## Notice Of Sale

To George N. Estey of the Parish of Wick-  
low in the County of Carleton and Province  
of New Brunswick, Farmer, and Sarah A.  
Estey his wife and all others whom it may in  
anywise concern:

NOTICE is hereby given that under and by  
virtue of a power of sale contained in a cer-  
tain mortgage bearing date the sixth day of  
December A. D. 1909, registered in the Car-  
leton County Records in Book T. No. 4 on  
pages 577, 578, 579 and 580 and made between  
the said George N. Estey and Sarah A. Estey  
of the one part and D. Newman Estey of the  
Parish of Simonds in the said County of Car-  
leton, farmer, of the other part.

There will for the purpose of satisfying  
the money secured by the said Indenture of  
Mortgage, default having been made in pay-  
ment thereof, be sold at Public Auction in  
front of the Law Office of J. R. H. Simms, 61  
Main Street in the Village of Bath in the  
County of Carleton on Saturday the  
twenty-first day of October A. D. 1911,  
at the hour of ten o'clock in the fore-  
noon, "All that piece or parcel of land situate  
lying and being in the Parish of  
Wicklow in the County of Carleton and be-  
ing the South or lower third of Lot number  
one granted to James Patridge in a Grant  
dated the fourth day of November, one thou-  
sand eight hundred and twenty eight and  
commencing on the western bank of the  
River St. John at the South East angle of  
land occupied by Israel Drost Thence in a  
westerly course along the South side of said  
land to the rear or base line to a stake on the  
line of land owned by William Tweedie  
thence southerly along said line thirty or  
more rods until it strikes the corner stake of  
the south East Corner of the said William  
Tweedie's land, thence in a Easterly course  
along the north side of lands owned by John  
Fulton to the aforementioned river Saint  
John thence north along said River thirty  
or more rods to the place of beginning con-  
taining one hundred acres more or less and  
known as the whole of the Land deeded  
by Albert Drost to said D. Newman Estey  
and registered in Book D. Number 39, of Re-  
cords on pages 139 and 131 the fourth day of  
December A. D. 1884."

Together with all and singular the build-  
ings and improvements profits privileges  
thereon and the appurtenances thereto be-  
longing.

Dated this 13th day of September A. D.  
1911.

J. R. H. SIMMS  
Solicitor for Mortgagees. 164

## Cooking Rice

In order that rice, when cooked should  
be snowy white, dry and smooth, with  
every grain separate, it must first be  
well and thoroughly washed after pick-  
ing it clean from every foreign sub-  
stance that somehow gets into it, wash-  
ing through three or four cold, clear  
waters, rubbing the grains well between  
the hand to remove all dust and discolor-  
ation. When well cleaned, it must be  
put over the fire in a quart of boiling  
water to each cupful of rice, adding a  
teaspoonful of salt to the water; the  
water must be boiling when the rice is  
put into it, as the boiling of the water  
will toss the grains of rice, separating  
and preventing them clinging together.  
Shake the vessel occasionally, until the  
grains begin to soften, but after this  
do not touch the rice, but continue the  
boiling until it swells and appears to  
icken; then take off the cover, pour  
off any water there is, and set the ves-  
sel in the oven in order that the dry  
heat may swell the grains, leaving it for  
about ten minutes, but by no means un-  
til the grains brown. Then take out of  
the oven, let stand a few minutes, and  
turn out into a dish. Every grain should  
stand apart, beautifully white, soft,  
and perfectly dry. The water must be  
boiling when the rice is put into it, and  
while the grains are heating, and the  
water not bubbling, it may be occasion-  
ally stirred to prevent sticking to the bot-  
tom, but after the boiling begins, it  
must not be touched. When the rice is  
put into the vessel of boiling water it  
must be covered and kept covered. If  
rice is put on to cook in cold water, it  
will be a mushy, pasty mass when done

## Entertainment in the Home

A Louisville barrister escorted his  
wife and daughter to a lecture and then  
to his wife's annoyance disappeared.  
He was on hand, when the meeting was  
over.

"Hello, there, Theodore," said a  
friend, meeting the barrister and his  
family in the street car, "been to the  
lecture?" The lawyer stole a look at  
his wife's face.

"No," he answered, "just going."

## A Daily Thought

Life is made up of little things. It is  
but once in an age that occasion is  
offered for doing a great deed. True  
greatness consists in being great in  
little things.

—George MacDonald.

## In The Kitchen

**Cauliflower in Bread Cases.**—This is  
an attractive way of serving cauliflower:  
Wash the cauliflower, separate the  
flowerettes and boil in salted water.  
When done, drain and put in a cream  
sauce. Scoop out the inside of some  
breakfast rolls, toast them to a nice  
brown, and fill with the creamed cau-  
liflower.

## Green Corn Oysters

To a pint of grated corn add two well  
beaten eggs, one-half cup of cream,  
and one-half cupful of flour with one  
half teaspoon of baking powder stirred  
in it; season with pepper and salt and  
fry in butter, dropping the batter in  
spoonfuls; serve a few at a time very  
hot, as a relish with meats.

## Cleaning White Kid Shoes

"Any of you who have had as many  
trying times over soiled white kid slip-  
pers as I have, will be glad to hear of  
the simple solution I found," says a girl.  
"I had always scrubbed my shoes with  
benzine or gasoline, and although I man-  
aged after hours of toil to make them  
presentable, they were never really  
satisfactorily clean.

