### WHEN SUMMER COMES GUARD YOUR BABY

The summer months are the most dangerous of the year for the little one. The complaints of this season come so quickly that often a precious little life is beyond all before the mother realizes baby is ill. Colic, diarrhoea and cholera infantum are all rife at this time. The mother must guard her baby's health every minute. She must be careful of his food and careful that his stomach is kept sweet and his bowels move regularly and freely. To do this nothing can equal Baby's Own Tablets—they are mother's best friend at all times of the year, but more especially in the summer, when, if given occasionally, they act as a preventive of those dreaded summer troubles, or if they do come on suddenly the Tablets will just as quickly remove the cause and baby will soon be well again. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### A MILLION FOR MISSIONS

New York, July 22—A million dollar gift to the endowment fund of the American board of commissioners for foreign missions which has headquarters in Boston, is announced here by the secretary of the New York branch. The source of the gift is not named.

The gift is toward a \$2,000,000 endowment which the missionary board has been trying to raise for several years.

### CANADIAN COINS WITH KING'S EFFIGY ON THEM SOON

Ottawa, July 23—The mint has received dies for new silver coins and within a few days the effigy of King George will appear on the dominion silver tokens.

Canada has secured new and splendidly situated offices in Paris. They are located on the Place de l'Opera, which is known as the centre of the world. Up to the present time the Paris office of Canada has been on the Rue de Rivoli in a rather out of the way situation and the need for better

located offices has been generally recognized. During his recent visit to Paris Finance Minister Fieding took the matter up with the new Canadian commissioner, Mr Roy, and offices were secured in the splendid Equitable building which has recently been completed, facing the Place de l'Opera, with the Rue de la Paix on one side and the Rue des Capuchins on the other.

The Canadian offices, which will be handsomely appointed, are on the Rue des Capuchins side of the building, directly across the street from the Grand Hotel. The change will allow the Canadian commercial commission office and the general Paris office of Canada to be combined. Heretofore they have been in different parts of the city.

### COUNTY COUNCIL

County Council met at the Court House on Friday, the 21st inst, at 1 P.M. in special session, Warden Stevens presiding. The following councillors present:—  
Aberdeen—Lamont, Hemphill.  
Brighton—Britton, Morgan.  
Kent—Kinney, Keenan.  
Northampton—Gibson.  
Peel—Melville.  
Richmond—Alex Bell.  
Stmonds—O Shaw.  
Wakefield—Shaw, Bell.  
Wilmot—Williams, King.  
Woodstock—Smith, Scott.  
Woodstock Town—Balmaln, Brown and Stevens.

The warden read the following requisition calling the meeting upon which the notice to councillors was given which follows:—

To Howard D Stevens, Esq, warden of the Municipality of Carleton:

We, the undersigned, members of the County Council of the Municipality of Carleton hereby make application to you, as warden of the said municipality to call a special meeting of the said Council under the provisions of section 54 of chapter 165 of the consolidated statutes of New Brunswick, A. D. 1903, for the following object, namely—

To make provision for the necessary expenses of enforcing the Canada Temperance Act during the present year.

Dated this 26th day of June, A. D. 1911.  
Wm Balmaln,  
F R Shaw,  
John N Perry,  
Carey R. Estey.

To—County Councillor for the Parish of— in the County of Carleton:

Notice is hereby given that a special meeting of the County Council of the Municipality of Carleton will be held at the County Court House, in the Town of Woodstock, in the said County of Carleton, on Friday, the 21st day of July next at one of the clock in the afternoon. The object for which this special meeting is called is to make provision for the necessary expenses of enforcing the Canada Temperance Act during the present year.

Dated this thirtieth day of June, A. D. 1911.

H D Stevens,  
Warden of the Municipality of Carleton.

The warden stated that the matter of overlooking the business at the June session for which this council was called, had been laid to his door; he was willing to take any just responsibility, but it was not his fault that the question of dealing with Scott Act expenses was not dealt with then. He recalled the last moments of the June session, when Conn Perry asked if any money was to be granted to Mr Colpits. He, the warden, asked if he had any resolution to propose and he said no. Afterwards there was a motion to adjourn. This was how it came about that nothing further was done.

Upon motion of Conn Lamont, seconded by Conn Shaw, Mr Colpits was heard in the matter.

The Inspector said he need not have been pressed for money, if he had accepted certain offers which were made to him which he did not think of accepting, and which he did not think the council would wish him to accept.

Mary Gee who was out of the country wrote to him offering to compromise for \$300 if she might come back. He did not answer the letter. Lorenzo Radcliffe wrote to him wishing to compromise. That letter was not replied to. Jake Wise asked him to give him a chance on the line again and he would pay. I replied to him, "if you want to keep out of trouble you keep off the line."

