Mail Order Department.

Now Mr. Customer, to the Point

We have always maintained that our people are loyal to their own province, that they would prefer to spend their money here if they were convinced they could get as good value as that offered by large Department Stores, and that the building up of our own country is entirely dependent on the cooperation of our people

Now to Prove Our Point

We have opened up a Mail Order Department, and beginning with the next issue of this paper we will offer every week *A Genuine Bargain*, not cheap goods for a little money but the finest quality we carry in stock, for just

25 Per Cent. Less than you could possibly buy it from the Big Department Stores, prepaid, delivered at your door.

We do not expect to make any profit on the transaction, but we are just a little bit interested in the welfare of this country of ours and the amount of money that is daily being sent to these large department stores is growing to be a menace to our business interests and we are convinced that three-quarters of these goods can be bought as cheaply right here in this town, and many articles from 10 per cent. to 15 per cent. LOWER

Now Mr. Customer, is this Fair? |

Do these department stores contribute anything to the upkeep of this community? Do they pay any share of our taxes? And yet for every dollars worth of business sent them you are depriving this county of the profit that justly belongs to its citizens.

Think this over and prove your loyalty to our own county.
