### A Gift With a Thought

What other Christmas present costs so little and means so much as a subscription to the Youth's Companion—52 weeks to any Canadian subscriber for \$2.00? It is a gift which benefits not only the one who receives it, but every member of the same household.

With many Christmas presents the sense of novelty wears off by the week's end, but The Youth's Companion is as new and sought after the fifty-second week of the year as the first. It is elastic in its adaptability, too; for it does not matter whether the present is for a boy or a girl, young married people, sedate couples, grandparents—there never was one yet who did not set store by The Youth's Companion. You cannot make a mistake if you give The Companion—and it is only \$2.00 a year now to Canadian subscribers. On January 1, 1912, the price will be advanced to \$2.25.

The one to whom you give the subscription will receive free The Companion's Calendar for 1912, lithographed in ten colors and gold, and you, too, as giver of the subscription, will receive a copy of the Calendar.

THE YOUTH'S COMPANION,  
144 Berkeley St., Boston, Mass.  
New Subscriptions Received at this Office.

### "Daddy's Girl."

Are you one of the hundreds who have written to The Globe for a copy of "Daddy's Girl"? This is probably, without a single exception, the most popular picture ever published in Canada.

A few years ago The Christmas Globe published a limited number of them. The demand was so great that every copy was ordered before it was put on the market.

A sample copy of this picture, which is from a photograph of a child with the sweetest and most expressive face that can be imagined, may be seen at this office.

To see it is to want it.

This beautiful picture will be given free with each new subscription or renewal sent in for the Weekly Globe and Canada Farmer before December 31st., 1911.

Remember the edition of this picture is limited, and the first come the first served.

The Weekly Globe and Canada Farmer has been enlarged, the staff of writers increased, and many new features have been added. Those improvements are in keeping with the progressive management that has made The Daily Globe one of the first half-dozen newspapers on the continent. The Weekly Globe and Canada Farmer, with its Illustrated Magazine Section, has always held a foremost place among the Metropolitan weeklies in Canada. It will now be classed with the best on the continent. When the Illustrated Magazine Section, with its forty or fifty pictures of current events every week, is taken into account, it is certainly a lot of reading to be given for only one dollar per year.

### Mrs. Sproule's Stand

OTTAWA, Nov. 29.—Mrs. Sproule, wife of the Hon. Dr. Sproule, Speaker of the House of Commons, has given orders that no wines or intoxicating liquors will be used at dinners or other social functions in the Speaker's chambers during her reign as mistress of the official residence. Mrs. Sproule has been a life-long and ardent advocate of temperance reform, and has been of great assistance to her husband, who holds strongly the same views.

It is generally admitted that the standard of public life in this respect has been greatly raised through the example of the present Premier, the Hon. R. L. Borden, and the late Premier, Sir Wilfrid Laurier, both of whom are teetotalers, and have been vigorous in condemnation of intemperance.

(Chatham World.)

The river was half covered with ice Monday morning, much of it, thanks to the snowfall of Saturday, being three or four inches thick, and neither the Alexandra or Miramichi left the wharf. Several fishermen had nets set, but Officer Abbott compelled the owners to take them in. The Alexandra went down river on Tuesday and got back safely. She encountered considerable ice. The Miramichi started at 9 o'clock for Newcastle, but encountered heavy field ice at Douglstown and returned. The ice is still there, and neither boat is running to-day. The ferry is still on her route, making regular trips.

### Mr. Almond I. Teed St. Stephan, Dead.

Almon I. Teed, one of the best known business men in New Brunswick, and one of the leading residents of Charlotte county passed away at his home in St. Stephen on Saturday morning after a long illness.

For the past two years Mr. Teed had been suffering from cancer and for the last twelve months of that time he had been confined to his house. His death, therefore, will not come as a surprise to his many friends, but it will be a great shock nevertheless, as he was highly esteemed wherever he was known. As town councillor and mayor he was prominently connected with town affairs for many years, retiring from the council in 1909 to become chairman of the water board. He held the latter position until this year, when failing health obliged him to resign. He came to St. Stephen in 1887 as a member of the firm of C. D. Hill & Company, wholesale grocers. Later the business came into his hands and the A. I. Teed Company was formed in 1896, doing an extensive business in Charlotte County and on the upper St. John. He was a member of the commission which investigated the affairs of the Central Railway and in that office he brought to bear his long business experience and mature judgment.

Mr. Teed was 67 years of age. He leaves a widow and two sons and two daughters: Mr. E. R. Teed, of Woodstock; Mr. G. H. Teed, now in Australia; Mrs. George Wilson and Mrs. Walter Tovel. The funeral took place on Monday afternoon with Masonic honors.

### To Make Ottawa a Federal District

Ottawa, Nov. 30.—The Dominion Conservation Commission has issued the first of a series of articles on the federal district as exemplified in the District of Columbia, as throwing light on the proposal to establish Ottawa as a federal district.

The article reads as follows:

"In the conviction that much the best solution of Ottawa's difficulties is its segregation as a federal district, it is proposed to publish weekly short articles respecting the operation of this system as exemplified in the national capital of the United States—Washington, D. C. Also, subsequently, to compare the conditions that obtain in Ottawa with those that obtain in Washington, to endeavor to ascertain how far the Washington system is applicable to Ottawa."

This, the initial article, contains a short historical sketch of the circumstances that led up to the segregation of an area officially known as the District of Columbia, but better known as the city of Washington.