We have made an arrangement with the American officers whereby it will be easier to apprehend offenders. I have expended about \$263 of my own money up till the meeting in June. Since that time we had a number of cases, 17 or 18, and when they are closed up there will be no further expenses. I believe what will come in will pay all bills in connection with the prosecutions and that there will be a little to the good. I think some little provision should be made in the meantime, and if it were not necessary I would not draw it.

Conn Shaw—Do you say \$263 would square you to the present time?

Inspector—It will square what we have paid out to the present time.

Conn Williams—How much are your expenses at the present time?

Inspector—\$620 was the deficit on all accounts in June last, and nothing has been added since. This sum would include magistrates and lawyer's bills and my own salary.

Conn Williams—What has become of the Perkins case?

Inspector—They are still on.

Conn Melville—Do you take a bill of sale as security in a case?

Yes—It was not registered.

Conn Melville—The horse has been sold.

Conn Williams asked why the Inspector had not asked for the amount \$263 at the June session.

The Inspector said he thought he had asked for it.

Conn Lamont—Is the \$263 included in the \$620.

Inspector—Yes, I think so.

Conn Bell—It would be well to know.

Conn Britton—Who do you owe on account of the \$620?

Inspector—The deficit of the Police Magistrate and Mr Jones' bills.

Sec Treas—He has paid out \$263 more than he has received but the actual deficit is \$620.

Conn Scott—Have you enough fines to pay the \$263?

Inspector—I don't know; the fines we hope to collect should pay the bills since June session to present time.

Conn Britton—The Council is called to pay this \$263.

Conn Shaw moved that this Council pay the Inspector \$263, due him to June session.

Conn Scott seconded motion which carried.

### FEDERAL FRUIT COMMISSION VISITS WOODSTOCK

On last Thursday, 20th inst, Mr W H Bunting, a prominent fruit grower of St Catherine, Ont., accompanied by his secretary, spent the day visiting the orchards in vicinity of Woodstock, with Mr Adney secretary of the Carleton Co Fruit Growers Association, and making inquiries into the state of orcharding in this section. Mr Bunting has been appointed by the Federal Government commissioner to make a report on fruit growing throughout the Dominion, under direction of the Fruits Division of the Dairy and Cold Storage Department, Ottawa and the results are expected to be of great importance. The first session was held at St Stephen, the next one here, the commission taking the evening train for Fredericton, whence he proceed to Nova Scotia. Mr Bunting who is personally acquainted with fruit growing in all parts from Florida to California, expressed his astonishment at the heavy crops on the New Brunswick and Crimson beauties, saying that varieties in Ontario do not bear such heavy crops. He was taken to the old orchards that now owned by Wm Mc Cluskey, which is the oldest strictly commercial orchard in New Brunswick, planted about 1860 and still producing upwards of 150 barrels per acre; the Fisher orchards, Soddard Orchard, and Mr Dugan's and Mr Chute's tracts, all that his limited time allowed him to visit but which were sufficient for him to form opinions of our natural adaptability for orcharding that as far as we are able to express them much more favorable than even we are at liberty to express them much more favorable than even we ourselves have supposed. He could not understand why new orchards were not being established with such evidences of productiveness and profitability before us. Although District No 5, comprising New Brunswick and Northeastern Quebec, does not produce the total quantity of apples that the other districts, like Annapolis Valley, do, yet the Fruits Division at Ottawa has awakened to the importance of Carleton County as the chief apple producing section of New Brunswick, and this year began to send here for

monthly fruit reports for its monthly bulletins on the fruit crop of Canada. With a little encouragement, a little understanding of the very superior character of our soil and climate for the growing of fine fruits, of what varieties to grow, and what methods to pursue (as well as to avoid) and bringing the quality of the pack to a more uniform and higher standard, we may not only make our old orchards more profitable but our new ones may duplicate the records of these older orchards above referred to. But if we would attain commercial success we do as other countries do, regard the orchard as a crop in itself, the most profitable that may be grown on our farms, and that as nature has so arranged the thing that we can work only one side of our farms, we cannot work both sides and cannot expect to get two full crops, at the same time, from the same piece of land. It has been approved conclusively, here and elsewhere, that we can not get a full crop of hay and a full crop of apples from the same piece of ground and unless we get full crops of apples the orchard will never be a commercial success. And there will be no real money made from orcharding unless we stop thinking how much fruit may be produced from each individual tree, ten, twenty or forty years hence; but how much may be produced from an acre of ground from the fifth to the twentieth year of its age.

### REVISED VERSION

Mr Taft, said a Republican statesman, is for his weight exceedingly nimble, I remember once, in Cincinnati, running for a train with him. He ran well, but of course, I with my slender and athletic build, beat him easily. I had to wait on every corner, and in consequence we missed the train. Mr Taft said with a apologetic laugh, as we turned away from the closed train gate. It was my fault we missed her. More wait you know less speed.
