## FORESTRY PRESS BULLETIN.

Lumber used by Agricultural Implement and Vehicle Manufacturers in Canada-1910

Statistics of the lumber used have been received from 162 companies, consisting of the Agricultural Implement and Vehicle Manufacturers of Canada in six provinces, by the Forestry Branch of the Department of the Interior, 76,474,000 feet of lumber were used worth \$2,513,265, or an average cost of \$32.86 per thousand. Ontario used nearly 90 per cent of the total for the Dominion. Quebec purchased 6 per cent; Manitoba 4 per cent and Nova Scotia, New Brunswick and Prince Edward Island used very small amounts. Woods used in these industries require strength and durability which is shown by the large amount of Maple, Elm, Oak, Ash, Birch and Hickory that were used. Of the native woods, cherry was the most at \$104.00 per thousand, and Ironwood the cheapest at \$15.00 per thousand. Mahogany at \$120.00 per thousand, was the most expensive of imported woods.

The species of woods having the technical qualities required by these industries at present grow only in small quantities in the agricultural and farm districts of Canada. For this reason the supply is rapidly becoming diminished so that unless steps are taken to reforest or conserve the production, we must depend more and more for our supply, on the United States. The fact that the woods necessary for the proper building of agricultural implements cannot be secured in any quantity in Canada tend to increase the cost of manufacturing in Canada.

## U. S. SENATE PASSES BILL FOR LARGER HOUSE

WASHINGTON, Aug. 3.—The Senate to-day, without division, passed the House bill increasing its membership from 391 to 433, and added two amendments, offered by Mr. Burton. Other proposed amendments were beaten.

One amendment gives the people in the States having the referendum the right to make the reapportionment. Elsewhere the Legislatures will do it, as at present. The vote was partisan, the first since the Senate met, 39 republicans to 28 democrats.

The second amendment provides that candidates for representatives-at-large shall be nominated in the same manner as State officers. It is intended to prevent the elimination of negro voters in the South. The bill now goes back to the House. Unless it concurs in the amendments the bill will go to conference.

The increased membership represents the addition of 15,000,000 population shown by last year's census. If Arizona and New Mexico are admitted to statehood the membership will be 435.

The bill will effect the representatives elected for the Congress beginning March, 1913, so that it will also affect the electoral vote for the next President. No State loses in representation and twenty-five gain, as follows:

New York, six; Pennsylvania, four; California and Oklahoma, three each; Illinois, Massachusetts, New Jersey, Texas and Washington two each; and Alabama, Colorado, Florida, Georgia, Idaho, Louisiana, Michigan, Minnesota, Montana, North Dakota, Ohio, Oregon, Rhode Island, South Dakota, Utah and South Virginia, one each.

## HARTLEY MUSEUM

Mrs. A. D. Hartley wishes to inform the readers of "The Dispatch" that she intends placing the Hartley Museum in Acadia College next year. The president, George B. Sutton writes her that it will be of great interest to the students and a great benefit to the people who may be able to see it. As a new library building is being erected the museum will have the room now occupied by the library and which is the best room in the college. All persons who have not seen this museum should visit it soon.

Mrs. Hartley intends visiting friends in Boston and New York and then going West for a prolonged visit with friends in Cedar Rapids, Denver and Aspen in three or four weeks. Mrs. Hartley will be very glad to hear from any friends who are going in that direction.

## Lame Back

To have a lame back or painful stitches means disordered Kidneys and the sooner you have the Kidneys and Bladder in a perfectly healthy condition, the sooner you will enjoy life. As far as we know there is only one remedy that is guaranteed to cure you, and that is FIG PILLS. If they don't make you a strong, healthy person in two weeks, your money will be refunded, 25c a box, at all leading drug stores.

Mrs. W. F. Glidden, Miss Glidden and Miss Gladys Glidden who have been visiting in St. John, the guests of Mrs. A. A. McLaskey returned home yesterday.

## DOWVILLE

The weather is very warm, and some of the farmers have commenced harvesting. Raymond H. Patterson and Merrill Hatfield took a flying trip to Woodstock recently.

Miss Cora Welverton, of Northampton and Donald Tompkins of Melville visited relatives in this vicinity recently.

Misses Alice and Edna Secord were the guests of Misses Alice and Adelia Dore 3rd inst.

