Do You Realize the Advantages of Concrete?

THE rising price of lumber has compelled the farmer to look for a suitable substitute.

Concrete, because of its cheapness, durability and the readiness with which it can be used for every farm purpose, has proven itself to be cheaper than lumber and far more durable. Our Free Book—

"What the Farmer Can Do With Concrete"

shows the farmer how he can do his own work without the aid of skilled mechanics. It demonstrates the economy of Concrete construction as compared with lumber, brick or stone.

This Book Tells How Concrete Aids Farmers.

It shows how Concrete can be used to advantage on the farm in the construction of almost every practical utility.

Send for this book to-day. You'll find it intensely interesting, even if you don't intend to build for a while. It contains much useful information that will put you in the way of saving money. Among the subjects treated are: Barns, Dairies, Fence Posts, Feeding Floors, Hitching Posts, Root Cellars, Silos, Stables, Scales, Stalls, Troughs, Walks, Well Curbs, and so forth.

REMEMBER—This book is yours—a postal will bring it promptly. Write now.

You may send me a copy of "What the Farmer Can Do With Concrete."
