Capt Balmain Recipient of Hand-some Cup.

The Dominion of Canada prize for rifle shooting among members of civilian rifle association which was won by Capt Wm Balmain in his association arrived yesterday. It is a nickel silver ornamental silver ten inches in diameter bearing the coat of arms of the Dominion of Canada with an inscription that it was presented by the government of Canada for skill in rifle shooting. The name of the association and winner is engraved on the silver.

With a view to the greater encouragement of rifle shooting among members of civilian rifle associations, it has been decided by the Militia Council to offer a similar prize to be known as the "Dominion of Canada Prize" to each gazetted and efficient civilian rifle association for competition again this year.

HELPLESS LITTLE BABIES.

Ask any mother who has used Baby's Own Tablets and she will tell you they are the best thing in the world for curing stomach and bowel troubles and making teething easy. This is the highest praise a medicine can get. And we give you the guarantee of a government analyst that this medicine is absolutely safe. No other medicine intended for young children give mothers such a guarantee. Mrs Robt. Mieth, Hotham, Ont, says:—"I cannot tell you how much good Baby's Own Tablets have done my baby. I am sorry I did not know about them earlier." Sold by medicine dealers or by mail at 25 cents a box from the Dr Williams' Medicine Co, Brockville, Ont.

Watch For it on Friday Night Next

Cambridge, Mass, May 16—The morning observations of Halley's comet by the Harvard Observatory closed today with another disappointing effort, and for the next few days views of the visitor can only be made in broad daylight.

Whether Halley's comet will become sufficiently bright to be seen at noon-day tomorrow or on Wednesday either before or after the sun, is yet a matter of conjecture.

If the moon were not quite so bright on Wednesday evening there might be a chance to see the end of the comet's tail when it curves down behind the western horizon after the sun. It will certainly be an object of interest on Thursday evening while on Friday night the comet should be one of the finest celestial spectacles in the last quarter of a century, rivaling the great comet of 1882.

Three Fishermen Drowned.

Charlottetown, P E I, May 14th.—The fate of the three fishermen, Campbell, Scrahan and Holland, who were driven out to sea in a gasoline dory a month ago is now probably decided. Captain Butler of the schooner Burleigh picked up a gasoline dory full of water off Cape North.

The arrival of fifty English settlers here last night to buy farms marks an epoch in the island's agricultural history, this being the first immigration of any size since the pioneers came a century and a half ago.

A number of young men easily secured employment with farmers, the others will get some experience of island agricultural conditions before buying property. A reception was given them in the legislative chamber today where they were addressed by Governor McKinnon and others. Immigration Agent Winfield who brought them here will return to Scotland for more.

St George Man Killed at Calais

Calais, Me., May 14.—Seymour Theriault, aged 35, a native of St. George, N. B., was instantly killed in the hold of the schooner, William B. Herrick, now discharging coal at Washington county railway dock.

A fall used in holsting was accidentally pushed off the staging while the gear was being shifted and a heavy hook struck Theriault on the head. He leaves a wife and three young children.

Beaver Over-Running Algonquin Park.

Toronto, May 16—Supt. George W. Bartlett, of Algonquin Park, reached the parliament buildings today with 361 beaver skins, nine otter and fourteen muskrats. It is the intention to secure 600 additional beaver skins this autumn, bringing the total to virtually 1,000 for the present year. The government has under consideration a proposal to take 1,000 beaver skins from Algonquin Park every year for sale by tender. By the adoption of this policy the park will become self-sustaining.

The beaver are multiplying to an enormous extent. "The annual increase in their number is from 5,000 to 10,000," said Supt Bartlett. "The animals already secured are not even missed. They were all taken within three square miles."

World's Sunday School Convention.

Mr. and Mrs. S. J. Parsons and Mr. C. W. Manzer, Agent C. P. R., who have been appointed delegates to The World's Sunday School Convention, left Tuesday morning for Washington, D. C.

The sixth World's Sunday School Convention will be held in the city of Washington this year May 19th to 24th. The province of New Brunswick will be represented by about fifteen delegates.

The first World's Sunday School Convention was held in London, Eng., July 1889. The second in St. Louis, U. S., Sept. 1893. The third in London, Eng., July 1898. The fourth in Jerusalem, Palestine, April 1904 and the fifth in the city of Rome, Italy, May 1907.

The 22nd day of May 1910, is called the World's Sunday School Day, and prayers will be offered for Sunday School workers and Bible Students the world around, and especially those from many lands who are meeting in Washington, the capital city of the United States of America, in the World's Sixth Sunday School Convention. Upon the request of the World's Sunday School Association, many sermons in the interest of the children and youth will be preached throughout the world.

The first of the morning trains under the new C P R service between this city and Woodstock arrived here on time at 11.40 a m Tuesday. There was a fairly large number of passengers for a start and Conductor Craig of Woodstock was in charge of the train. It is the intention of the company if this train proves a success to make it a daily service.—Fredericton Gleaner.
