cines. Mrs. W. U. Rossiter, wife of a
well-known merchant in Kensington,
writes as follows:
"Ten years ago my kidney trouble
started. I suffered dreadful pains in
my spine and around my waist, my
back feeling as if hot irons were run-
ning through. I couldn't sleep, had no
appetite, was pale, thin, and very
nervous. Cruel headaches and despond-
ency added to my burden. Not until
I had used Dr. Hamilton's Pills did I
get any relief. They proved capital
and helped me immediately. Eight
boxes made me well and now I do
my own housework, feel and look the
picture of health."

CURRENT EVENTS

The British naval estimates for the
year have been made public. They
show a total of \$221,900,000, an in-
crease of \$19,000,000. The total in-
cludes a sum sufficient to provide for
the building of five new Dread-
noughts. Provision is also made for
four cruisers, twenty destroyers, six
submarines, four miscellaneous ships
and an addition of 3,000 men to the
personnel

The international joint commission
to define and regulate the boundary
waters between the United States and
Canada will be made up of ex Repre-
sentatives James A. Tawney of Minne-
sota, chairman; ex-Senator Thomas A.
Carter of Montana, and Frank S. Street,
Republican national committeeman
from New Hampshire. The commis-
sion is to exist under a treaty of May
13, 1910. The Canadian members
have not yet been named.

The shape of Mount Vesuvius
which was changed by the last erup-
tion, has been altered again by the
collapse of a huge spur of lava. The
latest change is ascribed to earth-
quake disturbances. The rim of the
crater is now much lower than it was
and is truncated in appearance. Twenty
tourists had started to ascend the
crater when the lava spur collaps-
ed. No one was hurt.

The trial of the members of the
Neapolitan Camorra, the secret or-
ganization which has terrorized Italy
for many years, for the murder of
Gennaro Cuoco and his wife, was
begun in Viterbo on Saturday. A
jury is being secured with much diffi-
culty owing to the fear of citizens.
Cavaliere Bianchi, the president of
the court, chosen by the Ministry of
Justice to preside, opened the interro-
gation of the accused. He limited his
questions to an inquiry into their per-
sonal records. The prisoners include
Enrico Alfano, the head of the organi-
zation.

A severe outbreak of the bubonic
plague is reported at Siokhe, a village
of the interior on the west side of the
Lung Kiung and fifty miles from
Amoy. Siokhe is the seat of the mis-
sion station of the Board of Foreign
Missions of the Reformed Church in
America.

It is announced in Madrid that the
note of the Government to the Vati-
can concerning the question of deal-
ing with the religious association stat-
es in positive terms that there will be
no compromise now or in the future.
In reply to a request by Republican
members in the Chamber of Deputies
for information, Premier Canalejas re-
plied that during the present month

there would be submitted to the
Chamber a bill dealing with the re-
ligious associations, no matter what
may result from the present negoti-
ations with Vatican authorities. He con-
cluded by saying: I will negotiate for
a limitation of the religious associat-
ions, but if a friendly agreement is
not reached with the Church the most
drastic measures will be adopted in
dealing with the associations

President Taft does not expect the
Sixty second Congress at the special
session which he has called for April
4 to take up important legislation ex-
cept the Canadian reciprocity agree-
ment. The President made that clear
in his speech before the Southern
Commercial Congress at Atlanta,
Georgia, on March 10. He believes
that a majority of the new Congress-
men will favor reciprocity and he
thinks that it will be adopted regard-
less of party lines.

M. Delcasse, Minister of Marine, in
the French Chamber of Deputies, said
that by the year 1920 France would
have in her navy twenty-two battle
ships of the Dreadnought class. This
number would equal that of Germany
at the same date. Of cruisers, France
would have eighteen to Germany's
twelve, although the latter would
be more powerful individually.

The strength of the Governments
position on reciprocity was shown in
a vote taken in the House of Com-
mons at Ottawa on March 9 on a
motion by Mr. R. L. Borden, leader of
the Opposition, that as American act-
ion on the agreement has been delay-
ed, the matter be not taken up by the
Dominion Parliament until the elect-
ors shall have had an opportunity of
passing upon its merits. The motion
to postpone action was supported by
70 members and opposed by 112, the
government majority being 42. Only
two Liberals broke away and voted
with the Opposition. They were
Messrs. Sifton and Harris, who have
been opposed to reciprocity from the
first.

