ON Adam's Peak, in Ceylon, at about 7,000 feet above sea level, there is a large, flat stone on which is the imprint of the human foot. Mohammedans believe this to be the place that Adam first stepped, on being expelled from the Garden of Eden. Rev. Geo. A. Ross, at present pastor of the Hampton Methodist church, has written to the quarterly board of the Fairville Methodist church in acceptance of their invitation to him. DAVID CURRIE, of Tobique River, was in town last week on his way home from Truro, N. S. where he has been taking a short course in practical farming at the Nova Scotia Agricultural College. Mr. Currie says there was only one student from Carleton County, attending the college this winter, and is of the opinion that the farmers generally should take advantage of this course of instruction, especially as the government pays the transportation rates.

DURING the past week arrangements were made whereby Messrs. Noble, Kierstead and Rogers have united their mining interests in Northampton and those of Messrs. W. P. Jones, Dow and Greer. This combination of properties gives these gentlemen important rights in the very best portion of the mining section and will no doubt add greatly to the interest taken in mining in this county. The Proprietors are planning to enter into the work vigorously in a short time and develop their rights in a thorough manner.

## A New Court House

At the January session of the County Court held last week, the members by an almost unanimous vote, decided to call for plans and specification for a new court house, to be erected on the county property in the town of Woodstock. For the past ten years the question of a new court house came up for discussion at the meetings of the council and was always voted down, but since the destruction of the old gaol building and the erection of a new building in Woodstock, it was felt that the building of a new court house in this town was only a matter of a short time, as it was inconvenient having the two buildings so far apart. There were other reasons why a new building was necessary. Judges and grand juries had condemned the present structure as unsanitary in summer and impossible to heat in winter.

The new building will probably be started in the spring and will likely be of brick. The decision of the council is a wise one and will meet with the hearty approval of the ratepayers.

## Prescriptions!

We have been preparing medicine according to doctors' prescriptions for 15 years. In that time our business has doubled in volume, several times over, and yet we have never received a single complaint from any doctor in regard to our manner of compounding Prescriptions. We have always stuck to one policy, namely: To use only the best quality of Drugs that we could get, and always do the work as skilfully as we know how. THAT MAKES GOOD MEDICINE.

## Election Case

## The Prescription Is Sacred.

If a man wishes to have his rights acknowledged and respected, he must show that he is determined to maintain and defend them. The Doctor and the druggist stand in a relation of reciprocal benefit to each other. The Doctor prescribes medicines, and the druggist furnishes them. The Doctor orders such remedies as his judgment and experience deem best in a given case. The druggist has no discretion in the matter. It is his duty to fill the prescription just as it comes into his hands, and on no account should he be guilty of such treason and disloyalty, as to try and induce the patient to accept a substitute for the remedy prescribed by the physician, or try to palm off a cheap and worthless imitation.

The Sherwood mill has been closed down for a few days on account of roads being bare so that lumber could not be hauled.

The readjustment of rates of the I. O. F. has practically placed the order at a stand still. The official organ of the Order for Dec. gives a record of only four applications for membership in the whole of New Brunswick and only three accepted for the month of November. The most important thing to remember in connection with being a member of the Order is to always have dues paid in advance as no claim will be considered for either sickness or death unless there is always a balance to the credit of the member so that those who pay after the time allowed by the Laws of the Order are paying for their insurance, and taking their own risks.

Andrew Page is reported to be very ill with little hope of improvement.

News was telegraphed here a few days ago of the death of Robert Jones who went to Arizona last July and who gave such an interesting account of his journey after his arrival in Douglas, through the Woodstock Press.
