The section of the wharf that went down was between the shed and the land, about 100 feet in all. A donkey engine, several coal tubs and a quantity of other material went down with the wharf. There was no person in the vicinity at the time.

IMPOVERISHED BLOOD.

A Common and a dangerous Trouble, You Must Enrich the Blood to Escape Danger.

Anaemia is simply a lack of blood. It is one of the most common and at the same time most dangerous diseases with which growing girls suffer. It is common because the blood so often becomes impoverished during development, when girls are too frequently allowed to over study, over work and suffer from a lack of exercise. It is dangerous because of the stealthiness of its approach, often being well developed before its presence is recognized, and because of its tendency to grow so steadily worse, if not promptly checked, that it may run into consumption.

The value of treatment with Dr Williams' Pink Pills should be known to every mother in the land. These Pills make new, rich blood, tone the organs and nerve, bring a glow of health to pale, sallow cheeks, and drive away the weakness, headaches, faintness; heart palpitation and loss of energy so noticeable in young girls who are suffering from anaemia. To all such Dr Williams' Pink Pills are an actual life saver. Miss Mabel McTavish, Prince Albert, Sask. says in my case I can only say that life had lost its magic: all work was a trial, and even pleasure only a task. When I went up a flight of stairs I was ready to drop from sheer weakness, and I had begun to think life would be a continued burden. But all this is now changed, thanks to Dr Williams' Pink Pills. These were recommended to me, and after taking them for about a month I found my health renewed. I could sleep better, my appetite returned, and I was so strong and well that housework was no longer a burden to me. My sister seemed to be going the same way last summer and Dr Williams' Pink Pills were at once sent for and two boxes made her as well as ever. Dr Williams' Pink Pills are now the prized medicine in our home and doctors bill have been

fewer since we discovered the virtues of this great medicine.

Sold by all medicine dealers or sent by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

RUSSIA SCARED OVER BUBONIC PLAGUE

St Petersburg Feb 8—The vast army of Russia will be mobilized if necessary to protect her frontiers from the invasion of the bubonic plague from Manchuria and China. Conferences of the Czar, Premier Stolypin and the Minister of War were held to day to discuss the object of moving soldiers to the westward and southern frontiers following a despatch relating to the seriousness and progress of the scourge.

Alarm over the spread of the plague in the east was caused here by the receipt of despatches from Perkin stating that it had broken out in the inner city and that a Buddhist priest had died. Although the first despatches declared that only a priest had perished, later advises stated that the situation was more serious and that at least six persons were inoculated with the plague germs. The Chinese government has established a censorship over plague news following the fresh and most dangerous outbreak.