A strong movement is said to be a
foot to restore King Manuel to the
throne of Portugal. The supporters of
the movement hope to effect the res-
toration peacefully, but in any event
are determined to make the attempt
when they consider the moment ripe
to begin. It is possible, according to
a London paper, that nothing will hap-
pen until after the election in Portu-
gal next month, but there are signs
that a political volcano may burst for
that any moment. The Republican
government however, officially states
that it is so firmly established that no
plot which is likely to be successful
can rely on the support of the army
and navy, which placed the present
authorities in power. The adherents
of King Manuel express the belief
that the army and navy could easily
be swayed.

Honolulu is suffering from a visi-
tation of cholera.

Lord Kitchener has been named to
command the troops which will take
part in the coronation ceremonies. It
is likely that 50,000 soldiers will be
assembled in London for the occasion.

The principle of one man one vote
met with no sympathy in the Quebec
Legislature when a resolution moved
by the member for Beauharnois favor-
ing the principle received the six
months' hot air after a few remarks by
the Premier, saying Quebec was not
yet ready for it.

It has been decided that St. James
Methodist church, Montreal, will not
be sold, much to the relief of Metho-
dist throughout the Dominion.

Starting exactly at midnight on March 9
time was annihilated in France for the space
of nine minutes and twenty one seconds. On
the stroke of the hour all the clocks in the
republic were stopped for the period indicated

in order to comply with the law making the
time the same in all places within a radius
of fifteen degrees and regulating it from the
meridian of Greenwich, England. All rail
way trains if on time were held up; those
which were behind schedule were allowed to
make up the difference. The new time will
not be used at the wireless stations for sig-
nalling ships until June 30 next. It has tak-
en a quarter of a century to overcome the
French prejudice against taking time from
Greenwich. Now that this has been accom-
plished there is a feeling in Paris that Eng-
land in return should adopt the metric sys-
tem.

The naval policy of Great Britain was ex-
plained in the House of Commons on March 13
by Sir Edward Grey, Foreign Secretary, who
defended the course of the Government in re-
gard to the building of Dreadnoughts. The
size of the British navy was practically gov-
erned by that of Germany. Britain in 1914
would have 30 and Germany 21 Dread-
noughts. This was not an unreasonable margin.
Sir Edward affirming the statements of
Mr. McKenna, First Lord of the Admiralty
emphasized the cordiality of Great Britain's
foreign relations and his earnest desire that
nothing should disturb those friendships,
especially with Germany. He dealt with the
difficulties to be encountered in the disar-
mament question, saying that it was the most
civilized nations that spent the most on arma-
ments, and unless the mischief was brought
home to men's feelings as well as to their
minds, the growth of armaments must in
the long run break civilization down. Some
thought more likely it would end in interna-
tional revolution.

Captain T. Rivers Bulkeley of the Scots
Guards, equerry to the Duke of Connaught,
arrived in Ottawa on March 11 for the pur-

pose of making the preliminary arrange-
ments for the coming of the Dominion's first
royal Governor General, Captain Bulkeley,
it is understood is to be comptroller of the
household during the Duke's two year
tenure of the office.—World Wide.

A USEFUL FASHION

One of the present fashions is very use-
ful to an economical person, says Rural
New Yorker—the practice of veiling a
lace waist with chiffon or marquisette of
the same or a contrasting color. A white
or ecru lace waist that has lost its fresh-
ness may be treated in this way, using a
simple kimono waist pattern for the veil-
ing. Some handsome readymade waists
are of this style, the only trimming being
braiding or gimp at the edges of sleeves
and neck. Some of these waists are made
of heavy lace that really suggests Notting-
ham curtains, only the veiling softens the
pattern and takes off the coarseness of
mesh. If one has a nice waist of net and
lace such as was in style two or three
years ago, it can be made very stylish by
veiling it with chiffon or chiffon cloth to
match a jacket suit.

and six onions, sliced, Fry one fourth pound

and one pound of milk crackers, and let it re-
main until it comes to a boil. Serve hot.
