## Mrs. Thurston Found Dead

LONDON, Sept. 6.—Mrs Katherine Cecil Thurston, the Irish authoress, was found dead this morning at a hotel in Cork. Mrs Thurston was a native of Cork and married in 1901, Mr. Ernest Charles Thurston, with whom she was the joint author of several popular novels. The couple lived happily until 1907, when according to Mrs. Thurston, her husband informed her that it was necessary that he should live his own life, and for the purpose of literary work should go down into the very depths of society. The authoress was granted a divorce in the spring of 1910. (Mrs. Thurston was the daughter of Paul Madden, an ex-Mayor of Cork. She was the author of "John Chilcote, M. P.," which proved a great success and was dramatized by her husband. It was known in America as "The Masquerader." Other novels were "The Circle," "The Gambler," "The fly on the Wheel." Her latest novel, "Max," has been very successful.

## New York Police In Luck At Last

NEW YORK, Sept. 6.—With a dapper young Italian, believed to be one of the country's master criminals in their hands, the police to-day spread their nets for the gang of bomb throwers, blackmailers and kidnappers that have terrorized the Italian settlement here for the past four years. Giuseppe Constabile, who was arrested yesterday with a dynamite bomb under his coat, will be arraigned to-day under the new law which makes the mere possession of a deadly weapon a felony, but the police hope to prove against him far more serious crimes.

## Marconi Working On Wireless Telegraphy

ST. JOHN'S, Nfld., Sept. 6.—Plans for the erection of a wireless station of sufficient power to allow steamers plying between Europe and America to keep in constant and direct communication with land have been formulated by inventor Marconi, who has been conducting experiments here for the past few days. The erection of the proposed station is expected to be started within a few weeks and its completion will make St. John's the distributing point for all wireless messages between England and America, and other stations merely subsidiary, Marconi will leave for England to-morrow to make final arrangements.

Yesterday a lengthy message addressed to Premier Morris, was received from the wireless station at Clifden, Ireland, by means of a temporary station on the proposed site for the new power station here.

## Making Money In Aroostook

(Bangor Commercial.)

HOULTON, Sept. 6.—They are making money in Aroostook county this season and before New Year shall have arrived, a good many farm mortgages will have been cancelled and a good many bank accounts will have increased. In some instances they will have become so fat that the fortunate possessors may not feel that a couple of months or so in Southern California or Bermuda will not be amiss. The potato crop is a good one and in Aroostook a good potato harvest spells prosperity for all. The last two years have been made lean ones. But the present season will go far to make up for that.

"Conditions have been almost ideal, up to date, for the proper growth and maturing of the potato crop," said E. L. Cleveland, one of the largest potato shippers in Maine, to the Commercial correspondent. "The shipping season began nearly three weeks earlier than usual by reason of the shortage of the outside supply of potatoes. There is an exceedingly heavy demand for Aroostook potatoes from a wide territory. We are shipping freely now to Chicago, St. Louis, Cincinnati, Cleveland and other western points. The stock, while not fully matured by reason of early digging, is sound, of good size and of excellent table quality.

"There is at present a tremendous movement of potatoes out of the county. It is estimated that fully \$2,000,000 has already been paid to the farmer hereabouts. Prices have ranged high. At present they vary from \$1.75 to \$1.85 per barrel at the loading stations.

"The prospects are for a very busy season. The present large demand from the west will probably continue for another month—until their main

WOODSTOCK, N. B.

crop is ready to move. Outside of this I cannot see why a fairly high level of prices will not prevail during the entire season on both table and seed stock. It looks to me as though Aroostook was to have its innings after the unfavorable seasons of the past two years. In fact, things are snapping throughout the county commercially. Money is rolling in and everyone is happy. Aroostook county is the most prosperous and busiest part of the State of Maine to-day."

## 6 YEAR OLD GIRL IS Cured of Kidney Trouble

Mrs. Alex. Moore, of James St., Oxford, N. S., says: "Booth's Kidney Pills cured our little daughter, Christian, age six years, of many symptoms of kidney weakness. She complained of a sore back, the kidney secretions were frequent and uncontrollable, especially at night. Her stomach was weak and her appetite poor. This caused her to have frequent headaches, and the least exertion would tire her. We had tried many remedies, but she did not improve. Finally we learned of Booth's Kidney Pills and procured a box. In a short

time she was well and does not now complain about her back, the kidney secretions have become normal, and she plays around the house with no apparent fatigue. We always recommend Booth's Kidney Pills."

Booth's Kidney Pills carry a guarantee that if you derive no benefit your money will be refunded. Booth's Kidney Pills are a specific for all diseases of the kidneys and bladder. Sold by all druggists, 50c. box, or postpaid from the R. T. Booth Co., Ltd., Fort Erie, Ont. Sold and guaranteed by E. W. Mair.

## KINGSCLEAR

The order of the day is harvesting. A few of the farmers are hauling their potatoes to Fredericton for \$1.50 per bbl.

Miss Myrtle I. Kelly has gone to attend the provincial Normal School for a period of 9 months, all join in wishing her success.

The water in this section of the St. John Valley is very low making it difficult for Mr. Aiken who passed here last week with his crew on the Corporation drive.

The political orations are endeavoring to raise the pulse of the citizens to 98 in the shade.

The people who have encountered a cold wave from Fredericton and Ottawa are amazed at the exceedingly high temperature of the political oration while discussing Reciprocity? No! No! but the "St. John Valley Railway." Some one has suggested that these men be taken in the future, while their temperature is so high, and given a free plunge in the cooling waters of the noble St. John.

## DOWVILLE

J. F. Grant is repairing his mill. He intends to commence sawing soon.

## Friction Over Post Office Regulations.

Ottawa, Sept. 6.—Just what class of matter is entitled to be called a publication and to receive publishers privileges is a point over which some friction has developed between the Post Office Department and some societies which publish official organs.

A deputation has waited on the Deputy Post Master General in regard to one of these publications, the Co-operative, issued by the Canadian Co-operative Union. The Post Office Department recently declined to grant publisher's privileges to it, and this the Union claims is somewhat unfair. The reason given for the government's action is that as the magazine is not supported by individual subscriptions, but is bought in numbers by different fraternal organs such as those of the Sons of England, are granted publishers privileges although not supported by subscription. Consideration was promised by the Post Master General.
