### To Lesson Shock of Surgical Operation

Cleveland, Ohio, Aug. 15.—The eyes of the world's foremost surgeons are turned to Cleveland as a result of the latest discovery by Dr. George W. Crile, of a means to lessen the chances of death following the shock of a surgical operation. The new contribution Dr. Crile makes to surgery is the fact that all exhaustion and injurious results can be obviated by not only soothing the brain with an opiate or with nitrous oxide gas, but by simultaneously disconnecting the place operated on, the field of injury and the cutting from the brain itself, so that no painful association or dramatic incident may enter even the narcotized brain of the quietest patient.

### NERVOUS BREAKDOWN

Usually Due to Overwork and Worry—A Tonic is Needed  
Overwork and worry gives rise to nervousness, sleeplessness, headaches, lack of ambition and lack of interest in your work; weak back, indigestion and sometimes a complete break-

down of the nervous system. On every hand you find victims of this kind and often they do not know what to do for themselves. If these are your symptoms you need a tonic and the only way to tone up the nerves is through the blood. Dr. Williams' Pink Pills are a direct nerve tonic because they enrich and build up the blood, and it is through the blood that the nerves are fed. Under their tonic influence nervousness, with all its attendant evils, disappear, and the worried sufferer again enjoys health and strength. Proof of the value of Dr. Williams' Pink Pills in nervous troubles as given by Mrs. Lara Scheving, Lundar, Man., who says:—"I was attacked with nervous trouble which almost drove me to distraction. It would be almost impossible for words to describe my condition. The least thing would startle me and leave me trembling for an hour. I had nervous headaches, and slept very badly at nights, some nights not at all. My appetite grew poor, and I was really a physical wreck. I had been to several doctors and had taken many different medicines, but without any benefit. Then I read of a case similar cured by the use of Dr. Williams' Pink Pills, and I sent for a dozen boxes fully believing it would take at least that many to cure me.

You can judge of my gratitude, however, when I found that after using only half a dozen boxes I was again enjoying the best of health, and have since remained well and strong. I used the remainder of the pills among my children when they seemed out of sorts, and have found them at all times to be the very best of family medicines." You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.
