A GOOD POSITION

Can be had by ambitious young men and ladies in the field of "Wireless" or Railway telegraphy. Since the 8 hour law became effective, and since the wireless companies are establishing stations throughout the country there is a great shortage of telegraphers. Positions pay beginners from \$70 to \$90 per month, with good chance of advancement. The National Telegraph Institutes operates six official institutes in America, under supervision of R R and wireless officials and places all graduates into positions. It will pay you to write them for full details at Cincinnati, O, or Philadelphia, Pa.
