and if the road is properly opened up there will be a good chance for enough new settlers within a business distance of Woodstock to make a large difference in the trade and general prosperity of the town.

The length of the proposed road is about fourteen miles, some of which is already roughly prepared for wheeled vehicles.

When it is considered that in this direction from Woodstock there are upwards of twenty thousand acres of railway lands as well as other granted wild land within a radius of fifteen miles of the Town of Woodstock, it seems about time that something had been done that the Town of Woodstock should have the proper chance to increase its own prosperity by the settlement of some of this land.
