### NO CLUE ON MAINE

Tampa, Fla., June 23—The secret of the destruction of the battleship Maine never will be known, said General W H Bixby, chief of engineers in charge of the work of raising the Maine, upon his arrival here from Havana.

The destruction of the vessel was such, says General Bixby, and the deterioration has been so great that it will be impossible to tell whether the ship was blown from a force within or without. The greatest force, however, was from the inside indicating that the forward magazine had exploded. Whether this was from a symmetrical explosion caused by a torpedo from the outside may forever remain a mystery.

General Bixby says that unless the fragment of a torpedo is found there is no way of connecting some outside agency with the blowing up of the vessel.

We do not expect to find any human remains, General Bixby said. The crews compartments have disappeared entirely.

### SEAMAN TO BE PAID HIGHER WAGES

London, June 28—Indications this morning point to the early termination of the International Seamen's strike, in which case an all around increase in wages will result. Every day additional ship owners have yielded to the demand for an advance in wages.

A meeting of owners was held in Liverpool yesterday, and another meeting was held in London today. It is expected that the outcome of the second meeting will be that the Shipping Federation which up to the present has refused to agree to any compromise, will leave all the ship owners who belong to the Federation free to make whatever concessions they individually consider advisable. In this event there is little doubt that all the ship owners will concede an advance.

### COST OF PROVISIONS INCREASED BY STRIKE

London, June 28—The shortage of butter, bacon and eggs, of which supplies are held up at Hull by the seamen's strike, is affecting the price of provisions in England. Millers are giving notice to their staffs to quit work in consequence of the stoppage of the supplies for wheat and flour. A congestion of coal trucks at all the northeastern ports, through the inability to load collieries is disorganizing rail roads. The ship owners' Association of the United Kingdom met in London this afternoon and adopted resolutions in favor of a moderate increase in the wages of certain sections of the workers at certain points and recommending that the association fix a standard wage. The meeting, however, opposed the demand for the recognition of the sailors and firemen union. The attitude of the ship owners showed a weakening from that first assumed toward the strikers.

A salad of mixed vegetables when arranged in some pretty fashion is very attractive. Use peas, for instance, and small cubes cut from carrots as a border. Eggs, hard boiled and cut in slices, can be added, as well as cold boiled beets chopped fine, minced onions and string beans. Garnish with sprigs of parsley.

Rhubarb Sherbet—Wash and cut into pieces a bunch of rhubarb. Put it into a saucepan with a quart of cold water and cook slowly until very tender. Add the grated rind of a lemon and three tablespoons of sugar. Turn into a freezer and freeze.

### LITTLE THINGS

There's never a rose in all the world  
But makes some green spray sweeter;  
There's never a wind in all the sky  
But makes some bird wing flower;  
There's never a star but brings to heaven  
Some silver radiance tender;  
And never a ray cloud but helps  
To crown the sunset splendour;  
No robin but may thrill some heart  
His dawnlight gladness voicing;  
God gives us all some small sweet way  
To set the world rejoicing.

### MRS SAMUEL J RAYMOND.

The people of Andover and Perth were shocked by the sudden death on Wednesday June 14th, Lenna Belle Raymond, wife of Samuel J Raymond of Andover. Mrs Raymond has been in poor health for over a week but was improving and on Wednesday last, up to 20 minutes of her death, she appeared to be in excellent health. Death came in the form of a paralytic shock. The deceased was one of the most highly esteemed women in the county. She was 49 years of age. Previous to her marriage she was Miss Lenna Belle Pierce and was a native of Carleton County. In addition to her husband she leaves two sons George, of Everett and Charles at home and two daughters Mrs Harry Phillips, of Fernie, B C, and Ida, also at home. One of the sad features of her death was that Mr Raymond was in Canterbury at the time and Miss Ida arrived home from Perth a few minutes before she died.

The funeral was held on Friday afternoon last, services being conducted at the home of the deceased and at Trinity Church by Rev J R Hopkins. Interment was made in the Anglican cemetery. The pall bearers were: A E Kupkey, D R Bedell, Charles Hanson and P F Hefernan.

### FROM LONDON TO BOMBAY IN SEVEN DAYS.

A London periodical says: It seems hardly creditable, but this is the prospect held out by the construction of a railway across Persia which will bring this great colony in the far East very close to the motherland. Of course, the constant disturbances in western Asia will make travelling by this land route unpleasant for family parties at first, but the mails will be delivered through this accelerated service in the near future.

