World's Peace-maker Dead.

King Edward died at 11.45 p m Friday night in the presence of the Royal Family.

London, May 6.—Edward the Seventh died a quarter of an hour before midnight. His illness, in its final stages, progressed with terrifying rapidity. It was only at half past three this afternoon that he was prevailed upon to allow himself to be laid in bed. Since morning he had been reclining in an invalid chair. At 3.30 he had a violent attack of coughing, which so exhausted him that he held out no longer against the wishes of his physicians. He still retained full consciousness, and about five o'clock asked for news about his horse "Witch of the Air" which was running at Kempton Park this afternoon. He was told it had won.

Not long afterwards it became apparent that he was rapidly growing worse. All five physicians who had been called into consultation were in attendance, and soon after their public announcement that his condition was critical the Royal patient began to show signs of the approaching dissolution. He sank rapidly, and 11 45 passed away.

THE NEW KING.

In the eyes of the British Constitution the King never dies. The death of one Monarch technically turned the demise of the Crown, is automatically followed by the accession of his successor. Thus when King Edward breathed his last, in the presence of his family, among whom was of course his eldest son, the Prince of Wales, the British Empire came into possession of a new King.

The Prince and Princess of Wales drove to the Palace from Marlborough House at half-past ten, and remained in the room next to that in which the King lay. Here the Queen and Princess Victoria spent the day. The King was very glad to be able to command once more the services of the nurse who had cared for him during his recovery from the operation in 1901, and several times sent out word to his family that he was as comfortable as he could expect to be.

Premier Murray's Left Leg Amputated.

Halifax, N S, May 8—Amputation was performed on the left leg of Premier Murray on Saturday, close to the joint above the knee. Tonight Mr. Murray's condition is reported satisfactory and the physicians say this is the best day he has spent since entering the hospital. The temperature is normal and he has been taking nourishment all day.

An examination showed that a clot of blood had formed in the artery, stopping the circulation. The leg was found to be gangrenous. The premier's chances of recovery are good.

New York Masons to Build a Million Dollar Temple.

New York, May 8—A new eighteen story Masonic hall, costing in the neighborhood of \$1,000,000, is to replace the historic building at Sixth avenue and Twenty-third street, this city, which was dedicated in 1872. This was decided upon by the convention of the grand lodge of Masons of the state of New York. The new hall will be built of marble and stone, but the stone brought from King Solomon's Temple in Jerusalem over the entrance of the old building, as well as the bronze griffins and pillars in the hall, will be preserved.

Schr. Sweet Marie Wrecked.

Rexton, N B, May 7—The schooner Sweet Marie, Captain William Nicoll, owned by M. P. Hogan, of Charlottetown, went ashore in Thursday's storm at Callendar's Beach Kouchibouac, and is a total wreck. She was going to Campbelltown from Charlottetown unloaded. The crew was saved.

TOWN COUNCIL.

Resolution Passed Regarding the Death of King Edward.

At a special meeting of the Town Council held last Saturday evening, His Worship Mayor Jones presided. It was moved by Coun Ketchum, seconded by Coun McManus and

RESOLVED:—That the Town Council of the Town of Woodstock, New Brunswick, hereby assembled in special session, having learned with deep regret and sorrow of the death of His Majesty, King Edward the Seventh do take this occasion to place on record their profound sense of the loss, not only that the Empire and Canada have sustained, but, as well, the world, at large, in the removal of a Ruler universally acknowledged to have exercised the greatest influence for good during a comparatively short but memorable reign, all too soon brought to a close, and that,

The Council furthermore joins with the municipalities throughout the Empire in tendering their heartfelt sympathy to Her Majesty, the widowed Queen, and to him upon whose shoulders, by the death of His Illustrious father, has so suddenly been thrown the burden of Empire, assuring him of their unalterable loyalty to his Throne and Person and praying that by the grace of God by whom all Kings and Queens do reign, His Majesty may long be spared to rule over a glorious, contented and United Empire.

And Further Resolved that the Town Clerk be hereby directed to forward a copy of this resolution, through the constituted channel, to the proper authority.

Two Edmundston Buildings Gutted by Fire Yesterday.

Edmundston, May 8—Fire which broke out this morning in a store occupied by a Jew named Rokestin, did considerable damage to it and the residence of George Mosher adjoining.

