The man who puts up your medicine is the man who guards your health.

The result of medical treatment depends largely upon the quality of the medicaments, and the manner in which they are prepared. It is the man who puts up your medicine that guards your health. On his knowledge of drugs, his care in the selection of them, and his skill in compounding, your health depends.

Bring every prescription direct to us and be safe in that it will be compounded with the right ingredients and as the doctor wishes. The results that follow its use are those to be expected by the doctor.

Mr. E. W. Higgins the band master, received Saturday the band instruments, which passed through the railroad disaster. Nothing could afford more impressive evidence than these instruments of the terrific nature of the wreck heaped in a pile they have as a whole the appearance of a mass of scraps. None of them came out intact, though some of course fared worse than others. For instance the base drum escaped with merely a puncture of one of the heads, while, on the other hand, the bass horn, which was played by Harry Clark, was flattened as completely as if it had been pounded with an axe. Next to this the horn played by Dr. Lowrey suffered most being bent and broken out of all resemblance to its original shape.