Everyone is greatly surprised in travelling in the far East with the amount of shipping and trading of British products. Everywhere in the stores British goods are mostly sold, and this shipping is largely done on British vessels. When we realize

### Cold in the Head

What's the Sense in Sneezing and Sniffing, Dosing with Purgatives, or Bothering with Atomizers?

"Catarrhozone"

A Convenient Inhaler Treatment is the Proper Remedy to Cure Quickly and Pleasantly.

Sensible people long ago abandoned the idea of "working off a cold" by means of laxatives and purgatives for the simple reason that the cure is as bad as the disease itself.

To cure a cold in about five minutes' time use Catarrhozone. It is aromatic, delightful to inhale, clean, and very simple to use.

C. B. College, of Clarence street, London, says: "I had a continuous cold in the head for years, and never used anything with such quick results as I derived from five minutes' use of Catarrhozone. I am delighted to find a remedy that cures colds in a few minutes. Catarrhozone cures every time."

To carry a Catarrhozone Inhaler in the pocket means you won't have colds, catarrh, or any lung or throat trouble. It keeps these diseases away, and is warranted to protect you against all the ills of winter. Complete outfit, with hard rubber pocket Inhaler, costs \$1. Small size 50 cents. Druggists, or the Catarrhozone Company, Kingston, Ont.

size that more than half the population of the world are in the far East and that India and China alone furnish (India 300,000,000 and China 400,000,000) we see the possibilities of trade advantages.

India, China, Japan, Hong Kong, Strait Settlements and East India Islands imported from Europe and the United States last year roughly \$1,400,000,000. The United States share of this is very little over six per cent. The chief imports of the Orient are cotton goods to the value of \$400,000,000, and Europe supplies 97 per cent. This is very difficult to explain when Europe must buy its raw material from the chief cotton producer of the world, the United States. England's trade with her three hundred millions in India is not easy to imagine.

When one has travelled the length of the Mediterranean Sea, from Gibraltar, Marseilles and to Port Said, through the Suez Canal and from Aden across the Arabian Sea to Bombay one would not require to listen to any arguments to be convinced that Great Britain would not be so favored a nation without India, and the military and trade route to India.

The prodigious value of the jewelry worn by the participants in the numerous state functions connected with the coronation created a considerable demand for policies of insurance covering the period of the festivities. One of the Indian princes took out a policy for the sum of \$425,000 and in another instance a visitor from East India paid premiums on jewelry valued at between \$1,000,000 and \$1,500,000. The risks covered in most cases comprise transit to and from India and insurance against theft while in England, and some companies made it a condition of accepting the risk that the valuables should be deposited in approved strong rooms when not in actual use. The premiums demanded were invariably high.

### AMERICAN CAPITAL IN CANADA.

(Philadelphia Record)

An estimate of American capital invested in Canada made on behalf of the Toronto Board of Trade and published May 20, shows a total sum of \$417,143,221. By far the larger part of this sum represents outright purchase of lands, timber rights, mines and mills.

With the renewal of great reciprocal trading between the two countries there will be doubtless heavier investment in Canadian lands and mines. The great sweep of undeveloped virgin territory in British America lying between the Atlantic and Pacific coasts newly brought into touch with the markets of the world by transcontinental railways, under settled government wherein the rights of life and property are well assured and low taxes the rule, must inevitably attract heavy immigration. By mutual pulling down of tariff walls the greatest mutual advantage will accrue to all the people of both countries.

The present reciprocity agreement is a long step in the right direction.

We now buy and sell heavily despite our tariff handicap, but freed from frontier tribute our present trade would be but a trifle less full as compared with the trade of the future.

### ENGLAND MAY LOSE FAMOUS TAPES TRIES.

London June 30.—The standard says that the Duke of Rutland has received an offer from America of \$75,000 for seven copies of the famous Mortlake tapestries after Raphael's cartoons. The tapestries were made for Charles I, and were sold by Oliver Cromwell to Lord Haddon. Fear is expressed that England will be unable to retain them.

### ROYAL GUESTS

Over forty members of Royal Families, 250 rulers of foreign states, 1,450 Earls, Dukes, Lords and Ladies, 300 Ambassadors and Ministers, 1,500 representatives of the Army, Navy, Judiciary, Clergy, etc; formed part of the 7,000 guests at Westminster Abbey.
