

H. A. Flemming Leaves Halifax.

"The people of Halifax will learn with very general regret that Mr. H. A. Flemming, manager of the Bank of Nova Scotia in Halifax and secretary of the board of directors, is to leave this city. They will be sorry to lose such a good citizen. Halifax can ill afford to part with men like Herose Flemming. On the other hand, Mr. Flemming's many friends here and all over the province, will be glad to learn of his promotion, for the transfer from the management of the Halifax branch of the Bank of Nova Scotia to that of the branch in Toronto, is a step upwards which is complimentary to Mr. Flemming and will bring him the congratulations of his friends."

Mr. Flemming was at one time manager at Woodstock.—Halifax Herald.

The King's Health.

It does not follow from the fact of King Edward being out of his usual condition that his life or even his usefulness is in danger; but his tenure of life is not a very safe one at any time, and it has not been made more secure by advancing years of an exceptionally strenuous career. Social duties are exacting enough to be wearing even in private life, but when to these are superadded the cares of state, most of which he cannot devolve on any other person, the pressure becomes extreme and a collapse may suddenly supervene. Though he has a very efficient coadjutor and worthy successor in the Prince of Wales, there are some things the latter cannot pretend to do as the King himself does them; he cannot yet exercise a strong personal influence in the relations that make up "world politics," and he can just as little moderate the sharp conflicts that are impending in home politics. Fortunately, in great crises, British statesmen have a way of rising to the occasion, and there can be no doubt they would do so now if the necessity should unfortunately be forced on them.

Etna In Eruption.

Catania, Italy, March 29th.—There has been another eruption of Mount Etna which has set a stream of lava in motion through the Fra Diavolo district. It also set in quicker motion a stream advancing on Mount Fusara and one threatening San Leo. Loud rumblings are now heard and as a result people in the villages and hamlets on the mountain side are again greatly excited.

Eruptions from Mount Etna increased during Monday and as night fell they had reached their original violence. Lava which has formed in craters was expelled with such force that masses were broken into fragments and hurled to great distances. Explosion followed explosion in rapid succession and the rumblings of the great volcano were almost incessant. Lava and ashes were showered afar, causing much damage and bringing terror to the people. As a result of this the populace yesterday afternoon reformed their processions, and, carrying images and holy relics, knelt near the lava streams, imploring God to avert the scourge that threatened their homes. The bells of the village church were tolled continuously last night.

New Settlers.

The Champlain, which arrived in St. John Sunday, 27th, brought out 142 cabin and 1,040 third class passengers, of whom 153 are for the United States. The others will settle in Canada, mostly in Ontario and the West, while probably a score or so will settle in New Brunswick. Among the passengers are 70 young women, who came out under the auspices of the Hon. Mrs. Joye. They are in charge of Mrs. Black, of London, and will make their homes in the West. Among the young women are governesses, nurses and ladies' maids, school teachers, shop and factory girls.

No Appetite

**Your Food Disagrees
You're Tired—Lifeless
Skin is Yellow**

You'll Feel Worse Every Day Unless
You Brace Up Quick—The Best
Treatment is Ferrozone.

Every day comes the good news of wonderful cures with Ferrozone.

In Peterboro it worked marvels for Louis Meehan—put him right on his feet—made him entirely well.

"About three years ago," says Mr. Meehan, "I had the Grippe, which left me in a very run-down condition that finally developed into Dyspepsia. I was unable to eat but a few things and had a craving for acid. I gave up treating with the doctors because they did not help me and on the advice of a friend used Ferrozone. It not only cured me of Dyspepsia and Biliousness, but has built up my strength to what it was before I had the Grippe. I can recommend Ferrozone as an ideal restorative."

Ferrozone gives you force, energy, vim.

It strengthens the stomach, cures indigestion, prevents headaches—guarantees good health.

Thousands use Ferrozone—they all improve—get better health—look better—feel better; try it yourself—sold in 50c boxes by all druggists, or the Cattarrhozone Co., Kingston, Ont.