"One time when I came home from  
a dance my shoes were covered with  
thick black scratches and marks, and  
I considered them hopeless. The idea  
came to me of using something dry on  
them, so I took a piece of ordinary  
chalk and rubbed the shoes with it  
after making the surface of the chalk  
rough on a greater. This cleaned my  
shoes quickly and thoroughly and it is so  
simple and safe that I thought others  
might like to know of it. I am told that  
French chalk will work even better, but  
I found my ordinary kind entirely effec-  
tual. Be sure to keep the surface of the  
chalk rough. Rubbing it on the shoes  
makes it smooth so have a grater or  
some other rough-surfaced article  
near."

## Canned Beets

Boil the beets until tender, rub off the  
skins and slice while hot, into jars, pack-  
ing as closely as possible. Have over  
the fire two cups of vinegar to half a  
cup of sugar, with spices to suit your  
taste. Boil up for a minute, pour it  
over the beets and seal.

## Caramel Pudding

Brown over the fire one cup of brown  
sugar; add to this one quart of hot milk  
three tablespoons of corn starch, two  
eggs, and a pinch of salt. Stir until it  
reaches the consistency of custard,  
adding corn starch and eggs after the  
sugar has dissolved. When thick enough  
pour into chilled moulds, and allow to  
set. Serve with whipped cream.

## Fudge

Two cups of white sugar, two cups of  
brown sugar, one of milk, two table-  
spoons of cocoa, a pinch of salt and  
vanilla flavoring. Cook until it forms  
soft ball in water. Allow to cool, then  
beat vigorously until firmly stiff and  
pour on buttered plate.

## Good Listeners

Senator Swanson, of Virginia, tells a  
good story on himself about the first  
political speech he ever made. He says:  
"I jumped up and began: 'Gentlemen,  
Herodotus tells us'—'Which ticket's  
he on?' yelled the man with the red  
shirt. 'Herodotus tells us,' I resumed  
with a gulp, 'of a whole army that was  
put to flight by the braying of an ass.'  
Then the man's voice rose above the  
din. 'Young feller,' he called, 'you  
needn't be afraid for this crowd. It's  
been tested.'"—Buffalo Commercial.

## THE LOVE OF OATS

Why Normal, Active People Always  
Crave Oatmeal

Oats contain more body-building food than  
any other grain that grows. They contain  
more energy-giving food. You know their  
effect on horses.

Oats contain more organic phosphorus  
than any other grain, and phosphorus is the  
brain's main constituent. They contain  
more lecithin, and lecithin is the chief  
component of the entire nervous system.

That's why workers love oatmeal. That's  
why growing children crave it. It is simply  
the call of nature for what bodies, brains  
and nerves require.

But some oatmeal fails to meet these  
requirements. Only the richest, plumpest  
oats supply a food worth while. The choic-  
est oats are sifted 62 times to get the  
grains for Quaker Oats. Only ten pounds  
are secured from a bushel. But these fine  
oats, when prepared by the Quaker pro-  
cess, supply the utmost in oatmeal.

Oatmeal is the most important food you  
serve. And the best costs only one-half  
cent per dish. Don't supply your table  
with inferior oats.  
Made in Canada.

**WOODSTOCK WOOD-WORKING**  
**COMPANY, LIMITED,**

MANUFACTURERS OF

**Doors, Sashes, Blinds, School Desks,**

**You Had Better See What We Have Here**

Heating stoves are very neces-  
sary articles for the winter and  
here we have a variety of them  
in all sizes. Oil stoves, too, that  
are even handier still. Get your  
winter Hardware now before  
you actually need it. All kinds  
of Hardware in the best qualities  
at lowest prices.

**CLARKE & JOHNSTON.**

Hardware - Connell Street - Woodstock

**Coal Destroyed By Fire In**  
**Boston**

Boston, Mass., Sept. 14.—Thousands  
of tons of coal went up in smoke when  
the coal wharves and pockets of the  
Batchelder Bros., and the F. C. Warren  
Coal companies in South Boston were  
destroyed by fire late on Wednesday.  
The high northerly wind carried the  
flames in the direction of many large  
manufacturing plants and then went to  
the buildings. But the fire was confin-  
ed to the coal structures, which held  
70,000 tons of hard and soft coal. The  
total loss is estimated at \$75,000. The  
fire is believed to have been caused by  
a defective motor. The five masted  
schooner Margaret Haskell, which was  
tied up at the Warren wharf, was tow-  
ed to a safe place in Fort Point channel  
undamaged.

**Frost Damages Tobacco Crop**

SUFFIELD, Conn., Sept. 14.—Under  
the heaviest frost which has visited  
Suffield for twenty-five years at t

time of the year, about 800 acres of  
standing tobacco were completely ruin-  
ed last night. Reports from growers  
received this morning placing the ag-  
gregate loss at between \$200,000 and  
\$250,000 with a possibility that it may  
exceed the latter figure. Twenty-five  
years ago a heavy frost ruined tobacco  
then in the fields, and it had to be  
ploughed under. It is probable the  
acreage blighted last night will have to  
be turned back into the ground.

Earlier in the season about 500 acres  
of tobacco were ruined by hail.

**Toronto's Milk Supply In**  
**Bad Condition**

TORONTO, Sept. 14.—The inspection  
of Toronto's milk supply by the Med-  
ical Health Depot has shown some very  
shocking conditions. In forty-two cases  
milk cans were found being returned in  
a dirty condition. Water from these  
cans showed fermentation, and gave a  
bacterial count on a jar as high as 33,-  
000,000. In 57 cases milk was found  
containing dirty substances.