Mrs. Frank Patterson of Holland, Mich. U. S. A is visiting relatives in this vicinity. Miss Edna Secord, of Boston, Mass., has returned home.

The prospect for Pinder's railway from Millville to Hawkeshaw looks very slim as the writer observed that the economizing people were using the sleepers for fencing until they were needed for constructing the proposed railroad.

Many people of this vicinity have been blueberrying to the plains near Millville, which have been yielding an abundant supply.

## SUMMER MONTHS FATAL TO SMALL CHILDREN

The summer months are the hardest of the year on small children. Cholera infantum, diarrhoea, dysentery and stomach troubles are all common at this time and many a precious life is snuffed out after only a few hours illness. As a safeguard mothers should keep Baby's Own Tablets in the house. An occasional dose of the Tablets will prevent stomach and bowel troubles, or if the trouble comes on suddenly will bring the little one through safely. Mrs. Larry DeGrace, Mizonette, N. B., writes: "Last summer my baby suffered greatly from her stomach and bowels and nothing helped her till I began giving her Baby's Own Tablets. They regulated her bowels, sweetened her stomach, and now she is a big, healthy, happy child. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## PLASTER ROCK

The Women's Mission meeting of the Anglican Church met at the home of Mrs. John Dickison Aug. 4.

Perhaps one of the finest services ever held in the Presbyterian Church was when the edifice was packed to attend the Christ-

## COURAGE.

Question not, but live and labor

Till you goal be won,

Helping every weary brother,

Seeking help from none;

All the world is froth and bubble,

Two things stand like stone—

Kidness in another's trouble;

Courage is your own.

—A. L. Gordon.

## COLLAPSE OF FORTRESS AT VALE NCIA, SPAIN

PARIS, Aug. 5.—Despatches received from Valencia, Spain, says a fortress collapsed, and nine were killed and many were injured. A special train with ambulances and engineers left for the scene. The despatch does not say what caused the collapse, nor give the situation of the fortress.

## BRITISH LIBERALS RETAIN MIDDLE-TON.

London, Aug. 3.—The result of the polling in the Middleton Division of Lancashire yesterday was declared last night as follows: W. R. Aikins (Liberal), 7,071; W. A. S. Hewins, (Unionist), 6,284. This is no change as the seat was a Liberal one.

## BUILD UP

in spring and summer, it's the natural time to store up health and vitality for the year.

Scott's Emulsion is Nature's best and quickest help. All Druggists

will like the fine flavor of Red Rose Tea. It has the cup goodness that comes only from Red Rose quality—the reason why it holds first place in thousands of Canadian homes. Will you try it.

## "DOG DAYS."

(From the London Chronicle.)

The "dog days" are so called because the Greeks on first beholding the star Sirius with the naked eye were wont to sacrifice a brown dog to appease his wrath, the general belief being that Sirius was the cause of the hot sultry weather usually attendant upon its appearance and that on the first morning of its rising the sea boiled, wine burned sour dogs grew mad and man became affected with all manner of burning fevers, hysteric and frenzies. At Argos a festival was held during the dog days known as "Cynophanties," which means that dogs were killed in sight.

## KEEP THE DOG'S TAIL

The practice of cutting off the tail in dogs of certain breeds should be condemned, forbidden by law, and in every way discouraged. It is a silly fashion and a great mistake in thinking that a dog's appearance is improved by docking his tail.

Nature designed this tail for a particular purpose, says Our Dumb Animals. It is the dog's organ of speech. No part of his anatomy unless it be his eyes is more expressive. To deprive him of this member is similar to clipping off a portion of your tongue. You can scarcely do a dumb animal a meaner or more shameful injury than by taking away the means by which he makes known his disposition, his likes and dislikes, to his human associates.

## DO NOT MOISTEN MEAL

There is, says Hoard's Dairyman, no advantage in moistening the meal portion of the cow's ration. It is better to force her to thoroughly masticate her feed rather than to aid her in swallowing it quickly. Mixing of the feed with the saliva of the mouth helps in its digestion. The fluid secreted by the mouth is quite important in digesting feeds rich in starch. If the grain is moistened there is less saliva secreted, and therefore the digestion of the feed is more or less impaired.

Birgadier Adby and Mrs. Adby, of St. John were in town on Saturday and Sunday attending S. A. Army meetings. They were the guests of Mr. and Mrs. Geo. Camber.
