A FEW WORDS WITH OUR READERS

It has never been the policy of "The Dispatch" to boast and we are not going to begin now but as our interests and those of our subscribers are identical, we feel that we should tell them what we are doing and what we intend to do.

First, we have bought new type to print the paper with, this will give a clear print that will be easy to read and also improve the appearance of the paper.

Then we have made arrangements to give our readers an interesting course of readings each week on "Sermons from Shakespeare."

We will start in a few weeks a serial story, "The Backwoodsman," this is an interesting story written by Acton Seymour, and, as its name implies, is laid in the lumber sections of the North. This one story is well worth the price of a year's subscription to "The Dispatch".

Each week we will print a short sketch of the leading men and women of Canada.

A space will be devoted to the household, giving many useful hints on beautifying the home, home cooking, etc.

Farm topics will receive a prominent place and we intend to show the young men of to-day that they have a better chance to make a home and gain a competence for old age, right here in Carleton County, than in any other spot on earth.

Now to do all this takes money, even here in Carleton County, and to get that money we are going to ask the boys and girls to help us. We intend to add two thousand new subscribers, to our already large list, in the next few weeks. This may seem a large undertaking to you, but when you stop and think that The Dispatch already goes to Alaska, India, Japan, Cuba, South America, and nearly every State in the Union, you will see we have a large field to work in and a few new names sent in by each boy and girl that reads The Dispatch would soon go far beyond the two thousand we ask for.

This week we are going to start with the boys. The hunting season will soon be here and every boy likes to hunt, and we never saw a real live boy that did not want to own a rifle, so we have made arrangements with a large gun dealer to furnish us with the best boys' rifle made, the Stevens-Maynard Jr., and we are going to give every boy that brings or sends us six yearly subscribers to The Dispatch, one of these rifles absolutely free. These must be new subscribers, not those who already take The Dispatch.

Any boy who wants a rifle has only to call or write to this office and we will furnish him with Sample Copies and Blanks on which to get new subscriptions, then call on your friends, show them what an interesting paper "The Dispatch" is, get them to subscribe for one year, and

soon as you get six the rifle is yours. It is just the gun to shoot partridge, rabbits, woodchucks and all small game.

Next week we will have something to offer the girls.

Mail To Be Forwarded By Fast Freight

WASHINGTON, Aug. 23.—Arrangements have been perfected by the Post Office Department whereby second class mail matter, consisting of magazines and periodicals, heretofore transported in railway mail cars, will be carried by fast freight beginning September 1. The order was issued to-day.

With the idea of reducing the expense of transporting this, the greater part of second class mail matter, Postmaster-General Hitchcock has taken advantage of an old statute permitting the department to send mail by freight. The publishers are to be permitted to print on the wrapper of each copy or bundle of their periodicals, as a part of the address, instructions as to the date on which delivery is to be made. In accordance with this arrangement postmasters have been directed to carry out the instructions with respect to the delivery of fast freight mail.

Publishers have assured the Postmaster-General that they generally will be satisfied with the arrangement, and assurances also have been received from the railways that the mail can be delivered promptly. The expense of transporting and delivering will be far less than at the present.

Live pure, speak truth, right wrong. Follow the King.—Tennyson.

Herbert Clark who was employed on the farm of Geo. E. Hiscock, Foxcroft road, while returning from the B. & A. station on Wednesday evening of last week, in company with Mr. Hiscock, while in front of McCluskey's livery stable suddenly fell from the team which he was driving and died instantly. Coroner Frank Dunn was called but considered an inquest unnecessary. Death was due to a hemorrhage of the brain. The deceased is survived by a wife. The body was taken to Easton for interment.

Bomb Thrown In Kings County

Havelock, Kings Co., Aug. 25—A dastardly outrage was perpetrated here shortly after midnight last night when a piece of iron pipe about two feet long, loaded with powder and attached to a lighted fuse was thrown through the window of the house occupied by Frank Alward. The powder exploded destroying a piano in the room and doing other damage, the iron pipe being driven into the partition of laths and plaster. Fortunately nobody was in the room at the time of the explosion.

A daughter of Mr. Alward had been in the habit of sleeping on the veranda but on account of the rain she had retired that evening in a room on the opposite side of the house. If she had been sleeping on the veranda as usual it is probable that the explosion would have caused her death.

The outrage has caused a great deal of excitement here.

Detective Robert Crawford of St. John was called here and has been searching for a clue to the perpetrators of the cowardly deed. No arrests have been made as yet but five men are said to be under suspicion and sensational development are expected in a few days.

What Is The Cost.

The answer to this question is that the cost of a Canadian Government Annuity depends upon four things: 1st, the age of the applicant; 2nd, the amount of Annuity required; 3rd, the age at which the Annuity is to commence; and, 4th, the plan on which the purchase is made.

Tables which answer these questions have been published by the Department and may be had on application. Annuities are payable for life, but for a small additional payment may be guaranteed for a number of years certain, not exceeding twenty, so that should death occur before the guaranteed period expires the Annuity would be continued for the remainder of the twenty years to the Annuitant's legal representatives. By the latter plan the return of a specific sum is assured. Any other details of this important Annuity plan may be had on application to the Superintendent of Canadian Government Annuities, Ottawa. Postage free.

Miss Annie Allen, of St. John, who has been visiting Miss A. G. Connell, returned home on Saturday.

Eczema Is Cured By Impure Blood

Cured By Dr. Williams' Pink Pills Because They Make Pure Blood

Ask any doctor and he will tell you that eczema is caused by impurities in the blood; that nothing can cure it that does not reach the blood—that salves and outward applications are worthless and a waste of money. The reason why Dr. Williams' Pink Pills have always been so successful in curing this most annoying trouble is because they act directly on the blood, reaching the root of the trouble and driving out all impurities. They banish eczema, salt rheum, and unsightly pimples and eruptions, relieve the irritation and itching and give perfect health. Mrs. A. Puling of Milestone, Sask., says: "I was afflicted with a blood and skin disease which the doctor called eczema, but which did not yield in the least to his treatment. I was covered with sores and in very bad shape. A friend advised me to take Dr. Williams' Pink Pills and after using eight or nine boxes I was completely cured. I can strongly recommend the Pills to anyone suffering from that trouble."

A medicine that can make new, red blood will cure not only skin troubles, but also anaemia, rheumatism, neuralgia, indigestion and a host of other troubles simply because these troubles are the result of bad blood. Dr. Williams' Pink Pills make new blood and under their use blood and nerve troubles disappear. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.