Ferrozone

ASPECT OF

ZAM-BUK
IT SAVES MOTHERS MONEY!

Zam-Buk spells saving to you! Suppose husband, wife or some member of the family sustains a cut or a bad scratch, which festers or turns to blood-poisoning. Result—off work! What does that mean at pay day? Zam-Buk prevents wounds, cuts or injuries "turning the wrong way." Apply it immediately, and it kills the poison and starts healing.

There is another aspect. If you have in the family, eczema, ringworm, ulceration, or any skin disease, try Zam-Buk first—don't spend money on experimenting! You will have to get Zam-Buk eventually. Do it now, and save cost of the other things. Hear these persons:—

Mr. A. M. Brooks, Wellington Street, Steelton, Ont., says:—"If only I had got Zam-Buk at first, it would have saved me scores of dollars; as well as hours of agony." Mr. Brooks has been cured of eczema. He says:—"My neck, chest and body were covered with the terrible disease. The itching, burning and smarting I suffered, none who has not gone through it can tell! Doctors' lotions, salves and prescriptions didn't do me a bit of good; and from one thing to another I passed, only to find them useless. With Zam-Buk it was different, and without going through a long story, I can say that a few weeks' treatment with this great healing balm healed the sores, and rid me for good of the terrible eczema, which had held me in its grip for over ten months!"

"If I had applied Zam-Buk in the first place, instead of trying the other preparations, I should have saved myself a lot of money." So says Mrs. B. E. Bedwell, of 237 Provencher Ave., St. Boniface, Winnipeg. Mrs. Bedwell had a cut finger, which became poisoned. She says:—"It became swollen and discolored, and my whole arm ached and throbbled violently. I called in a doctor and he lanced it. You may imagine how I suffered, and despite the doctor's treatment the finger again festered, and got so bad that the doctor advised me to go into the hospital. I feared, if I did, they would cut it off, so refused. One day we were advised to try Zam-Buk. We left off everything else and gave this balm a trial. Well, it only took about four days to draw out the soreness! Then, bit by bit, it began to heal, and in less than three weeks from first applying the Zam-Buk the finger was healed and perfectly healthy. If only I had got Zam-Buk at first!"

All skin injuries and diseases are cured by Zam-Buk. Eczema, eruptions, pimples, ulcers, piles, inflamed patches, cuts, burns, scalp sores, chaps, etc., cannot resist its healing virtue. 50c. box, all druggists and stores, or post free from Zam-Buk Co., Toronto, for price. Refuse all imitations.

A passage in Sir Ernest Shackleton's account of his antarctic journey illustrates the way in which hardship fosters sympathy. During three months of his experience near the south pole he and his men suffered such extremes of hunger that, as they sat nibbling each his single biscuit, a crumb dropped by any one of them "would be followed by six pairs of eyes," and if the owner had not noticed the loss, his attention would be called to it. "We made up our minds," he recently told a London audience, "that never again would we see a hungry person flattening his nose against a cookshop window without giving him something to eat."—Youth's Companion.

Advices received by railroad companies in Montreal show that the present week will be a record breaker for immigration. Close upon 12,000 immigrants will be landed at St. John and Halifax. Most of the settlers are coming from Great Britain, although there is a considerable percentage from other European countries.

QUEBEC. On Monday the Montreal Star had a large front page cartoon displaying a hugh stork in the state of great fatigue but stubbornly supporting an infant, in explanation of the recent exodus in great numbers of Quebec's population to the West.

The commencement of a lively move of immigration of French Canadians to Saskatchewan will be made in a few days when Father Berube, a French priest will leave with 100 French-Canadian families to settle in the Vanda district, Saskatchewan. He expects to locate 500 families this year.

One on the "Old Gent."

"Son, why did you play truant and go skating today?"
"Pa, do you remember what you sent me to bed for last night?"
"Why, no—what?"
"For asking fool questions!"

The revenue of Canada is expected in the current financial year to reach \$100,000,000. Immigrants are still coming in large numbers.

Roosevelt in Action.