Both buildings were owned by Mr. Mosher and were insured for \$1,700, which was about half what they were worth. Rokestin, who had a lease of the store, had no insurance. He was away himself, and his wife was alone with the servant. Most of his goods were taken out of the burning building, however.

A blacksmith shop near caught fire, but the flames were put out by the aid of hand pumps. About ninety-four feet of the New Brunswick Telephone Company's wire was burned, with one pole.

A family by the name of Clarke, who lived in the basement underneath the store, lost all their household effects in the fire. They had no insurance.

Drill for Teachers.

It is expected that announcement will be made at an early date by the Department of Education regarding the opportunities which will be afforded to school teachers to take physical and military training in different sections of the province.

Arrangements are being completed so that male teachers may take a course in physical and military training at the regimental depot here during the summer, and will be allowed \$2 per day during their course to defray their expenses. It is expected a large number of provincial teachers will take this course during the vacation season and thus be in a position to give instruction in this branch of training to their pupils.—Fredericton Gleaner.

What Col Dibblee Thinks of the Valley Railway.

When Col. F. H. J. Dibblee was passing through St. John, last week, he was interviewed by a reporter, and he is credited with saying. Like almost everybody else in the county and surrounding country, he was interested in the Valley Railway. What the people want up there was the federal government proposition that would give a line with competitive rates. The Gould scheme was not in favor.

ANOTHER CHANCE.

Your chance again to get another big bargain at Gibson & Ross' on Saturday, May 14th, they are offering for that day only, a Man's Sydney Grain shoe with lap sole, regular \$2.50 value for \$1.98.

RAMSAY'S PAINTS.

Let us all get to work on our homes for more beauty and cleanliness. Let us all buy Ramsay's Paints and we shall have the prettiest town and countryside in Canada. Let us ask Mrs. C A Phillips, Bath, to show us these colors.

Rev K McKay Honored

The many friends of Rev. K. McKay will be glad to know that at a meeting of the Boston Presbytery held recently, a pension for life was granted to him on account of his 22 years of successful ministry in Houlton.

Mr. McKay came here when the society was weak, without a church home, struggling for existence, and during this time has not only built up the society so that it is a power in the community for everything that is noble and high in life, but also built one of the prettiest churches in town, and also a commodious parsonage and is certainly deserving of the honor bestowed.

Houlton may well be proud of not only Mr. McKay, but also his wife who has done much toward helping her husband in his life work, and always being ready to assist in the charitable work of the town and community.—Times.

1st Woodstock Company Boys' Brigade

To the Editor of The Dispatch:

Would you kindly allow me through your columns, to ask the boys of The 1st Woodstock Company of the Boys' Brigade, to bring to me, on or by Monday the 16th inst., all accoutrements (belts, shoulder-straps, pouches, stripes denoting rank, the figure 1 etc) belonging to the Company.

While writing on the subject, I should like to express to the parents of the boys who are members of the Company, and to the public generally, my very deep regret that circumstances—chiefly the work of this large parish which keeps me busy all the time—have prevented me from carrying on the work of the Company and my plans for its development. A gentleman who has had a good deal of experience in work among boys in one or two large cities, has half promised to take charge of the Company and work it, and should we be able to arrange matters, then drill, etc will begin after the summer holiday—say about September 1st.

Thanking you for the space kindly granted me, I am

Yours very truly

H. GORING ALLDER.

Another Big Strike of Gas in Albert

Another big strike of natural gas was made by the Maritime Oil Fields Company in well No 8 at McLatchey's, Albert county. A few days ago a big flow of gas was struck in this well. Boring was continued and at a depth of 1,650 feet at 4 o'clock on Friday afternoon they struck a gas gusher and had to quit work.

The workmen were unable to cap the well so great was the pressure. O. P. Boggs, manager, said on Friday night this well is yielding at least 5,000,000 cubic feet of gas per day and it would probably yield 10,000,000 cubic feet.

Some idea of the quantity may be gained when it is stated 1,000,000 cubic feet per day will supply Moncton for domestic purposes. Not only has another gas strike been made but well No 7 shot Wednesday last was bored deeper and the oil struck practically amounts to a gusher. Manager Boggs is greatly elated over the strike and has cabled the news to Dr. Henderson who is at present in England.
