

Did you ever hear any one say  
they could not get good coffee  
except in the States?

I have heard it, scores of times, and  
it's one of the reasons that made me decide  
to go into the Coffee business.

Of the Americans who visit us in summer,  
hundreds take home a supply of Red  
Rose Tea because they have never tasted such  
good tea before. I determined to put up a coffee  
that would make for itself  
just as good a reputation.  
It has not been easy, but I  
am sure I have succeeded.

Estabrooks' Coffee for  
breakfast and Red Rose  
Tea for other meals.

Estabrooks' Red  
Rose Coffee, put up in  
sealed tins is—well, it's  
good coffee. You and  
your American friends  
will say so.

Potato digging has gone on rapidly of late.  
It would scarcely be possible to have had a  
more favourable season for digging. One of  
the most prominent features at the station  
was the shipping of potatoes, which were  
rushed in during the successive days. The  
price rose 5 cts a bbl last week, making the  
price 75 cents.

In these days of advancing agricultural  
scientific knowledge, when the most intel-  
gent conservation as well as development of  
our country's as well as country's resources, is  
a most desirable desideratum, it is very re-  
grettable to see here and there a fire destroy-  
ing the straw where grain has been threshed  
in the field. It is not simply the rejecting at  
the abundant harvest the God of nature has  
given as a reward of the farmers' labours, but  
a resolution on their part to economical-  
ly feed the land and maintain its fertility  
that should characterize our farmers. Car-  
leton County is counted the Garden of the  
Province. Its fine farms are truly a delight  
to behold, a credit to the strenuous industry  
of the past years, and an inspiration to their  
owners to farm them from year to year, but  
there is more than this to be considered.  
Those farms are not by any means yielding  
what they are capable of yielding. Five  
large fields there are which by better farming  
might yield from three to six times as much  
as they are now yielding; yes, and more.  
They are too much "run-out." To this end  
more intelligent economic farming needs to  
be done as far as practicable. It is easy to  
burn straw. It requires resolution and  
labour to use it to advantage; but true  
agricultural pride and enterprise would  
prompt to the right use thereof. The mere  
ashes resulting from the burning do not  
represent all the fertilizing elements of the  
straw, the ashes which are apt to be scatter-  
ed over a very small space. The elements of  
the straw were not all derived from the  
ground. From the air, as well, some of  
them came, not to the air should they be  
returned by fire, but rather should they be  
ground get their benefit. If it is true, as  
economists tell us that even a pane of glass  
broken makes the community so much the  
poorer, how much more is the loss to the  
community and country discernable when  
large quantities of straw are destroyed with-  
out any conservation of our resources but  
practiced with care, intelligence and con-  
science. By a practical device of a piece of  
heavy chain, properly adjusted to the plow,  
straw can be directed towards the furrow so  
that the plow can cover it without the need  
of an additional man with a fork to place the  
straw in furrow. Your correspondent hopes  
to see the day when not one straw fire will  
be seen in our county.

things.

## The Doctor's Question Much Sickness Due to Bowel Disorders

A doctor's first question when consulted  
by a patient is, "Are your bowels regular?"  
He knows that 98% of illness is attended  
with inactive bowels and torpid liver, and  
that this condition must be removed gently  
and thoroughly before health can be restored.

Rxall Orderlies are a positive, pleasant  
and safe remedy for constipation and bowel  
disorders in general. We are so certain of  
their great curative value that we promise to  
return the purchaser's money in every case  
when they fail to produce entire satisfaction.

Rxall Orderlies are eaten like Candy, they  
act quietly, and have a soothing, strength-  
ening, healing influence on the entire intes-  
tinal tract. They do not purge, gripe, cause  
nausea, flatulence, excessive looseness, diarr-  
hoea or other annoying effect. They are es-  
pecially good for children, weak persons or  
old folks. Two sizes, 25c and 10c. Sold on-  
ly at our store—The Rxall Store, Elgin W  
Me.
