

Why Insurance?

Have you ever considered "Painting" from the standpoint of an insurance policy?

The premium represented by the cost of painting is in proportion to the importance of the security afforded, no higher than other insurance; in fact it is considerably smaller, and soon becomes a minus quantity. Why Fire Insurance—Tornado Insurance—Lightning-rods? They only protect when that which you wish to avert, happens.

Martin-Senour Paint 100% Pure

affords the utmost protection, insures your property, beginning with its application. It wards off the sun dogs of Old Sol, the nips of Old Jack Frost—the ravages of Old Father Time.

Prevents dry rot—checks deterioration. No safer, surer or more reliable insurance could be offered.

If your dealer cannot supply you, notify us and we will gladly direct you to where our paints are to be had.

Col D McLeod Vince Chairman Public Utilities Commission.

The provincial government has appointed the Public Utilities Commission, under the act of last session. This commission is a court authorized to hear complaints against companies or firms administering public utilities, under the jurisdiction of the province, to investigate the matters in question and to determine the remedy. Following are the commissioners:—

- Col. D. McLeod Vince, K. C., barrister of Woodstock, chairman.
- O. M. Melanson, merchant of Shediac.
- G. O. D. Otty, barrister of Hampton, secretary treasurer of the municipality of Kings.
- The secretary is Mr. Fred P. Robinson of Fredericton.

"Col. Vince is a man whose judicial qualities, general knowledge, integrity and thoroughness will command confidence everywhere. He is an exceedingly well read man, has a wide knowledge of business, is a good lawyer and scrupulously just. He was a candidate for the House of Commons at one general election and one by election, accepting nominations when the contest was a forlorn hope, and at no other times. For several years he was postmaster of Woodstock, but declined to retain the position by giving up his law practice. He was for many years an officer in the Free Baptist conference.

In military circles Col Vince is well known throughout the province as the commander under whom the Brighton Engineers attained remarkable efficiency."—St. John Standard.

The DISPATCH desires to concur with what the Standard has said in regard to Col. Vince's qualifications for this responsible position, and to offer him its sincere congratulations upon his appointment.

Quebec Prohibits Export of Pulpwood.

Quebec, April 12.—Premier Gouin this afternoon announced in the house the new policy of the government as regards pulpwood. The premier said it had been decided to prohibit the exportation of all pulpwood out on crown lands, before it was manufactured in Canada; secondly, to increase the stumpage dues by sixty per cent.; and thirdly, to increase the ground rent per acre mile from \$3 to \$5.

This important announcement came at the end of a speech lasting two and a half hours, in reply to the criticisms of the leader of the opposition on the budget speech of the provincial treasurer.

In taking up the matter of the forestry question of the province, Premier Gouin said that he had made a preliminary announcement some time ago as to the intention of the government of the province to follow the example of Ontario and prohibit the exportation of pulpwood out on crown lands before it was manufactured in Quebec.

Premier Gouin gave an explanation for the prohibiting of exportation of the raw material, the example of Ontario, and indicated in an unmistakable manner that Quebec had decided to protect its own interests against the industry of American investors, who will, in the future, have to leave more of their money in the province if they want Quebec pulpwood.

The other day Premier Hazen was reported to have said he believed in prohibiting the exportation of pulpwood to the United States.

There can be no question about the advisability of New Brunswick following the lead of Ontario and Quebec, and it may not be unlikely if at its next session legislation will be introduced prohibiting the exportation of pulpwood on Crown lands and increasing the stumpage trees.

The general unrest among Americans once the action of Quebec sufficiently indicates the great financial loss such legislation entails upon their manufacturers.

Prohibition For Nova Scotia

Halifax, April 12.—Premier Murray introduced the new temperance legislation for the Province of Nova Scotia in the local legislature this afternoon.

It is in effect the enactment of the prohibition provisions of the P. E. Island law in all the parts of the province except the city of Halifax and places in which the Scott act is in force.

A change has been made in respect to enforcement of the laws while the inspectors appointed by the municipalities are to continue in office provision has been made for inspectors-in-chief who are to be appointed and paid by the province. The duties of the inspector-in-chief are to supervise and assist the inspectors throughout the province, including counties in which the Scott act is in force.

A South African Memorial at Toronto.

Earl Grey will unveil the South African memorial in Toronto on Victoria Day, next week, the entire Toronto garrison participating. It is expected General Sir John French, who is coming to Canada on the invitation of Dominion government, will arrive in time to take part in the ceremony. The memorial is a fine piece of work by W. S. Aliward, a Toronto sculptor, and will cost \$38,000, of which amount \$33,144 has been already subscribed. It will bear the name of every Canadian who died while on active service in the South African war.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative power that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Down on the west side of New York there's a 'longshore saloon where they set up a huge schooner for five cents. When six o'clock blows the place is thronged by the thirsty, fortifying themselves for the long walk home. One night a huge Irishman in a red flannel shirt, open at the brawny chest and rolled up over swelling biceps, stood in the crowd and tapped his nickel on the bar. Just as the barkeeper set out the schooner the swing door burst open and a little Irishman rushed in, flung his coat on the floor, threw his hat beside it, and jumping on them, yell in a high voice quivering with rage:

"Which one of yez beat up poor Pat Murphey?"

