BUTTON MAKING.

This is an Occupation That Calls For
No Special Skill.

Buttons have an irresistible fascina-
tion in these days for the clever home
dressmaker, for they put within her
reach a practically infinite number of
effective touches for her frocks which
will take from her very little in the
way of either time or money.

A pretty button can be made by first
covering the padded mold with white
silk and putting over this two thick-
nesses of silver gauze decorated with a
little cluster of steel beads—in the center—
from which radiate half a dozen
or more loops of reseda green chenille.
Narrow shaded ribbon can be woven
into a charming button cover. A founda-
tion should be cut from white silk.
On this lay short lengths of the ribbon,
the edges touching, and sew the ends
securely. Then, with a needle thread-
ed with ribbon, darn in the reverse
pieces. If liked a tiny frill made of
slightly gathered ribbon may be sewed
around the edge of the button.

Motifs cut from lace which has passed
its days of usefulness in the ordi-
nary way can do their part toward
making fancy buttons. A small daisy
pattern tacked to white silk and work-
ed over in satin stitch in any color pre-
ferred with a few French knots added
will make an embroidered button that
is decidedly expensive in appearance.
On cloth or velvet a button covered
with velvet and trimmed with a fine
braid in a fancy mixture of colors may
be used. The braid can be knotted in
the center and radiate toward the outer
rim, where the separate bits should be
connected by a single strand of the
braid, with knots to keep all in place.

SEASONABLE RECIPES.

Corn Souffle.—Green corn and cheese
souffle is little known, possibly, to most
housekeepers, but its acquaintance is
worth making. Have ready a cupful of
corn cut from the cob, a cupful of grat-
ed American cheese, a tablespoonful or
two of minced green pepper, three
eggs, a tablespoonful of butter, half a
cupful of flour, two cupfuls of milk and
half a teaspoonful of salt. Melt the
butter and cook the pepper soft in it.
Make a sauce with the flour, milk, but-
ter and salt. Beat the eggs separately,
turn the yolks into the sauce, stir in
the corn and fold in the whites. Turn
into a buttered dish and bake in a mod-
erate oven about half an hour.

Whitefish Fritters.—When you have
any cold whitefish on hand you can
make a very tasty dish in this way: To
a cupful of the fish flaked up fine add
half a cupful of mashed potatoes, half
a cupful of grated breadcrumbs, half a
cupful of cream, the beaten yolks of
two eggs, salt and pepper to taste. Mix
well together and then make into ob-
long shapes and flatten on both sides.
Beat the whites of the two eggs and
dip the cakes in this, then into bread-
crumbs, and fry a nice brown in ba-
con fat or vegetable oil. Serve at once,
garnished with parsley.

Sliced Peaches.—Four pounds of
peaches, one cupful of vinegar, one
tablespoonful of cinnamon, one table-
spoonful of cloves, three pounds of
brown sugar, one teaspoonful of gin-
ger, one teaspoonful of salt and one-
eighth of a teaspoonful of red pepper.
Boil the sugar and the vinegar. Scald
the peaches, remove the skins and cook
in the sirup. Tie spices in a bag and
cook with the peaches. When the
peaches are tender pour into stone jars.
Reheat the sirup every day for a week,
pouring when boiling over the peaches.
All kinds of small fruits may be spiced
in this manner.

Use of "Mountain Peak" Braid.
Braid is much used on the new hats
and used not in plain bands or bind-

ings, but in all sorts of queer and unex-
pected convolutions.

This new hat displays the "mountain
peak" braid used as edging, and the
black and white quill is placed in a
dashing manner.

Men's Card Prizes.

Prizes for card parties are easily
chosen for women, but for a man's
prize there is usually some difficulty in
selection. A paper cutter is generally
acceptable, and one can now be had
for a very moderate sum, just 35 cents,
which is excellent for this purpose. It
shows a Japanese warrior in full ar-
mor, mounted on horseback, carved as
the handle of a good sized paper knife.
The knife itself is made of bone. This
is stained a brownish tint, which takes
off the crude appearance. Another pa-
per cutter, suitable for a "booby prize,"
is of wood and shows on its surface a
tiny monkey which is reaching up for
two apples just out of his reach. This
one is but 10 cents.

Hints to the Busy Housewife.

If you would have light dumplings
leave the cover off for about ten min-
utes after you have put them in.

Cheese salad dressing for green
salads requires about two tablespo-
onfuls of soft American cheese rubbed
smooth with salt, paprika and a table-
spoonful or two of vinegar. Then add
sufficient oil to make thin enough to
use.

When beets are left from dinner
wash them and rinse in boiling water
to free them from butter or sauce and
drop into a weak vinegar. In this con-
dition they may be kept for a long
time and may be used as needed for
salads and garnishing.

One housekeeper has prevented many
a burned roast or overbaked cake by
setting the alarm clock to the proper
time to open the oven door. Then she
goes about her work in other parts of
the house knowing that she will hear
the imperative call at the right time.

Cauliflower salad is improved by the
addition of stuffed olives and a Span-
ish red pepper or two, both chopped
fine.

Helps For Home Decorators.

Before starting to decorate a room
it is very essential to consider for what
purpose the room is to be used. The
individual tastes and habits of the
people who are to occupy it must be
first taken into account.

The fewer colors used in a room the
more pleasing and restful the result
will be. A multiplicity of colors pro-
duces the same effect as a number of
voices talking at the same time. Each
room should speak with but one voice.
It should contain one color, which at
once and unmistakably asserts its pre-
dominance.

Most rooms contain a mixture of
good, bad and indifferent furniture, so
it is best to adopt the decorative treat-
ment to the best pieces and to discard
those which are in bad taste, replacing
them, if necessary, by willow chairs
and stained deal tables until it is pos-
sible to buy better pieces.

That Bald Spot

Don't let that bald spot grow!

Go to your druggist at once and get a bot-
tle of Parisian Sage and if that don't check
the falling hair, and cause new hair to grow,
nothing will.

Dandruff is the cause of baldness; dandruff
germs cause dandruff. Parisian Sage kills
the germs; eradicates dandruff, stops falling
hair and itching scalp. We will refund your
money, if it fails to do this in two weeks.
Parisian Sage will cause the hair to grow, if
the hair root be not dead. It causes the hair
to grow thicker, more luxuriant, and puts
new life into it.

The girl with the Auburn hair is on every
package of Parisian Sage. It is sold for 50c
by all druggists or sent postpaid by The Gir-
oux Mfg. Co., Fort Erie, Ont., on receipt of
price. Sold and guaranteed by E. W. Mair

THE LOVE OF OATS

Why Normal, Active People Always
Crave Oatmeal

Oats contain more body-building food than
any other grain that grows. They contain
more energy-giving food. You know their
effect on horses.

Oats contain more organic phosphorus
than any other grain, and phosphorus is the
brain's main constituent. They contain
more lecithin, and lecithin is the chief
component of the entire nervous system.

That's why workers love oatmeal. That's
why growing children crave it. It is simply
the call of nature for what bodies, brains
and nerves require.

But some oatmeal fails to meet these
requirements. Only the richest, plumpest
oats supply a food worth while. The choic-
est oats are sifted 62 times to get the
grains for Quaker Oats. Only ten pounds
are selected from a bushel. But these fine
oats, when prepared by the Quaker pro-
cess, supply the utmost in oatmeal.

Oatmeal is the most important food you
serve. And the best costs only one-half
cent per dish. Don't supply your table
with inferior oats.
