GEORGE SMITH, C. P. R. conductor, had a most miraculous escape from death in an accident which occurred at Perth Junction early this morning, and in which he sustained serious injuries. His head is cut in four places, two of them so deep as to require six stitches. He has also several severe injuries about the back and arm. Mr. Smith's home is in St. Andrews, but it will be some time before his condition will permit his being moved. He has orders for the engineer which kept him from boarding the train until it had gained considerable headway. He endeavored to catch on a box car, but seeing that this would throw him against the bridge he jumped off and waited until the van came. He attempted to catch on the front end of the van but his hand slipped and he was thrown with his head directly across the rail. Fortunately some part of the car struck his body before the wheel did and he was thrown to one side and dragged for a few feet. He was picked up in a dazed condition but is now resting easy.

Illness has the Advantage

If any of the drugs in your Prescription fall short in purity or in the power to combat disease. In filling Prescriptions two things are absolutely demanded. First, that the remedies used shall be of standard strength; Second, that they shall be accurately compounded. That is the kind of prescription filling we do, and the price is always fair.
