### WONDERFUL SPECIALTIES AT DOMINION EXHIBITION

Thrilling feats of Daring and Magnificent Fireworks Programme.

Throughout the Maritime Provinces of Canada and in all sections of Canada, there is the liveliest interest displayed in this great industrial, agricultural and live stock exposition, and the railway and steamboat companies are preparing for a record breaking rush of strangers.

The approaching exhibition, aside from being a most comprehensible ensemble of Canada's varied resources, will be notable for its assembly of entertaining features, combining the finest auditorium talent with thrilling acts as seen in a circus, also fireworks on a grand scale, and especially elaborate musical bills. One of the principal acts will be that of Mile Bergerat, whose "Swing of Death," is one of the most breathtaking performances before the public. It is veritably the esp-sheaf of all hazardous undertakings and will cause the thousands who attend the Fair to be awed by its danger. This young lady dashes down a steep incline in a two-ton automobile, dashes into a monstrous swing which carries the machine and its intrepid occupant a complete circle in

the air, afterwards releasing the car which speeds on its journey into the field.

Fedora and Granada is a Spanish aerial act which has won numerous plaudits in various sections of the world. The man and woman who compose this combination of performers do unheard of things on the tight-wire at 150 feet over the heads of watchers. At the present writing arrangements are being made for a possible engagement of a large detachment of the Royal Canadian Dragoons, whose "Musical Ride" has been one of the prime attractions of the Toronto Exhibition during past years. In the two vaudeville halls on the Exhibition grounds programmes of unusual excellence selected in American centres will be put on several times daily.

St John Exhibitions have in years past been noted for their fine displays of fireworks, but on this Dominion fair occasion all past programmes will be dwarfed by the magnificence of the outlay during the big nights of the show. Among the special devices to be pictured in fire will be a patriotic allegory entitled "St John the Gateway of Canada," also a "Battle of the Dreadnoughts," and automobile collisions, mot-toes, British emblems, grand illuminations, bombardments, and a world of other special features along with the usual brilliant display.

On Monday Aug 29th, Mrs A. P. Connolly received a telegram from Boston announcing the death of her sister, Mrs C. W. Stevens who was a native of Middle Simonds, Car Co, and a daughter of the late Stephen G. Shaw.

About twenty years ago the deceased went to Boston where she met and married Mr. Edwin Foster, with whom she lived until Mr. Foster's death about five years later, after which ever she studied nursing which profession she followed for several years. By her tender care and sympathy with her patients, coupled with her skill in her profession she soon came to be eagerly sought after by physicians having important cases under their charge.

About five years ago the deceased met and married Mr. Clarence Stevens with whom she lived in Boston until the time of her death. Mrs. Stevens is survived by her husband, three sisters and three brothers. Being of a loving disposition she won her way into the hearts of those she met and made a host of friends wherever she went.

In religion Mrs. Stevens was an Adventist and died trusting firmly in Him who has promised to raise the dead and give life and immortality to all the faithful ones. At Mrs. Stevens request the funeral services were conducted by Mrs. C. D. ### Institution for the Deaf and Dumb.

Halifax, N. S., September 2nd, 1910.

The school will reopen after the summer holidays on Monday, September 19th, when it is hoped all pupils will arrive promptly. At this school all pupils are taught to speak and to understand speech by reading the movements of the lips. There are throughout the Maritime provinces many children not actually deaf and dumb but deaf enough to prevent their taking advantage of the ordinary public school instruction. Such children are eligible for admission to this school and should be sent, as their speech would be greatly improved as well as their powers of lip-reading. Parents are only called upon to pay travelling expenses and furnish clothing, the Institution providing board, education, etc. Pupils may be admitted between the ages of six and eighteen years.

Doctors, teachers and clergymen are earnestly requested to communicate with Principal Fearon if they know of any deaf or partially deaf children in their neighbourhood.

### The Colpitts Have Reunion

Colpitts, A. Co., Aug. 26.—Yesterday the day set for the Colpitts reunion, provided almost ideal weather conditions for the occasion. As a consequence it seemed as if almost the whole countryside had gathered together for the day. The wide-spreading intervals, now owned by Councillor Lane Colpitts, could not be improved upon as a gathering place. The hearty vote of thanks afterward extended to Mr. Colpitts for his generosity in giving the use of his grounds for the occasion was well deserved.

An attempt was made to get an enrollment of all who came upon the grounds. This was only partially successful. A conservative estimate places the number present at seven or eight hundred. Not a few are ready to declare that at least a thousand were in attendance at some time during the day. They came from all points of the compass, Albert and Westmorland counties contributed the larger portion, but many were from a distance. In New Brunswick the most distant point represented was Woodstock. Boston and neighboring towns sent a large contingent. Rochester, N. Y., and New York City were each represented and even the far west had sent a contingent.

After the important business of eating dinner had been attended to the gathering was called to order by the president R. R. Colpitts, of Moncton. The secretary, R. J. Colpitts of Dawson, A. Co., gave a short report and read some correspondence received since the former gathering.

### Base Ball

Milltown-4 Woodstock-2.

An aggregation made up of Milltown, St. Stephen and Woodtown ball-players defeated Woodstock on Friday afternoon at Connell park to the score of 4 to 2.

Just before the last half of the ninth the players gathered on the diamond and amid cheers from both teams, J. C. Hartley, addresssing Mr. Peasley and the large gathering said:

"You are well aware that this is the last game to be played by Mr. Peasley with this team. His many admirers in this town wish to show their appreciation of him as a ball-player and as a man who has done more than any other to add prestige to the team, so that the people have stood behind him, and have asked me to present to him this gold watch as a slight token of their regard, with the fond hope that his future years on the diamond may be successful, and that he will make good in Detroit as he has done on the mill town ball team in Woodstock." Mr. Hartley then presented to Mr. Peasley a very expensive gold watch, and that gentleman replied in a brief speech.

Peasley who has been the leading pitcher and main stay of the local team left on Saturday morning for his home in Hodgson Me., where he will spend a few days before leaving for Detroit, where he is to be given a try out for next season.

The Milltown players were accompanied on an excursion train by the Milltown band, which with Woodstock band marched to park and rendered several selections before a very large crowd.

### The Fortifying of Panama Canal

LONDON, Sept. 6.—The proposal to fortify the Panama Canal as put forth in a recent speech by Col. Roosevelt, is still the subject of discussion in the newspapers here. The Times today says there is no question that Great Britain will wish in this, as in all other international affairs, to see it eye to eye with the United States. The other powers, however, might argue that the guaranteeing of neutrality should not be in the care of a single power. "In the event of a disagreement," the Times says, "there cannot be a doubt that America would welcome submission of the question to an international court."

### DISEASE FEARED.

### Summer Time A

#### Time Of Danger.

Summer time is a time of danger to all babies—but more especially to those living in the towns and cities where the heat is so excessive as to make it almost impossible to keep baby's food in proper condition. It is then that the little one suffers from those stomach and bowel troubles that carry off so many precious little lives.

During the summer the mother must be especially careful to keep baby's stomach sweet and pure and his bowels moving regularly. No other medicine will be of such great aid to mothers in summer as Baby's Own Tablets. These little Tablets never fail to regulate the bowels; sweeten the stomach and make baby well and happy. Mrs. D. Devlin, St. Sylvester East, Que., says: "I think Baby's Own Tablets are the best medicine for little ones for stomach and bowel troubles and I would not be without them." The Tablets are sold by medicine dealers or at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.
