

Police Court

Craden Dunphy, who has been working on Construction work with Scott & Kelly, at Lower Woodstock, was before Police Magistrate Holyoke Saturday morning, charged with cruelty and beating unnecessarily a horse. The information was laid by John Scott, of the firm of Scott and Kelly. The accused was remanded for examination on Tuesday morning.

Percy Walker, colored, was convicted in the police court Saturday morning of unlawfully peddling liquor, and fined \$100.00 or one month in goal. He is now a county boarder at the iron barred building controlled by the Sheriff.

John Cassidy, of the Parish of Richmond, was before the Police Magistrate Thursday morning charged with assaulting and beating Albert McLaughlin, who was unable to appear and Cassidy was remanded to goal pending developments in McLaughlin's Condition.

Every Line Is Interesting

The Weekly Globe and Canada Farmer has evidently found the secret of perpetual youth. After sixty-eight years of untiring faithful services devoted to the upbuilding, and shaping the fortunes and destiny of the Dominion, it still continues to set the pace in the field of weekly newspaperdom in Canada.

It has always aimed at the highest standards, and proven itself to be a most reliable national and home newspaper. The agricultural interests and general welfare of the nation have been and are still in the broadest sense of the term, its chief concern.

In order to maintain this premier position and keep abreast of the phenomenal development and growth of Canada, The Weekly Globe and Canada Farmer has increased its facilities and perfected its mechanical equipment. Apparently nothing has been left undone to make every detail from the gathering of the news, to the delivery of the paper to the reader complete. The Outlook (New York) was pleased to say in a recent issue, that it is now one of the most complete newspaper plants on the Continent.

The staff has also been increased that the improved facilities may be fully utilized. Full and accurate synopsis of the world's news written by trained men, who know how to say what is necessary in the fewest words; original and carefully edited articles; special contributions from leading writers. Miscellaneous reading of the very highest standard are features which make it the leader among Canadian Metropolitan Weeklies. Every department pulsates with vitality.

The four pages of bright pictures on calendar paper is in itself equal to fifty-two of the ordinary premiums given away each year by some papers. Very favorable arrangements have been made with The Weekly Globe and Canada Farmer whereby our readers can have it in combination with this paper on remarkable favorable terms. Sample copies will be sent to any address by making application either verbally, or by card to this office.

Save Some Clover Seed

Many fields in southern Ontario have this year a fine second crop of clover. About the poorest farm practice is to devote this valuable farm crop to forage purposes, at best a hand-to-mouth policy. The best practice is to save it for seed. In order that the best results may be had from the field devoted to this purpose every foot of the crop should be gone over and the weeds either pulled or spudded. The utmost care in this regard is scarcely sufficient, but such care will yield good returns. The advantages of the home-growing of clover seed are plain enough. If diligence is practised in thoroughly eradicating weeds the farmer will have a supply of clover seed such as will be difficult to procure on any market, as the government standard of purity is none too high. Further, as home-grown seed has become climaticized, and otherwise adapted to local conditions it is much more likely to grow than is the seed from a distance. In this way disappointments and loss accruing from a failure to grow or from a scant growth are reduced to a minimum.

It is high time that Ontario farmers were wider awake to importance of producing their own clover seed. Buying clover seed on the market is largely a habit; on the other hand a little enterprise on the farmer's part will put him in possession of clean seed, thus saving his farm from the pollution consequent upon paying for troublesome weeds from other people's farms. Should a farmer be so fortunate as to

grow more seed than he needs on his own premises he may rest assured of a ready sale for his surplus product.

Weekly Globe and Canada Farmer.

China Sore Over Britain's Stand Regarding Tibet

London, Sept. 2.—Deep resentment is felt in China over the British demand for Tibet's autonomy. Many of the Chinese merchants in Tien Tsi and other cities threaten retaliation for what they regard as an insult and propose to boycott all British goods entering Chinese ports according to a news agency dispatch received here today.

UPPER KINTORE.

Grain is ripening very slowly on account of the cold dull weather and a very late harvest will be the result.

Quite a few former residents of Kintore are spending their vacations at their old homes. Mr. and Mrs. James Cocker and family of Fairfield, Me., and Mr. and Mrs. Frederick Cook and little daughter Eunice of Central Village, Conn. are staying at Wm. Christies for a few weeks.

Mrs. George Workman and son Philip are visiting her father Mr. Alex. Philip.

Miss Annie Patterson, who was called home by the sudden death of her sister, Mrs. Carle has gone to Perth to take care of Charles Lewis, who is ill with Typhoid.

The family of Edward Carle are still with their grandmother Mrs. James Patterson, who has recovered from her injuries in the accident.

Miss Mary Hurley, of Kings County, has returned to take charge of the school.

The Misses Isabel and Mary Martin, of Houlton, are spending the summer months in their old home.

Wedding Bells are ringing. The young people from here attended the Chapman--Inman wedding on Aug. 28.

Miss Annie Coutts and Mr. Leonard Emack, of Andover, are to be married tomorrow Sept. 4.

Left on bases, Woodstock, 3 Fredericton 7. Time, 1 hour 30 minutes. Umpire, Duffy.

THE LITTLE GIANT
Potato Harvester

Strong as a Giant

Performs the Work Easily

"Made Right"

A Perfect Digger

A Few Good Reasons Why The Little Giant Digger Exceeds

Great Strength because perfectly proportioned—Light Draft, by reason of scientific design of hitch—Leverage System direct and easily manipulated—Truck Wheels, large size, and automatically turned—Vines and Trash deposited at side of row—Potatoes not bruised but are thoroughly separated from soil—Main Wheels set close to frame, do not run on the next row—Chain Driven; no gears to wear out—Light Enough for Two Horses and strong enough for four horses—Elevator Web Capacity, sufficient for heaviest rows, being 22 inches wide and 7 feet long—Main Sides of Frame are moulded in one piece to secure a rigid frame.

The Little Giant Potato Digger took the lead in Aroostook County last year, not only in the number sold but in the superior quality of its digging power as well. Many farmers, after seeing it work discarded machines they had used but a few seasons and bought the little Giant, not only on account of the superior work done with this machine, but on account of its light draft, being easily handled by two horses, and as we consider the farmers of Carleton County entitled to just as good machines as our neighbors across the Line, we have secured the agency for the Little Giant and will be pleased to show you this machine and quote prices. Call at our warehouse, or send for circulars.
