ROCITY

Washington, July 22—The passing of the Canadian reciprocity bill by the senate today, in precisely the form it emerged from the house, brings to end President Taft's long fight for the measure, but during the debate which led up to today's final action party lines were swept away and a vigorous fight was waged to saddle the measure with riders that friends of the measure claimed would have meant the defeat of the whole proposition.

The bill under the unanimous voting agreement, offered between the differing wings of both parties was taken up however without further debate in the senate immediately upon the conclusion of the routine morning business. No one had figured out in advance just when the final vote would be reached but it was expected during the late afternoon hours.

Following the passage of the bill by the senate and its immediate signature by Vice President Sherman the measure must be 'messed back to the house who originated it engrossed on parchment signed by Speaker Clark and then signed by President Taft.

The bill probably will not go to the president until his return from Beverly (Mass.) next week.

The senate took up the Canadian reciprocity bill as soon as a quorum was obtained at 10.15, the call showing 78 senators present.

The amendment of Senator McCumber, of North Dakota reducing duties on many necessities of life and increasing the free list was first taken up and defeated.

Beverly, Mass., July 23—In the first statement he has made since the passage of the reciprocity bill by the senate, President Taft at the summer White House tonight, freely acknowledged that his long, hard campaign in behalf of that measure would have proved unavailing if the Democrats had not helped him. Without such aid, the president declared, reciprocity would have been 'impossible.'

In his own judgment, the president declared, the agreement would mark an epoch in the relations between the United States and Canada, and those who opposed the bill in congress would find their prophecies disproved and their fear allayed by its actual operation. Its passage by the Canadian parliament, the last step before it becomes a bond between the two countries, he hoped and believed would be forth coming.

The statement reads as follows:  
"That I am very much pleased with the passage of the Canadian reciprocity bill through both houses of congress goes without saying. I believe and hope it will be followed by similar action by the dominion parliament. In my judgment the going into effect of the agreement will mark a new epoch in the relations between the United States and Canada, and it will tend to a marked increase in the trade between the two countries, which will be in every way beneficial to both."

On Wednesday the 12th inst while many were en route to Centreville to take in the Celebration there, the remains of one of our brightest girls, Miss Ad. Jean Sample, were laid to rest at East Florenceville in the family plot. Miss Sample, after but a brief week's illness of appendicitis passed away in the hospital at Hamilton.

She had been a successful student at Business College in that town, and had just nicely entered upon her new engagement, in a printing establishment, when suddenly her call came. When she visited her home a short time ago she was the picture of health. Fourteen of her former girl companions who contributed a beautiful wreath, followed the casket to the grave. They were dressed in white. The services at the house and grave were conducted by Rev E.C. Turner, assisted by Revs M.H. Manuel and D. Fike. In the Post Office where she was so courteous and so capable a public servant, in the Sunday School, where, as organist or substitute teacher, or Secretary Pro tem, or member of the Bible Class she was so bright, cheery and energetic, she is much missed. She was noted for her mental and business initiative vigour and decision, which fitted her for leadership among the young. Her memory is a stimulant to willing and cheery service. Her early passing at the age of 22 is an incentive to work while it is day not knowing how soon for any of us the evening of the day may surprise us.
