#### Centreville.

The continued rain has made the roads in many places almost impassible but in sections where the roads were kept in a good state with the snowplow throughout the winter very little difficulty is now experienced.

Some of the very hopeful ones are planning on life as it will be with a dozen or more Railway trains passing through Centreville every day and it does seem reasonable that the people of the west side of the River St. John can justly claim some consideration from both the Dominion and Local Governments. They are an industrious energetic people and have been a large factor in the prosperity of the Province and the possible development in Agriculture along the St. John Valley, with the advantages a railway would give us would make the St. John Valley a veritable garden in comparison to other parts of the Province.

Rev. Mr. Fergusson gave a very interesting address on Temperance in the Baptist church in this village last Sunday. A large congregation came to hear as the subject had been announced before.

Mrs. George Thomas is reported to be in poor health. Grief stricken at the loss of her husband a short time ago and the worry and care of the household have seemed to have reduced her vitality to a large extent.
