The new Crushed Coffee as compared with Ground Coffee

Merely to look at it you will see how very different it is; **Crushed** Coffee being in small even grains, totally free of chaff or skin while ground coffee has the appearance of being mashed; large and small grains with chaff or skin mixed together.

Red Rose **crushed** Coffee, being free of the chaff, can be made as easily as Red Rose Tea. Settles clear and bright.

No egg or anything required. Just look at our **crushed** Coffee and see how correctly we describe it.

A good combination is Estabrooks' Coffee for breakfast and Red Rose Tea for other meals.

Fine Point in Legal Testimony.

"So," said the judge, you say that you never went to Chicago from Huntersville. Now this is a very important point in the case and I give you one more chance to explain, for you and Snyder were seen on the same train. Now you must be precise."

"No, sir, I never went to Chicago."

"Didn't Snyder go?"

"Yes, sir."

"And you were with him? Now out with it!"

"Yes, sir," answered the witness after a pause. "You see, I told the truth, because it was this way; We sat opposite each other. He faced the engine, I didn't go to Chicago, I just backed away from Huntersville."—Lillian McL Wilson; in Woman's Home Companion for June.