A cablegram from Cairo last Monday stated Col Roosevelt delivered an address before the students of the University of Egypt today. He was cordially received. His address has aroused the extreme Nationalists to a state of fury. Seven hundred students this evening marched to his hotel shouting in Arabic "Down with autocracy." "Give us a constitution."

His comments have attracted considerable comment in London where there is a difference of opinion as to the good or evil effects of his plain talking. In denouncing the assassination of the late Premier Boutdos Pasha Ghali, Col Roosevelt did not mince his words with a view to avoiding offense to the Nationalists, a great part of whom has openly sympathized with the assassin. The radical press today takes exception to the American's remarks and even the moderate Westminster Gazette says editorially:

"Disquisitions upon the readiness or the reverse of Egypt for self-government while permitted to men without great position are perhaps better hushed in the breasts of ex-presidents."

The public may expect in the next few months a similar sensation every little while, from this great exponent of the strenuous life. His program includes some rare opportunities for this sort of thing. In the next few weeks he expects to do the continent and call on nearly all of the great European dignitaries. Among them will be, the King of Italy in Rome, His Holiness the Pope; President Fallieres at Paris; Emperor William, at Berlin and Edward the 7th at Windsor. In addition to these semi-official receptions there will be sporting and junketing, in berriving and speechmaking without end. Already the Colonel has been elected a citizen of London. The Golden Casket, which shall contain the parchment granting him the freedom of the city, is ordered. And New York is making wonderful preparations for a royal ovation when he lands there.

Meanwhile President Taft is not playing golf. In New York, Monday week he attended two banquets, a luncheon and two receptions, had half a dozen conferences with local leaders, was pursued by a park policeman for scorching, and broke the automobile speed record for Broadway during the rush hours. This may not be in keeping with the Constitution, but it shows a willingness to strive with the late president at the game of rubbing shoulders with the general public. His political friends have lost all patience with their leader's social activities. One of the frankest of them has this to say: "No man ever lived or ever will live who can, at the same time, be a real President and a peripatetic lecturer and showman. The greatest administrative office on earth has become, of late, a top liner for advertisements, a sure-thing provider of gate receipts, a powerful aid to selfish local enterprises, and an object of gaping wonder to idle and curious crowds."

C P R Telegrapher's Demands.

Telegraph operators of the entire Canadian Pacific Railway system are making a demand for a higher scale of wages, the schedule of which has been already presented to the company. A conference between the union and railway will be held in Toronto this week attended by delegates from all along the line.

U S Senator a Bribe-Taker.

Jotham P Allds, an American Senator, who was charged in the Senate on Jan 28th, of taking bribes, was last Tuesday convicted by a vote of forty to nine. He has gone into private life as a branded corruptionist.

DEAF

For Thirteen Years. Cattarrhozone Cured.

Mr. Geo. Warner, publisher of The Masonic Register, Toronto, was almost totally deaf in both ears for a number of years.

Mr. Warner says: "For the past thirteen years my hearing has been badly affected. The streets were as quiet to me as if I lived in the city of the dead. I could neither hear the noise of street cars nor sound of horses' feet on the pavement. Before I had used Cattarrhozone Inhaler three days I was able to notice a great change in my condition, which gradually improved until now I can hear a whisper across the room. I cannot tell you how much I appreciate Cattarrhozone, or of the wonderful results I have derived from using it. Cattarrhozone has my strongest endorsement, and I am quite willing that you should use it."

Mr. Warner's unsolicited testimonial furnishes abundant proof that deafness can be cured, even in old age, if Cattarrhozone is used. This remedy is scientific in its application, and meets with the endorsement of prominent ministers and doctors all over Canada. Our best equipped health institutions always keep it on hand, and cases are recorded where it has been used with great success in the Government deaf and dumb institutions where other means proved futile. Complete outfit price \$1.00. All dealers or the Cattarrhozone Co., Kingston, Ont.

PURITY FLOUR

Baking triumphs are everyday occurrences with Purity flour.

Highest grade in the world.

Home-made bread awarded first prize at the National Exhibition, Toronto, was made from Purity flour.
