**The Horse's Prayer**

TO HIS OWNER AND DRIVER.

TO THEE, MY MASTER. I offer my prayer: Feed me, water and care for me, and when the day's work is done, provide me with shelter, a clean, dry bed, and a stall wide enough for me to lie down in comfort.

Always be kind to me. Talk to me. Your voice often means as much to me as the reins. Pet me sometimes, that I may serve you the more gladly and learn to love you. Do not jerk the reins, and do not whip me when going up hill. Never strike, beat or kick me when I do not understand what you want but give me a chance to understand you. Watch me, and if I fail to do your bidding, see if something is not wrong with my harness or feet.

Do not check me so that I cannot have the free use of my head. If you insist that I wear blinders so that I cannot see behind me as it was intended I should, I pray you to be careful that the blinders stand well out from my eyes.

Do not overload me, or hitch me where water will drip on me. Keep me well shod. Examine my teeth when I do not eat, I may have an abscessed tooth, and that, you know, is very painful. Do not tie my head in an unnatural position, or take away my best defence against flies and mosquitoes by cutting off my tail.

I cannot tell you when I am thirsty, so give me clean, cool water often. Save me by all means in your power, from that fatal disease the glanders. I cannot tell you in words when I am sick, so watch me, and by signs you may know my condition. Give me all possible shelter from the hot sun, and put a blanket on me, not when I am working but when I am standing in the cold. Never put a frosty bit in my mouth first warm it by holding it a moment in your hands.

I try to carry you and you burdens without a murmur, and wait patiently for you long hours of the day or night. Without the power to choose my shoes or path, I some-

times fall on the hard pavements, which I often pray might not be of wood, but of such a nature as to give me a safe and sure footing. Remember that I must be ready at any moment to lose my life in your service.

And finally, O MY MASTER, when my useful strength is gone, do not turn me out to starve or freeze, or sell me to some human brute, to be slowly tortured and starved to death; but do thou, MY MASTER, take my life in the kindest way, and your GOD will reward you Here and Hereafter. You will not consider me irreverent if I ask this in the name of HIM who was born in a stable. AMEN.

The latest virtue claimed for radium is that it will cure gout and rheumatism. Berlin doctors are said to have effected cures of these diseases by inhalations of radium emanations by injections of radioactive salts, and by prescribing radioactive waters for internal use.

Yes, I wear a  
**BUCKLEY,**  
 the hat with a  
 real guarantee!

Every man who recognizes the importance of being well-dressed will surely welcome the announcement of the Buckley Hat guarantee. By reason of this guarantee, you may figure safely on the life of your hat as four months at least—provided you wear the "Buckley." No chance of additional hat outlay—the guarantee treats you to a new hat if the Buckley you buy to-day isn't perfectly good four months hence.

Even accident is provided for in this all-embracing Buckley guarantee. No matter how badly a Buckley hat is damaged—if nothing remains but the label and the guarantee slip—these alone will entitle you to a new hat, provided the date on the guarantee shows the hat to have been less than four months in use.

But it's not the guarantee feature alone that should induce you to select the Buckley. There's another vital feature in hat selection—style is just about as important as quality.

There again the Buckley claims your serious consideration. Although English in

make, these hats are built on American lines—and more graceful, more becoming lines, you never yet saw in a hat.

In both material and workmanship, the Buckley excels all others. UNION MADE, and with highest grade felt, they have the wear in them to warrant the remarkable guarantee of their makers. Sold at all leading hat shops at \$2.50.

Other hats may give satisfaction—the Buckley simply must.

**BIBLE CELEBRATION BEGINS**

London, March 21—The great celebration to mark the 300th anniversary of the publication of the authorized version of the Bible, for which plans have been going forward for more than a year, had its formal beginning to-day at Buckingham Palace, where King George received in special audience a deputation representing the British and Foreign Bible Society. His Majesty was presented with a specially prepared Bible to commemorate the anniversary. On Sunday next anniversary sermons will be preached in churches and chapels throughout the United Kingdom and on the Wednesday following the celebration will culminate in a great national gathering at the Royal Albert Hall.

**THINGS NEW AND OLD.**

We won't print any such stuff as that! said the editor loftily as he handed back the manuscript. Well, you needn't be so haughty about it, retorted the irregular contributor. You're not the only one who won't print it.—Tit-Bits.

