**A MEDICINE FOR THE SPRING**

**Do Not Dose With Purgatives. A Tonic is All You Need.**

Not exactly sick—but not feeling quite well. That's the way most people feel in the spring. Easily tired, appetite fickle, sometimes headaches and a feeling of depression. Perhaps pimples or eruptions may appear on the skin, or there may be twinges of rheumatism or neuralgia. Any of them indicate that the blood is out of order; that the indoor life of winter has left its mark upon you and may easily develop into more serious trouble. Don't dose yourself with purgatives, as many people foolishly do, in the hope that you can put your blood right. Purgatives gallop through the system and weaken instead of giving strength. What you need in spring is a tonic that will make new blood and build up the nerves. Dr. Williams' Pink Pills is the one medicine that can do this speedily, safely and surely. Every dose of this medicine helps to make new blood, which clears the skin, strengthens the appetite, and makes tired depressed men and women bright, active and strong. Miss Mary C. Ayer, Ward Brook, N. S., says:—"I cannot speak too highly in favor of Dr. Williams' Pink Pills. I often had headaches, and my appetite was poor. I began taking Dr. Williams' Pink Pills and in a short time there was a marked improvement, and to-day I am in better health than I have been for years."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.
