Williamstown
We are having all kinds of weather, quite
warm today.

Farmers are all busy, some have planted
large fields of potatoes, wheat sown and some
oats.

Clarence Emery, Pioneer, is engaged with
Harmon Carvell for this summer, Charlie
Stoddart with Wm Page and David Miller
with Wm McWaid.

Mr and Mrs Henry Miller, Centreville,
were guests of John A. Porter one day re-
cently.

Mrs A. Rice, Framington, Mass., spent a
few days here at her old home.

Benjamin Woulhopter, Oakville, was call-
ing on his old friends here last week.

Sydney DeWitt, Charleston, is shearing
sheep in this section.

Mungo Wilson and Andrew Jameson are
improving after their serious illness.

Miss Maggie Lindsay has returned home
from Perth, where she has spent the last two
and one half years. We are glad to have her
back.

Miss Emma Carvell, spent one afternoon
last week with Mrs. Wm. McWaid.

F B Carvell, M. P. was in this section
yesterday with his automobile.

Robert Carvell has returned to Grand
Falls after spending a few days with his
mother and other relatives at Lakeville. His
wife is still there.

Miss Sarah Jameson spent the first part
of last week at Lakeville.

Andrew Jameson and John A Porter have
each had a sick horse; but they are both
gaining.

Queen May and Prince George.

The Queen is the first British-born consort
of a king since the days of James II. All
the other Georges, William IV and Edward
married foreign princesses, and Queen Vic-
toria married a foreign prince. For the first
time, therefore, in over two centuries Britain
has both a king and a queen who are natives
of the British Islands. The Princess May in
her early years was the most popular of the
younger members of the Royal House. She
has great influence over her husband, and is
a keen student of public affairs, as well as
deeply interested in all good works.

Don't Smoke

"I am not much of a mathematician,"
said the cigarette, "but I can add to a
youth's nervous troubles, I can subtract
from his physical energy, I can multiply
his aches and pains, I can divide his men-
tal powers, I can take interest from his
work, and discount his chances for suc-
cess."

Zinc is proving unfit for use on city roofs
because of the increasing amount of sulphur-
ic acid in the air.

**Family Physician Said Incurable
She was Cured Completely by
Dr. Hamilton's Pills**

**A Terrible Experience with
Indigestion.**

Another example of the marvelous
merit of Dr. Hamilton's Pills comes
from Kingston, where Mrs. E. V. Hol-
ton was snatched from the grave and
restored to sound health by this won-
derful medicine.

"Three weeks ago I was taken sud-
denly ill. My head throbbled and ached
and I became so dizzy that I had to go
to bed. There was a terrible feeling
of weight and fullness in my left side
and all the region of my stomach and
liver was sore even to touch. I was
in a terrible state—had no appetite, in
fact I was afraid to eat because of the
suffering I had to endure after meals.
I got so bilious and had such pains
across my eyes that I could scarcely
see. My doctor said I had incurable in-
digestion.

"As a last hope I used Dr. Hamilton's
Pills, I saw clearly they were doing
me good and continued the treatment.
My appetite and strength gradually re-
turned—my color improved and day
by day the stomach and liver derange-
ments were less troublesome. All
symptoms of biliousness and indiges-
tion have now passed away. I am
cured by Dr. Hamilton's Pills."

The same medicine that so wonder-
fully cured Mrs. Holton will cure any
one else of biliousness, constipation, in-
digestion, headache, poor color, and
stomach trouble. Get Dr. Hamilton's
Pills to-day—refuse any substitute.

The May Rod and Gun.

While fishing occupies prominent positions
in the May number of Rod and Gun in Can-
ada, published by W. J. Taylor, Woodstock,
Ont., there is no lack of variety, articles ap-
pealing to sportsmen of all tastes appearing
in this issue. Anglers who are arranging
their spring outings will find ample provi-
sion for their entertainment and will revel
in the stories of good fishing trips told by
their fortunate brethren. Mr. Bonycastle
Dale's studies of Wild Ducks in Canada will
interest a vast number of people, and sports-
men particularly will find their knowledge of
a fine game bird much increased by a per-
usal of this article. Catching Kids of Moun-
tain goats and White Water Men of the St.
Maurice are stories none should miss. Big
game hunting and protective work receive
much attention, while camping and moun-
taineering have their delights pleasantly pic-
tured. For variety and interest the number
is excellent throughout and sportsmen should
see to it that a copy accompanies them on
every trip.

Sore Feet and Chafed Places.

"Zam-Buk" is best for chafed places, sore
feet, or inflamed patches, caused by friction.
For babies' sensitive skins it is especially
adapted, because it is of purely herbal com-
position. Don't apply to the delicate skin of
your children, either for cuts, sores or skin
diseases, the crude salves made up from
animal oils and fats, with mineral coloring
and scented matter to hide their unpleasant
appearance and odor! Remember that what-
ever gets into the pores gets into the blood.
Stick to nature and pure natural products.
Zam-Buk is nature's own healer, and is,
therefore, not only superior in purity, but
also in strength. Cures where other things
fail. Use it, also, for piles, festering sores,
varicose ulcers, cuts, burns and every-day in-
juries. Every home needs it!

A Rival

Once upon a time a fond mother disap-
proved of her daughter marrying. This was
the more awkward because the young lady
had picked the young man out. Also he had
wealth, says Young's Magazine. And the
mother who was widowed, had not the where-
withal to furnish her daughter with the var-
iety of frocks and things which her youthful
heart craved.

"I might not object to the man so much,"
said the mother one evening, "if you would
only let me see him. But here is a man whom
I have never set eyes on, and yet whom you
insist on taking for a husband. I don't un-
derstand such secrecy!"

Replied the daughter, "If I ever intro-
duced him you'd insist on marrying him your-
self."

Spruce wood pulp has been used in mak-
ing an imitation of cotton cloth. The new
fabric promises to be of value, and our van-
ishing forests will still more quickly vanish
if they are to be used for this material as well
as for paper.

Harry Whitney, the first white man met
by Dr. Cook on his return from the north, is
planning another Arctic expedition to bring
back specimens of big game, and incidentally
to get Dr. Cook's instruments, which were
intrusted to his case, but which Commander
Peary required him to leave behind.

It is now positively known that iron ore
abounds in every province of Canada, with
the possible exception of the prairie prov-

ing industries when the mines are developed.

**Telegraph Operators Get Increased
Pay**

Owing to scarcity of telegraph operators
all over the continent, the Canadian Pacific
Railway has granted demands of commercial
men west of Fort William for an increase of
minimum wages for first class men from \$90
to \$100 per month with proportional increase
for less experienced men. Increases date
from May 1st.

INVIGORATING TONIC

Miss Ella Muriel Wood, of Browns-
ville, Ont., says: "Two years ago I was
going into a decline. I could hardly
drag myself across the floor, I could not
sweep the carpet. If I went for a drive,
I had to lie down when I came back; if
I went for a mile on my wheel I was
too weak to lift it through the gateway,
and last time I came in from having a
spin I dropped utterly helpless from
fatigue. My father would give me no
peace until I secured PSYCHINE,
knowing it was excellent for decline or
weakness. I must say the results are
wonderful and people remarked my im-
provement. Instead of a little, pale,
hollow-cheeked, listless, melancholy girl,
I am to-day full of life, ready for a
sleigh-ride, a skating match, or an
evening party with anyone, and a few
months ago I could not struggle to
church, 40 rods from my home. I have
never had the slightest cause to fear
any return of the disease."
