Hon. Isaac Stephenson, of Marinette, Wisconsin, arrived in the city by steamer on Thursday evening from St. John, accompanied by his brother, Mr W. H. Stephenson, and Miss Bertha Baker, and Mrs. Joshua Hodgins, also of Marinette.

Hon. Mr. Stephenson is Marinette's first citizen, being a multilingualist and a politician. He was for years a state Senator in Wisconsin before entering national politics.

Hon. Mr. Stephenson is now enjoying a two weeks' vacation, visiting the scenes of his boyhood days. He was born on what is known as the Murray farm at Springhill, and this morning, with his party, he drove up to Springhill to take a look at his native home. From here he is going to Woodstock, and it is likely that the party will also visit Aroostook county, where Mr. W. H. Stephenson was born and lived until he was nine years old.—Gleaner

## Vatican's Narrow Escape From Cholera

Rome, Sept. 15—It is believed that the Vatican and the surrounding neighborhood has had a narrow escape from cholera infection. The mayor of a small village on Lake Braccino, seven miles from Rome, last night, telephoned to the director of the health office here to send doctors immediately to examine a woman who was suspected of having contracted cholera. When the doctors arrived they found the woman dead, and were able to diagnose the case as one of cholera. They discovered that her contaminated clothing had been thrown into a stream near by, and they learned that the stream was a tributary of the Little River, which supplies the Vatican with water for working purposes and kitchen use. All the district around the Vatican is supplied with the same water for industrial purposes.

A hasty message was sent to Rome, and workmen were dispatched to break the water pipes, which they succeeded in doing before daybreak. The Pope and Mgr. Bisletti, the papal Major Domo were surprised at the sudden cutting off of the electric light through the lack of water. It was only discovered later by the Vatican officials that radical measures had to be taken to prevent the spread of the disease.

## Death After A Scratch

Morris Quatzam, an eleven-year-old Windsor boy, fell off his bicycle and scratched his wrist. He thought nothing of the injury, but blood poison set in and he is dead.

Such incidents as these—no means infrequent—ought to make people realize the danger that may lie even in the smallest flesh wound.

Take a simple illustration. When a knife, a rusty needle, a splinter of dirty wood, a barbed wire fence, or a thorn, scratches the hand, the latter is inoculated with germs of which the air about us is full.

The way to avoid serious results is to cleanse the wound and apply Zam-Buk. Zam-Buk is a powerful, yet painless germ killer, and when applied to the broken skin is absorbed into the tissue, instantly destroying the germs that spread disease and stopping the pain and smarting. That is why Zam-Buk is so popular with children.

The flesh thus soothed and purified, the wound is made perfectly healthy, and all poison and cause of festering removed. Having done this, Zam-Buk then proceeds to heal the wound or sore, and new healthy tissue is built up in a quick, painless and perfect manner.

Zam-Buk must not be confused with ordinary ointments. Zam-Buk is a unique preparation, possessing anti-septic, soothing and healing qualities that are not to be found together in any other preparation. It is not only a unique healing balm, but it is also a skin food. For all skin diseases and injuries—cuts, bruises, burns, eczema, chafing, ulcers, ringworm, etc., it is without equal. It is also used widely for piles, for which it may be regarded as a specific. All druggist and stores sell at 50 cents a box, or post free from Zam-Buk Co., Toronto, for price. Refuse harmful imitations.

## Wouldn't Salute The American Flag

NEW YORK, Sept. 14.—The public school authorities of New Jersey were called upon yesterday for the first time in the history of the state, to deal with the situation arising from the refusal of Catherine Audsley, a 14 year old girl, of Perth Amboy, N. J., to salute the American flag or take the oath of allegiance during the exercises in her school. The state school laws compel the salutation of the flag and the renewal of the oath of allegiance to it every morning.
