It is said that people in certain districts on the west side are of a mind to approach the legislature at the coming session to have a road built from the old lower ferry road along the river bank north to the Little Presque Isle stream. This would be of undoubted advantage to the people of Victoria Corner, Middle Simonds, St. Thomas, and Avondale. There is another side to the story, however, and the chances are not good that such a road will be made very soon. The people of Somerville, through which

district the whole length of the road would lie, would have absolutely no use for it, and in addition would have to sacrifice a most valuable part of their land, and more than that, the road that has done excellent service for a century or more would be side-tracked and property on that road would depreciate in value to a serious extent. It is presumed that those who are agitating for the construction of this road except that, after it is built, the Somerville rate-payers will be asked to pay taxes for the maintenance of such a road. The district, which extends two miles along the river front, already has four miles of road to maintain, and now others are clamouring for a new road to parallel the old, about forty rods distant, and pay more taxes. The Dispatch correspondent happens to be a taxpayer in Somerville, and possibly looks at the question with jaundiced eyes, but does it seem a fair proposition?

Miss Edna Sipprell, who has been visiting at her home at Somerville for a month, returned to Boston on Friday. She was accompanied by her mother, Mrs. W. H. Sipprell, who will spend two or three weeks there with relatives.

All kinds of the best tobaccos and cigars to be bought right at Chase's.

Miss Georgie Reid went to Houlton on Friday to enter an engagement as nurse.

Will Stevens went to Debec last week to haul lumber to J. K. Flemming's mill.

On Sunday evening a roll call service was held in the United Baptist church and was well attended, considering the state of the weather. About two weeks ago invitations were issued to the members and to those accustomed to attend service there. Accompanying each invitation was a small envelope for a special thank offering. The service opened with a short but impressive address by Rev. E. C. Jenkins, the pastor, who spoke of the Christians progress and the manifold blessings that follow the course of the devout believer. W. D. Keith, a clerk of the church, called the names of the members and in almost every case each member quickly responded with a verbal testimony of blessings received and their joy in giving thanks. The total thank offering amounts to more than seventy dollars, which amount goes into the common fund of the church. The choir sang many hymns of praise and thanksgiving during intervals of the service.

If at any time it has been reported that we in Carleton county are enjoying a mild winter, the word should be withdrawn. During two weeks past it has snowed and blown almost continually. There is said to be depth of snow in the woods to the extent of thirty inches. In the open there are drifts in many places ten feet high and so hard that a horse and sleigh can easily go over the tops of them. The roads are in a bad condition. Although they were ploughed out on Saturday they were on Monday worse than ever. Mrs. Jas. Barter of Avondale and Mrs. Francis McLean of Bristol were guests of Mrs. D. E. Morgan over Sunday.

Frank T. Birby of St. John spent Sunday in the village.

It is expected that Hon. J. K. Flemming's mill will begin operations in a few weeks, and will give employment to thirty or forty men.

GILLEN.—After an illness of rheumatism extending over a period of three years, Jack, the adopted son of W. Riley Gillen, aged thirteen years. He had suffered intensely during the winter and his death on Monday was hastened by an application of chloroform, given in the hope that he might derive some benefit. Jack was of Scotch extraction and comes of the ancient lineage of the well known Collies. He had a great many friends, and bore the respect of all. He leaves several sons, living in various parts of the country, all of whom are held in high esteem.

**HAD GIVEN UP HOPE**

**But Dr. Williams' Pink Pills Restored Vigorous Health.**

Medicines of the old fashioned kind will sometimes relieve the symptoms of disease, though they never touch the disease itself—they never cure. Ordinary medicines leave behind them indigestion, constipation and headaches. Purgatives leave those taking them feverish and weakened. On the other hand, Dr. Williams' Pink Pills do direct good to the body, the blood and the nerves. They fill the veins with new rich blood; they tone and strengthen the nerves; they cure disease by rooting it out of the blood. They always do good—they cannot possibly do harm.

Mrs. George R. Wilson, Moncton, N. B., says:—"A few years ago after confinement I contracted a severe cold and although I took considerable medicine, I got no better. In fact my condition was gradually getting worse. I was all run down, had no appetite and grew so weak that I could not do my housework. At last the doctor who was attending me told my husband that I was going into a decline, and I feared so myself, for a sister had died of consumption. When almost in despair a friend suggested my taking Dr. Williams' Pink Pills, and I got half a dozen boxes. Before I had taken them all I began to get better. Then I got another half dozen boxes, and before I had used them all I was able to do my housework again and was in better health than I had enjoyed for years. I believe Dr. Williams' Pink Pills saved me from going into consumption and I warmly recommend them to every weak person."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.
