No Troops When The Governor-General Makes Visit To Toronto

No Proper Uniforms, is the Reason Given and Arms and Accoutrements Have Been Turned in for Inspection

Toronto, Nov. 10—Toronto will be obliged to welcome the Duke and Duchess Connaught without the aid of the militia. This became known yesterday when the reception plans were being discussed by the civic legislation and reception committee.

It had been proposed to have the military line both sides of Yonge street from North Toronto station to the city hall,

in honor of the coming of the commander in chief, but the military authorities decline to call out the men because they have not proper clothes to wear. Their arms and accoutrements have been turned in for inspection.

Mayor Geary vetoed a suggestion that outside regiments be called in.

Town Council Says All Taxes Must Be Paid

The regular monthly meeting of the Town Council was held in the Council Chamber, Monday evening, the full board being present. His Worship Mayor Ketchum in the chair.

The minutes of former meetings were read and approved.

The report of the Town Treasurer showed an overdraft at the bank of \$572.81.

Coun. Dibblee spoke regarding the condition of the town finances. He pointed out that there was yet to be collected about \$13,000 of 1911 taxes. He thought the Council should take some action at once if they did not want to find themselves in bad financial shape at the end of the year. If a business man had outstanding accounts as large as that, he would certainly make a strong effort to collect it, and he considered it the duty of the council to get this money in the treasury. He did not see any reason why this money could not be collected, and if it were not collected the ratepayers would certainly have just cause for grievance against the council board.

Coun. Jones said that in his opinion it was up to the council as a body to look after tax collections, and not leave it entirely to the finance committee. He asked Chief Kelly if he thought it would be possible to get an officer to serve executions according to the terms therein.

Chief Kelly said he did not think he could get a man, but he would do the work himself if the council gave him authority. He would get the money or put delinquents in jail if the council agreed to that.

Coun Jones moved that the executions be issued against delinquent ratepayers (1910-1911) and that the Town Marshall execute same regardless of whom the parties may be. The Marshall was to take no instruction from any Councillor but serve execution according to the terms therein. Motion seconded by Coun Bailey and carried.

Coun. Mair said that Engineer Wort had complained to him about the council stopping his salary while on his vacation.

Wort said he could not afford to take holidays unless he was allowed his salary. Last winter about \$65.00 has been deducted from the engineer's pay on account of an accident at the pumping station and in view of all this Coun Mair moved that the amount of his salary while on his vacation be paid to him.

This brought on quite a lengthy discussion in which all the councillors took part, and after hearing the different views, Coun Mair withdrew his previous motion, and moved that the engineer be refunded \$18.00 which was part of the money he had paid the town on account of the accident last winter. The motion was carried.

Coun. Gallagher reported that he had interviewed Mrs. Jamieson in regard to some land on which to pile stone for the crusher.

Coun. Dibblee moved, seconded by Coun. Jones, that Town Clerk be authorized to make contract with Mrs. Jamieson for the leasing of her land on Main street on the south side of the bridge. Carried.

Coun. Gallagher said that some of those interested in the Base Ball Minstrels had asked for the use of the town hall for rehearsals, and he moved that permission be granted. Carried.

Estabrooks, teacher of 7 and 8 grades had his school. Hamilton Bros. loss was about \$500, insured for \$500 in the British American. Pickle & Davidson's loss about \$700, insured for \$1,000 in Phoenix of London.

Death Of Widow Of Founder Of Glassville

Isabella Borland Glass died at her home in Montreal on Saturday Nov 4th from the infirmities of old age, having reached the advanced age of 89 years. The deceased was the widow of the late Rev. Charles Gordon Glass, formerly of the Presbyterian church at Prince William.

Born at Paisley, Scotland in 1822 Mrs. Glass was the daughter of the late James Mitchell of "Willowbank," Falkirk, Sterlingshire. She was married there and shortly afterwards accompanied her husband to Canada, settling in New Brunswick. Mr. and Mrs. Glass were instrumental in establishing several Presbyterian congregations throughout this portion of the province and Mr. Glass was the first Presbyterian minister at Prince William.

Afterwards they moved to Woodstock where Mr. Glass built the college building and taught there for some years assisted by his son C. G. Glass and one of his daughters. During the course of their work they formed the settlement at Glassville, Carleton county, Mr. Glass himself going to the old country in order to bring out the settlers. About 1876 Mr. and Mrs. Glass removed to Montreal, but her husband predeceasing her about 25 years ago Mrs. Glass has lived there ever since. The deceased lady leaves two sons, Charles Gordon and Louis Gordon Glass, both of Montreal, and three daughters, Mrs. J. N. Green-shields, Mrs. William Reid and Miss May Glass, all of Montreal, also six grand children and three great grand children. After the Free School Act came into force the town bought the college building and it has been used as a school building ever since until it was removed last summer to make room for the new Fisher Memorial school.

Life Member.

The annual Thank offering service of the Woman's Home and Foreign Missionary Society was held in St. Paul's church on Tuesday evening, Nov. 7th. After the service in the church, the Rev. Frank Baird and the members of the Society called on Mrs. Lucy A. Phillips, and presented her with a certificate of life membership. The presentation was made by Mr. Baird, who spoke of the interest Mrs. Phillips had always taken in Missions, both in this country and England, especially the Deep Sea Fishermen and the mission work in Labrador. In replying Mrs. Phillips said that from a child she had been much interested in missions and spoke of meeting with different missionaries, among them being Dr. Moffatt.

The presentation of the certificate to Mrs. Phillips is looked upon by the ladies of the local society as a fitting recognition of the services of one of their most highly regarded members, whose good works, they feel will long be told of as a memorial of her.
