Constable Woolverton Sent up For Trial.

Constable James Woolverton was arrested on March 24th and on securing bonds for \$1000 was immediately released. The case was tried last Wednesday before Elijah Shaw Esq., a justice of the peace, and Mr. Woolverton was sent up for trial before the grand Jury.

It will be remembered, that one Wilbert de Merchant who was doing a six months sentence in the Houlton jail for selling liquor and keeping a public nuisance in the State of Maine, had escaped from prison and was recaptured by an American officer and Mr. Woolverton, on May 10th, 1908, at 3 o'clock on Sunday morning while he was enjoying a little game of cards with a mixed company, at Jake Wise's establishment near the Boundary Line on the Canadian side.

It seems Mr. Woolverton was only following a custom of years among Constables on both sides the lines, in making the arrest of a prisoner wanted on the opposite side, and while he was aware that his action was irregular, he did not reflect that, in handing over a Canadian to Foreign authorities for a criminal offence, he was seriously exceeding his official powers.

It transpired de Merchant got no further punishments, and he was released from jail a few days before his sentence expired.

On May 15th, Mr. Woolverton was summoned to appear before Magistrate Dibblee, and after an adjournment of a week, was then dismissed.

About one year ago he was arrested and gave bonds to appear before the Victoria Circuit Court. At that trial the jury gave verdict of \$500 against the defendant.

Two weeks ago, de Merchant claiming Woolverton had not conformed with the verdict of the Court, instituted proceedings as above described.

E. W. Mair was heard in reference to getting a grant for the Woodstock Band. He said the expenses of the band last year amounted to \$1100.00. This year the expenses would be fully as large. The members had engaged Prof. Hall for another year at a salary of \$650.00. Eleven new members had joined the band this year and bought their own instruments at a cost of \$335.00. He asked the council for a grant of \$250.00 as he thought it should come from the council rather than by private subscription. The same number of concerts will be given as last year.

Coun. McManus seconded by Coun. Ketchum moved that a committee be appointed to report on the matter Friday evening. Carried.

Coun. Allingham brought up the question of repairing the sidewalk on the south side of King St. He thought a concrete walk would be the proper way to remedy the matter. The Street Committee will look the situation over and report on Friday evening.

Coun. Watson spoke of people dumping garbage on the bank of the St. John river and also on the banks of the Meduxuakeg. It was a disgrace to the town, and steps should be taken by the council to have it stopped.

His Worship said he had doubts as to whether the council had the power to stop dumping on these places providing the things they took there were not unsanitary.

I. C. Churchill asked the council to place a light on Cedar Street. Referred to the light and street committee.

Coun. Watson said the residents at the upper end of Chapel street were much in need of sewer accommodation and asked the council to consider the matter of putting one in. Left with the Supt. of Streets to report on Friday evening.

His Worship read a letter from Alex Dunbar & Son, who had a steam crusher and roller for sale, to be used for the making of permanent roads. It was a second-hand machine in good condition and the price was \$23.00.00.

His Worship said he had been talking with a Toronto man about permanent streets and he had been told that concrete was the material now being used in the large cities.
