Germany and France Settle  
Disputed Points

**Paris Talks Conference**

London, Aug. 4.—The Standard claims to have good authority for the statement that all danger of a war over Morocco has vanished. The disputed points between Germany and France, the news paper says, have been settled in principle but the details still remain to be negotiated. France will concede to Germany territory in the French Congo in return for a free hand in Morocco and thus there is no fear of Germany permanently occupying forts in Morocco.

Some time will be consumed disposing of these details. The nature of the settlement could not be learned except that it involves a considerable trading of colonial possessions and so transfers the centre of interest from the foreign to the colonial office. It is understood that Russia played the part of the mutual friend and interposed in London and Paris, to take the rough edges off the English attitude. The challenging tone of which for a time was more threatening to peace than the actual subject of the negotiations.

Paris, Aug 4.—With a significant unanimity, the French press favors the idea of submitting the Moroccan question to another European conference. As Germany is believed to be adverse to again appealing to the powers, this sudden chorus seems to indicate that word has been given to demand that the present negotiations be broken off and a conference summoned in the hope of bringing pressure to bear on Germany in order to make her come to terms. At the same time no doubt is expressed as regards a peaceable settlement of the crisis. It is generally believed here that any danger of war that may have existed has been removed by England's attitude.

London, Aug 4.—According to the government organs, the cabinet has finally decided to send the Veto Bill to the House of Lords without creating any new peers, trusting that the Liberal peers will be able to outvote the followers of Lord Halsbury, who are against the measure. The newspapers say there is some risk in this, as the government majority will probably be under ten, but if the bill is defeated by the Lords Premier Asquith intends to proceed immediately to the creation of five hundred new peers.

The port of London authorities have decided to commence the construction of a new deep water dock on the Thames early in 1912. Its cost is estimated at \$10,750,000 and the work will occupy a period of five years.

An arbitrator has been appointed in the dock workers strike and there are strong hopes that the troubles with the workers and employers will be settled.

**CANNED STRING BEANS**

Cook the beans in salted water until they are tender. Then pack closely in glass cans. Boil the salted water in which they were cooked and fill the jars to the top covering the beans well. Pour in at the last a tablespoonful of boiling vinegar on the top of each jarful; seal at once and keep in a cool, dark place.

**KEEPING YOUNG**

Oatmeal is Said to Ward Off Age—  
Often 20 Years

Two noted scientists, by experiments on animals, have proved that youthfulness depends on the thyroid gland. And that something in oats seems to feed that gland.

It appears that old age can be deferred many years by caring for this gland. The main care is to feed it, and the proper food is oats.

Oats contain more energy food, more food for the brain, more food for the nerves, than any other grain that grows. And now it seems that they also serve to keep one young.

But common oatmeal isn't good enough for such an important diet. The rich, plump grains alone are used in the making of Quaker Oats. They are selected by 62 siftings, and only ten pounds are obtained from a bushel.

Quaker Oats means just the cream of the oats made delicious. It costs but one-half cent per dish.

Made in Canada.

**CLOUDBURST DOES  
DAMAGE IN KANSAS**

Six Inches of Rain Fell in One  
Town in Two Hours

Smith Centre, Kas., Aug 4—Northwest Kansas was flooded by a cloudburst yesterday and all streams are out of the streams. Six inches of rain fell here in two hours. Swollen streams carried out bridges and culverts worth \$100,000. The Rock Island Railway lost thirty bridges and culverts in 45 miles.

Harlan fifteen miles south of here was struck by a tornado and several houses were blown down. A flour mill was blown and its wreckage was swept away by the swollen river which is several miles wide at that place.

Much live stock was killed, but no persons were seriously hurt.

**Due To Careless Smoker.**

Victoria County News: For the third time within three years Mr W Miles McRea, Perth, has suffered a loss by fire. The latest damage was done at 7 o'clock Tuesday morning when fire broke out in the barn of the building below Perth school owned by Mrs Lillian T Platt, of Tioga Lodge, Highland Mills, N. Y., and occupied by Mr McRea. Four horse that were in the barn were taken out. A quantity of hay was burned. The fire is believed to have been caused by the careless smoking of a stranger who slept in the barn throughout the night.

**BEARING DOWN PAINS**

What women at sometime or other does not experience these dreadful bearing down pains. Mrs E Griffith, of Main street, Hepworth, Ont, says:

"A heavy bearing-down pain had set tled across my back and sides. I was of ten unable to stoop or straighten myself up. Many times each night I would have to leave my bed with the irregular and frequent secretions of the kidneys and just as done out in the morning as on re tiring. I was lan guid and would have to let my house work stand. No thing I had tried would benefit me. I learned of Booths Kidney Pills and concluded I would try them which I did, and soon found the long sought relief. My back strength ened and I began to feel better and strong er.
