Will Discuss Valley Railway Plans To-night.

Fredericton, April 7.—Premier Hazen and member of the provincial government are here to-day for the meeting of the Executive Council, which will open this evening. One of the most important matters to come up is the arranging for the surveys of the St. John Valley Railway. In this connection it has been mentioned that Mr. P. S. Archibald, formerly of the Intercolonial Railway, will be in charge of the work, but nothing will be decided until the meeting of the Executive.

HOW TO MAKE BABY SLEEP.

The baby that cries half the night does not cry for nothing. It cries because it is not well, and has no other means of saying so. The chances are the troubles are due to some upsetting of the stomach or bowels, which would be speedily removed if the child were given a dose of Baby's Own Tablets. These Tablets make children sleep soundly and naturally because they remove the cause of the crossness and wakefulness. They are a blessing to children and a relief to worried mothers. Mrs. John Sickles, Douglastown, N. B., says: "If anything ails my little ones the first thing I give them is a dose of Baby's Own Tablets and they are soon well. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

Tuberculosis Hospital.

"The site for the hospital for tuberculosis patients will be at Welsford, N. B. This was decided on at a recent meeting of the committee appointed by the local government to choose a location.

Members of the government say nothing has yet been done in this matter. The executive will meet at Fredericton this evening.—Moncton Transcript.

The St. John Globe of the 7th inst. tells this pathetic story of two children whose mother is now settled here in Woodstock. The plight of a lonely little lad at the Union Station on Wednesday night brought to light a story of unusually hard luck. The boy's mother was deserted in England a couple of years ago and came to Canada to search for her husband. She failed, and settled in Woodstock where she got work and finally sent home for her two children, who came out on the Tunisian in charge of an uncle, who was going to Ontario. During the trip the little girl fell and broke her leg and is now in the hospital at Halifax. The uncle brought the boy as far as St. John where their ways parted. To make sure that the lad would be started in the right direction to Woodstock he gave him in charge of the station officials who looked after him and put him on his train later on.

Realty in St. John

Two important transfers of property in St. John took place last Saturday. The Victoria Hotel was sold for \$14,075 and the Odifellows Hall was also sold for \$12,525. This latter property was erected in 1878 at a cost of \$36,000.

Sam Jones, speaking on sinners' excuses, once said: "One is waiting for easier terms, another for more feeling, another for more time to consider so momentous a question, while a fourth is hindered by the 'hypocrites' in his path. At this point the speaker paused, pointed his long bony finger at the audience, and, in an indescribable droll manner, asked, 'Brother did you ever consider that a person couldn't be in your way unless you were travelling along the same road after him yourself?'"

Dr Cutten and The New Freeman

A vigorous article by His Honor Judge Carleton in the last issue of the New Freeman, repudiating an alleged charge by the President of the Acadia University in a sermon recently in St. John that the Roman Catholic church is effeminate, and a spirited editorial commenting on the same in which the writer is out after the scalps of Dr. Cutten, Henry VIII and many others, besides has provoked the St. John Standard to say this:—

"The New Freeman of last week contains a letter from Judge Carleton and an editorial discussing the address which President Cutten of Acadia University delivered a week ago in Brussels street church. Judge Carleton criticises that Dr. Cutten's opinion that the portraits of Christ in Catholic art are effeminate, and the editor of the New Freeman, as well as the correspondent, seems to assume that Dr. Cutten reflected upon the Roman Catholic church as against Protestant bodies. It is difficult to give in a condensed report an adequate account of a discourse like that criticised. The Standard's report, seems to have been accurate, but Dr. Cutten said a good deal more than was printed. His statement that the church must be more masculine, referred mainly to modern Protestantism, but in speaking of the portraits of Christ he mentioned Roman Catholic art as responsible for all the great pictures. The Standard does not propose to enter into any discussion of the merits of the sermon or the criticisms further than to say that those who heard the address would not consider it as reflecting on Roman Catholic practice and teaching more than on that of other churches. It may be mentioned that the denunciations of the Scribes and Pharisees quoted by the editor of the New Freeman to show the manly vigor of Our Lord's indignation, were also quoted by Dr. Cutten for the same purpose."

BANISH PIMPLES AND ERUPTIONS

In the Spring Most People Need a Tonic Medicine.

If you want new health and new strength in the spring you must build up your blood with a tonic medicine. Following the long indoor winter months most people feel depressed and easily tired. This means that the blood is impure and watery. It is this state of the blood that causes pimples and unsightly eruptions. To this same condition is due attacks of rheumatism and lumbago; the sharp stabbing pains of sciatica and neuralgia; poor appetite, frequent headaches and a desire to avoid exertion. You can't cure these troubles by the use of purgatives; you need a tonic and a tonic only, and among all medicines there is none can equal Dr. Williams' Pink Pills for their tonic, life-giving, nerve restoring powers. Every dose of this medicine makes new, rich blood, which drives out impurities, stimulates every organ, and brings a feeling of new health and energy to weak, tired out, ailing men, women and children. If you are feeling out of sorts give this medicine a trial, it will not disappoint you. Mr. Paul Charbonneau, a young man well known in the town of St. Jerome, Que., is one of the host who bear testimony to the value of Dr. Williams' Pink Pills. He says: "When I left school I became a book-keeper in an important office. Probably due to confinement I began to suffer from indigestion and loss of strength. I became pale and seemingly bloodless and was often seized with palpitation of the heart and violent headaches. I tried several remedies, but they did not do me a bit of good. I was advised to try Dr. Williams' Pink Pills and did so, and the use of eight boxes brought me back to perfect health and strength. I have since enjoyed the best of health and cannot say too much in praise of this valuable medicine."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

There was a suspicious fire in a store in a city not far from New York recently, and two insurance men were sent to look over the ruins. "What do you think caused it, Billy?" asked one. "Well, Tom, you take my word for it that friction was responsible. Yes, sir, friction—a \$10,000 policy rubbing against an \$8,000 stock."—New York Tribune.
