Fort Fairfield Review

Miss Hildred McLean, who has been under treatment in the Boston Eye and Ear Infirmary, has so far recovered that she is visiting her aunt, Mrs. Frank J. Kimball in Augusta, Me., and will return home in a few weeks.

E. J. Clark, who has been ill for some days, is recovering rapidly.

Smallpox Raging Near Quebec

Montreal, July 30—Utter and complete disregard of health laws in the matter of controlling smallpox is the condition of affairs which special inspectors of the provincial board of health have found to prevail in Indian Lorette and Jeune Lorette, two municipalities in the vicinity of Quebec city.

Absolutely no steps have been taken by the local authorities to deal with the situation and the inspectors detailed to investigate by officials of the provincial board of health in this city report that the disease is raging in many households. In no case, report the inspectors, has quarantine been established, and on their arrival they found people in the early stages of the disease walking about the streets and visiting friends.

As a result the local authorities were told that if they did not take immediate steps the situation would be taken in hand by the provincial board of health and strict measures adopted. The local authorities thereupon decided to hold a joint meeting and are taking steps recommended by the inspectors.

The vaccination bye-law is to be rigidly enforced, quarantine is to be established wherever necessary, and local health officers appointed to take charge of the situation.—Telegraph.

Study Of The Wood Products

Manufacturers Of Maritime Provinces To Aid

Ottawa, July 29th The manufacturers of wood products in the Maritime Provinces, particularly those who are interested in the final products, such as furniture, agricultural implements, wood for distillation, boats, cooperage, planing-mill products, etc., will be asked shortly to co-operate with the Forestry Branch of the Department of the Interior in forwarding an investigation of these woodworking industries, with a view to issuing a bulletin on the subject. Blank Schedules will be issued which the managers will be asked to fill out and return. Mr. R. G. Lewis, of the Forestry Branch will leave Ottawa shortly to assist in the work. He will call on many of the manufacturers and secure data which, when compiled, should result in the advancement of the interests of the general public, and particularly of those having intimate connection with wood-working establishments.

To Inspect Copper in New Brunswick

Montreal, July 27—Armand Moscovici left last evening in business connected with the Vernon Consolidated Mines, Limited, to inspect and report upon the company's copper property at Goose Creek, N. B.

To come suddenly upon a placer gold mine, whilst occupied in digging the foundation of a house on one of the back streets of the city, is the experience which Elias Illieff, a merchant of 405 St. Lawrence Boulevard, Montreal, says he met with late yesterday. The "mine" in question exists on a lot recently purchased by Illieff, and on which he had started operations with a view to erecting a three-story tenement house. Samples of the sand, on being washed, are said to have shown the yellow dust, and they will be submitted to an analyst.

Mrs. H. L. Clarke, daughter and son, of Boston, are visiting Mr. E. J. Clarke Connell Street.
