

Flying Machines
 A few years ago flying machines were hardly thought of, nor was **Scott's Emulsion** in summer. Now Scott's Emulsion is as much a summer as a winter remedy. Science did it. All Druggists.

Is Your Loaf Like This?

If your flour is of the right quality, it ought to produce uniformly good bread. When the loaf comes out of the oven it ought to be appetizing and inviting in appearance. The crust should be crisp, tender and sweet as a nut. The pores of the bread should be regular showing uniform expansion by the yeast and every loaf should be light, plump and should expand over the top of the pan. Bread made from Ogilvie's

Royal Household Flour

always comes up to the highest standard of excellence when made right. It is always uniform, and good to look at as well as good to eat. Summer and winter, day after day, month after month, "ROYAL HOUSEHOLD" is milled by exactly the same process from exactly the same standard uniform grade of the best Red Fife wheat. And this uniformity is guaranteed by rigid safeguarding tests at the mills before the flour is shipped. Get ROYAL HOUSEHOLD FLOUR from your grocer and stick to it.

"Ogilvie's Book for a Cook", with 125 pages of recipes that have been tried and tested, will be sent free if you will send us your address and mention the name of your dealer.

The One Great Figure Of The Crimean War

"Florence Nightingale." The one name that shines with undimmed lustre from out the muck and grime of the Crimean War is now sought but a name, for, for the heroic figure which bore it is still in death.

Who among the thousands of Sun readers can recall even part of the name of that British Minister at Constantinople who was the chief cause of bringing on the war in order, it is said, to avenge a personal affront? Napoleon the Third, who joined in the struggle as a means of establishing an unstable throne perished amid the wreck of that throne fifteen years later; Lord Raglan, stricken in years before the conflict began and unfitted by age for the duties devolving upon him, was forgotten almost as soon as the grave closed over him; even the martial ode of Tennyson was powerless to hide the faded and bludgeoning of the man who led the Six Hundred into the jaws of death and the name of Cardigan has passed into oblivion with the rest.

But Florence Nightingale! Had no history at all been written that name, passed on by word of mouth from the generation which watched her heroic services in the death hole of Scutari, would it have come forth as a flame of fire amid the gloom of the past? Night after night, as "the lady with the lamp" passed by, cooling parched lips with a glass of water, easing fevered brows with the touch of a soft hand, and lighting up the darkness of the shadow of the grave with a word of comfort, Florence Nightingale wrote her name by her acts in a scroll of fame that shall never perish.—Toronto Weekly Sun.