**BACTERIOLOGIST A MARTYR TO HIS WORK**

New York, March 22—Dr Edward F Ashley, a bacteriologist, died on Swinburne Island in New York harbor to-day, a martyr to his fight against the entry at this port of cerebro-spinal meningitis through infected Greek immigrants. Inoculated in handling the cases, he became ill on Sunday and though treated with serum at the hands of the eminent Dr Simon Flexner, its discoverer, he died of the disease which he combated yesterday.

**WASHING WINDOWS IN WINTER**

In the first place don't wash them. Dust them well, using a large painter's brush to brush the dust off the ledges and frame, and wipe off the glass with old, crumpled paper. This will be a good beginning. Then, when the sun is not shining on them, dab over the glass on the inside a thin paste made of whiting and alcohol, though household ammonia will do instead of the alcohol, and either one should be diluted with an equal amount of water. This should be dabbed on thickly and left to dry; then go over the glass with a soft cloth, or crumpled newspaper and rub the whiting off, polishing with clean paper. Then go over the glass on the outside the same. Soap suds will leave the glass filmy. Washing the inside woodwork with cold tea will give good results; some suggest the use of a cloth dampened with coal oil for the woods.

**FRUIT FLAVORING.**

This is made from the peels of lemons and oranges. Soak the peels over night in salt and water, and in the morning drain and cover with fresh water, and bring to a boil. Drain again throw the water away, and cover again with fresh water, adding enough sugar to make a thick syrup. Bring to a boil and let the peel simmer in this until it has become tender, and by this time the syrup should have thickened considerably, but not to the candying point. Remove from the fire and put into self-sealing jars at once. Some of the peel, chopped fine, with a little of the syrup added, gives a delicious flavor to cake; when preparing for the cake, chop the peel fine, add confectioner's sugar and sufficient water to make it of the right consistency.

**Would You Provide for the Care of Canada's Needy Consumptives?**

THEN SEND YOUR CONTRIBUTIONS TO THE  
**MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES**

MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES. MAIN BUILDING FOR PATIENTS.

A national institution that accepts patients from all parts of Canada. Here is one of hundreds of letters being received daily:—

John D. McNaughton, New Liskeard, Ont.: A young man not belonging here, and suffering from, it is believed, consumption, is being kept by one of the hotels here. He has no means and has been refused admission to our hospital. The conditions where he is offer him no chance. Could he be admitted to your Free Hospital for Consumptives? If not, could you inform me where he can be sent, and what steps are necessary to secure prompt admittance?

NOT A SINGLE PATIENT HAS EVER BEEN REFUSED ADMISSION TO THE MUSKOKA FREE HOSPITAL BECAUSE OF HIS OR HER INABILITY TO PAY.

Since the hospital was opened in April, 1902, one thousand five hundred and twenty-four patients have been treated in this one institution, representing people from every province in the Dominion. For the week ending November 20th, 1903, one hundred and twenty-five patients were in residence. Ninety-six of these are not paying a copper for their maintenance—absolutely free. The other twenty-nine paid from \$2.00 to \$4.00 a week. No one pays more than \$4.00.

Suitable cases are admitted promptly on completion of application papers.

**A GRATEFUL PATIENT**

Norah P. Canham: Enclosed you will find receipt for my ticket from Gravenhurst, hoping that you will be able to oblige me with the fare. I was at your Sanatorium ten months, and I was sent away from there as an apparent cure. I am now working in the city, and I am feeling fine. I was most thankful for the care I got from the doctors and staff, and I must say that I spent the time of my life while I was there.

TAKING THE CURE IN WINTER AT MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES.

The Muskoka Free Hospital for Consumptives is dependent on the good-will and gifts of the Canadian public. Money is urgently needed at the present time to make it possible to care for the large and increasing number of patients that are entering the institution.

**Will you help?**

Where greater urgency?

Truly, Canada's greatest charity.

Contributions may be sent to W. J. Gage, Esq., 84 Spadina Ave., or J. S. Robertson, Sec'y-Treas. National Sanitarium Association, 47 King St. W., Toronto, Canada.

**COMMERCE AND WAR.**

War is destructive of life as well as property. This is well illustrated by a special article by Wm. B. Bailey in the New York Independent. In 1880, he says, the Southern States produced 75,000 bales of cotton. In 1861 this had been increased to four and one half million bales. In 1864, as a result of the Civil War then raging, less than 200,000 bales were produced and it was not until 1877, twelve years after the war closed, that production reached its former level. In 1863, as a result of the war cotton sold at \$1 per pound, while from 1890 to 1903 during the period of peace, it never went above 10¢ per pound.