The big Irishman in the red shirt tapped his chest. "'Twas me!" he bellowed hoarsely.

The little Irishman whirled round. "Gee!" he piped. "Ye did him up foine."

LA GRIPPE

Arrested, and Consumption Cured

Mr. G. D. Colwell, of Walkerville, Ontario, was stricken down with La Grippe in 1906 and it left him in very bad condition. He says: I was all run down and bordering on Consumption. I could not sleep at nights, had awful sweats, and coughed nearly the whole time. This is how I was when I began to take Psychine, in a low nervous state; but from the first bottle I began to improve. It did marvels for me and brought me back to health in no time, making a new man of me. It fortifies the body against the attacks of La Grippe and is a sure preventative. I always take Psychine if I feel a cold coming on and it puts me right in no time."

Historic Doubles

(London Chronicle)

These almost perfect doubles, George Du Maurier and Sir Laurence Alma Tadema, were nearly indistinguishable. The story goes that a lady sitting near Du Maurier at dinner started conversation by pooh-poohing all idea of a resemblance.

You know Mr. Alma Tadema, I think it's absurd to say that you and Mr. Du Maurier are so awfully alike. There's really no resemblance at all. Don't you agree with me?" "Quite," was the polite answer, but you see I happen to be Mr. Du Maurier!"

Sir Francis Burnand, the late editor of Punch, was requested one night in company to make pun extempore.

"Upon what subject?" asked Burnand.

"The King," was suggested.

"Oh, Sir," he replied, "the King is no subject."

Murderer Accused by Cat

(F. R. Montague in the April Strand.)

There was a murder of a woman at Lyons. When the police came and inspected the body, which lay in a pool of blood, one of them drew attention to a large white cat on the top of a cupboard. The eyes of the cat were fastened on its murdered mistress with an expression of terror. No attempt was made to disturb it, and the cat was still there motionless the next morning. During the day detectives brought in two suspected persons. They had scarcely entered the room when the cat sprang up, with bristling fur and glaring eyes, and, descending to the floor began acting in the most astonishing manner. Both the suspected persons turned pale, and one of them in a kink of panic tried to strike at it. The cat then disappeared. A short time afterwards one of the murderers made a confession, in which the cat figured as the only witness of the crime which he and his companion had perpetrated. Both men were executed. This story was authenticated by the late Frederick Myers.

DOCTOR GAVE HIM UP

A Terrible Experience with Kidney Disease and Dragging Backache.

Expected Death Any Day.

To get well and keep well after being pronounced incurable by his physician was the wonderful experience of Mr. A. P. Chapman, who was snatched from the very jaws of death by the timely use of Dr. Hamilton's Pills.

"For two years I had suffered from advanced kidney disease, was stooped, back-weary, hollow-eyed, and completely played out. One Saturday night I was seized by an acute attack and became so sick I had to call in my physician. For a week he attended me constantly, but I grew weaker and sicker every day. The pains in my back, the blinding headaches, the awful weakness from which I suffered almost killed me—the doctor saw it was hopeless.

"As a last hope I was persuaded to take Dr. Hamilton's Pills. They brought back my strength, aided my stomach, created new appetite, cleansed my blood, and gave me relief from pain. After I used Dr. Hamilton's Pills for a month I was like a new man. I continued the treatment for three months and was cured."

Surely there is an obvious moral and lesson here for all men and women. If you are suffering from any derangement, give Dr. Hamilton's Pills an immediate and thorough trial, your faith in them will not be disappointed. 25c per box, or five boxes for \$1.00, at all dealers, or The Catarthozone Company, Kingston, Ont.

The Rev. Dr. Pockman, a well known New Jersey clergyman, told a story at a men's club meeting in Jersey City of one of his early attempts to inculcate prohibition sentiment in another part of the State. As an example of the evil effects of liquor, he told of taking a little worm and placing it in a glass of water. The worm enjoyed the bath, swimming around gayly. He took the worm out of the water and placed it in a glass of whiskey which he had on the table beside the water. After a few contortions the worm gave up the battle and was fished out dead. Just as the reverend doctor was about to explain the example a man with a deep bass voice in the back of the room shouted out, "Say, doctor, what brand of whiskey was that?"—New York Tribune.

A Study Flow

A truly eloquent parson had been preaching for an hour, hour or so on the immortality of the soul.

"I looked at the mountain," he declaimed, "and could not help thinking, 'Beautiful as you are, you will be destroyed, while my soul will not.' I gazed upon the ocean and cried 'Mighty as you are you will eventually dry up, but not I!'—Everybody's.

UNION BLEND TEA

the Tea that satisfies

YOU know the kind of tea you like—will you let Union Blend prove its own case? That's all I ask. Simply go to your grocer, order a pound packet—or a half pound if you prefer—and see for yourself if it doesn't make half as many cups again as the kind you are using. Just count the cups. A tea at 40c. that goes half as far again as a 30c. tea is economy, isn't it? Your own teacup can be the judge—I'll stand by the decision it makes. Try it.

Union Blend one pound packets—the pound packets only—contain coupons that are worth money to you. But this is merely an advertisement—the tea itself is worth the price, fully.
