H O White left on Monday last for Berwick N S called there by the sudden death of his father Mr G O White.

Everyone in Riceville is enjoying good health with the exceptions of slight colds.

CABINET MINISTER SERIOUSLY ILL

LONDON March 4—The Earl of Crewe Government leader in the House of Lords, and Secretary of State for India, was removed in an ambulance this morning from a hotel to the home in Berkeley Square of the Countess's father, the Earl of Rosebery, following a sudden and serious illness.

The Earl was one of a dinner party at the hotel last night when he was seized with what is described as a gastric fainting fit, followed by concussion of the brain. The extent of the breakdown may be gathered from the announcement that it will be at least two months before he will be able to resume his leadership in the Upper Chamber or the duties of the Indian Office. It was necessary for the patient to remain at the hotel throughout the night.

The Countess and their infant son were taken to her father's home when they were driven out of the Crewe house in Mayfair by fire on Feb 10.

The illness of the leader is peculiarly unfortunate for the Government in view of the important business coming up in the House of Lords which includes Lord Lansdowne's reform bill and the Government's veto bill. The Earl's duties in the Upper House and in the Indian Office will be assumed temporarily by Viscount Morley Lord President of the Council and former Secretary of State for India.

It appears that the Earl of Crewe was leaving the dining room last night when he collapsed and in falling struck upon his head causing concussion of the brain.

EARL CREWE LIKELY OUT OF POLITICS.

London, March 7.—Although the official bulletins state that the Earl of Crewe is improving, fears were expressed by his friends today that he would have to retire from public life as a result of a complete physical collapse. There are some who believe that the distinguished statesman cannot recover. Two important posts would be left vacant by the retirement of the Earl of Crewe, the government leadership in the House of Lords and the post of Secretary of State for India.

Shiloh's Cure quickly stops coughs, cures colds, heals the throat and lungs. . . . 25 cents.

WILL MAKE GRANT FOR RIVER BRIDGE.

August, Maine, March 3—The proposed international bridge between St Leonard's, N B, and Van Buren, Maine, was the subject of a hearing before the ways and bridges committee of the Maine legislature on Thursday afternoon. Hon Peter Charles Keegan of Van Buren, was the principal speaker in favor of the measure. Mr Keegan explained that the legislature of two years ago voted \$37,500 for this purpose but that the delays of survey, plans, and other work had caused the appropriation to lapse. It had also been found that the total expense will be about \$10,000 more than was supposed, so that \$42,500 is the amount for each country. The amount now needed from Maine under present conditions was stated to be \$25,638.46. It was stated that the Penn Bridge Co which is furnishing the steel claims an error in figures which is responsible for \$2,000 of the cost increase. The citizens of Van Buren have guaranteed part of the expense till the appropriation can be secured and work has not been delayed since getting started right. Piers and abutments are ready and the steel is expected soon.

Mr Keegan further said that the Canadian government and people are carrying out their part of the agreement for building the bridge. Representative John B Pelletier, of Van Buren, corroborated Mr Keegan's statements. The committee voted to recommend an appropriation of \$25,638.46.—St John Globe

BUBONIC PLAGUE REACHES ODESSA

Odessa, March 4—The bubonic plague has broken out here. The municipal authorities discovered a case today and immediately established a quarantine.

A SEVERE CASE OF NEURALGIA

Cured After Long Years of Suffering By Dr Williams' Pink Pills

There is an excellent reason why Dr Williams' Pink Pills have cured the most severe cases of neuralgia, sciatica, and other complaints in the group that are known as disorders of the nerves. This group also includes St Vitus dance and paralysis, and the common state of extreme nervousness and excitability. Each of these complaints exist because their is something the matter with the nervous system. If the nerves have tone—strong and healthy, you will not have any of these complaints. The reason Dr Williams' Pink Pills cure nervous disorders is that they restore weak, run-down nerves to their proper state of tone. They act both directly upon the nerves and on the blood supply. The highest medical authorities have noted that nervous troubles generally attack people who are bloodless and that the nerves are toned when the blood supply is renewed. It is thus seen that Dr Williams' Pink Pills cure nervous disorders by curing the cause of the trouble.

Mrs J C Adams, Norris Lake, Man., says: "I am writing you at my husband's request to let you know the great benefit Dr Williams' Pink Pills have been to him. He is a river driver and therefore much exposed to all kinds of weather and wetting. As a result he had an attack of rheumatism, and then to add to his misery a severe type of neuralgia set in, locating on the left side of the face, and causing him such terrible pain that it would drive him almost wild. He was treated by several doctors, and finally went to Winnipeg, where they blistered his head and applied hot plasters which really only added more to his misery, and he returned home still un cured. In this way he suffered for nearly six years, trying all sorts of medicine, but never finding a cure. One day while he was suffering I went to a store to get a flour, but they did not have the kind I wanted, and the storekeeper asked me what I wanted it for. I told him about my husband and how he suffered, and he placed a box of Dr Williams' Pink Pills on the counter saying, 'Take my advice, this is what your husband should take.' I took the Pills home with me and my husband started taking them. I am not sure how many boxes he took, but one thing is certain, they completely cured him, and he has never since had a touch of those torturing pains. You can tell how much he suffered when I say that the hair on the side of his head in which the pain was located turned quite gray. It looks odd, but he says it does not matter since the pain is gone. I believe he would not have been living now had Dr Williams' Pink Pills not cured those terrible pains, and you may be sure we gratefully recommend them to all our friends and all suffering ones."

Sold by all dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr Williams' Medicine Co., Bro.ville, Osh.
