IMPORTANT DECISION.

The decision of the Interstate Commerce Commission refusing permission to the railroads in the eastern and western parts of the United States to increase their freight rates is one of the most important events of the day. The railroads, holding that their expenses had been largely increased by advance in employees' wages, higher price of materials, etc., wanted to so increase their rates that an additional revenue of about \$27,000,000 annually would be secured. The shippers protested vigorously against this course, claiming that the railway revenue was now large enough for all proper purposes. Louis Brandeis who appeared for the shippers and who is regarded as a railway expert made what seemed to be the astounding claim that railways are not well managed, and that if there were "scientific management" a million dollars a day could be saved. That being the case certainly there would be no reason for burdening the people by increasing the freight rates. Apparently this reasoning had some influence with the Commission. A feature of the struggle was the support given the railway managers by the railway labor unions. A though wages have been largely increased in recent years, it is claimed the workman's share of the profits is not yet large enough and further demands have been projected. The railways, if this decree is sustained, face a serious question. Already, there has been a slump in the stock market. If the railway contentions were sound, the companies must cut down expenses in some way, if they are to continue the payment of dividends to shareholders.—St. John Globe

FRANCE

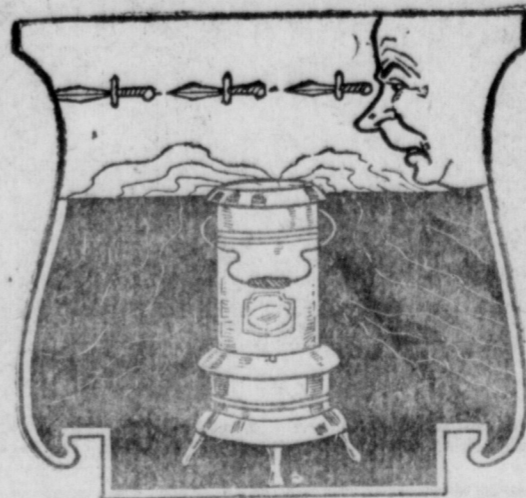

M Briand who on Monday resigned the premiership of France because his socialist radical associates in the Chamber of Deputies declared they had lost confidence in him, had a rapid rise in politics. A revolutionary socialist when he entered the Chamber from the Loire district, he came to the front as a champion of those who favored the separation of church and state and repressive church measures, and naturally became a cabinet minister when the anti-clerical policy won. In July, 1909 he became premier. It is the irony of fate that he should be attacked by his fellow socialists on the ground of clericalism, for which there was no basis. Behind that charge was the fact that M Briand had vigorously assailed the labor unions of government employees and that he was preparing legislation to prevent a recurrence of last year's strike troubles. This it was that aggravated his former associates (some of whom were intensely jealous of his advancement) and finally led to their arraignment of him in the chamber. M Briand's successor is not yet known but it looks as if he will have a stormy time. The socialist-radical element grows stronger and more aggressive yearly.—St. John Globe

UNITED STATES AND JAPAN.

The United States has received from the President the treaty with Japan which was drawn up some time ago. The main points in the agreement which were agreed to last fall are as follows:

That Japan will cooperate with the United States that Japan may agree to a neutralization of the Manchurian railways in adherence to the American spirit with the proviso however that similar withdrawal be made by all powers now enjoying concessions of the kind from China; the American recognition of Japan as the guiding influence in the Far East and her liberty to act in unison with her foreign treaties following the usual notification to this country; Japanese support of Chinese integrity opening of ports and cities within Japan's control to the trade specifically affecting Corea, Formosa, Saghalien and Port Arthur; utilization of Japan's good offices in future Far Eastern questions continued recognition of Japan's state distinctions relative to Southern Manchuria and arrangements facilitating the financing of Japanese enterprises in the Orient

There is one feature that will provoke discussion and strong opposition because of the feeling on the Pacific coast. That is the exclusion of Japanese laborers by law. Japan has been deeply wounded by the action of United States in this matter, and she has promised to so restrict legislation that the United States will have no cause of complaint. The new treaty will contain this understanding but the representatives from the Pacific coast states are satisfied with nothing less than exclusion and are expected to seek to prevent the adoption of the treaty.

RHEUMATISM CURED TO STAY CURED

Liniments of no Avail—The Trouble Must be Treated Though the Blood

This article is intended as a talk to the man or woman with rheumatism who wants to be cured. Not merely relieved, not half cured, but actually cured. The most ardent sufferer can hope for in rubbing something on the swollen aching joints is a little relief. And all the while the trouble is coming more firmly seated. Medical authorities now know that rheumatism is rooted in the blood, and that while rubbing on liniments or hot fomentations may give temporary relief, they cannot possibly cure—you must go to the root of the trouble in the blood. That is why Dr. Williams' Pink Pills cure rheumatism. They make new, rich blood, which expels the poisonous acid, and the rheumatism disappears. There are thousands of former rheumatic sufferers in Canada, now well and strong, who thank Dr. Williams' Pink Pills that they are now free from the aches and pains and tortures of this dreaded trouble. Mr. Joseph Luddington, New Harbor, N. S., says: "Some three years ago my wife was stricken with rheumatism, and suffered so much that we despaired of her ever getting well again. At first she was able to go about, but in spite of all we did for her she grew so bad that we had to lift her in and out of bed, and finally the pains grew so excruciating that we could only move her a little by little, with the sheet under her. Finally we were induced to get Dr. Williams' Pink Pills for her. I do not remember just how many boxes she took, but I do not know that they were the first medicine that reached the disease, and that she continued to improve until she was again as well as ever, and could do her house hold work. To us it is simply marvellous
